From New York Times bestselling author Penelope Ward, comes a new standalone novel. The one that got away. Every girl has one, right? Mine was a charming, British aristocrat who turned my world upside down one summer. From the moment I first spotted Leo in the distance through my binoculars, I'd been captivated. I certainly never expected to find a man showering outside of the property across the bay in his birthday suit. Then I noticed his housemate staring back at me with binoculars of his own—watching me watching Leo. That made for an interesting conversation starter when I inevitably ran into them. Turned out, the handsome Brits were only renting that house for the summer in my seaside town. Leo and I formed an instant connection, even though we were technically opposites by all appearances. I taught him how to dig for clams, and he taught me that not all wealthy and powerful guys are pretentious. Despite knowing he was totally wrong for me, I couldn't seem to stay away. It was a wild and crazy few months. And before I knew it, we'd fallen in love. We both had one wish: more time together. But Leo had obligations back home. He lived a life I'd never fit into. And I was going to law school. So, we decided to end it and never look back. A part of me always felt like I'd let my soulmate walk away. I believed our story was over. Until five years later when he sent me a letter that shook me to my core. I'd thought my world was turned upside down that first summer? Well, I knew nothing yet.
