Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

A deeply curious and evenhanded report on our national appetites. --The New York Times In the tradition of Fast Food Nation and The Omnivore's Dilemma, an extraordinary investigation into the human lives at the heart of the American grocery store The miracle of the supermarket has never been more apparent. Like the doctors and nurses who care for the sick, suddenly the

men and women who stock our shelves and operate our warehouses are understood as 'essential' workers, providing a quality of life we all too easily take for granted. But the sad truth is that the grocery industry has been failing these workers for decades. In this page-turning expose, author Benjamin Lorr pulls back the curtain on the highly secretive grocery industry. Combining deep sourcing, immersive reporting, and sharp, often laugh-out-loud prose, Lorr leads a wild investigation, asking what does it take to run a supermarket? How does our food get on the shelves? And who suffers for our increasing demands for convenience and efficiency? In this journey: - We learn the secrets of Trader Joe's success from Trader Joe himself - Drive with truckers caught in a job they call sharecropping on wheels - Break into industrial farms with activists to learn what it takes for a product to earn certification labels like fair trade and free range - Follow entrepreneurs as they fight for shelf space, learning essential tips, tricks, and traps for any new food business - Journey with migrants to examine shocking forced labor practices through their eyes The product of five years of research and hundreds of interviews across every level of the business, *The Secret Life of Groceries* is essential reading for those who want to understand our food system--delivering powerful social commentary on the inherently American quest for more and compassionate insight into the lives that provide it.

From the streets of Baltimore to the halls of the New Mexico Philharmonic, a musician shares his remarkable story in *I'm Possible*, an inspiring memoir of perseverance and possibility. Growing up, Richard Antoine White and his mother didn't have a key to a room or a house. Sometimes they had shelter, but they never had a place to call home. Still, they always had each other, and from a young age, Richard believed he could look after his mother, even as she struggled with alcoholism and would frequently disappear, sending Richard into loops of visiting familiar spots until he found

her again. And he always did—until one night, when he almost dies searching for her in the snow, and is taken in by his adoptive grandparents. Living with his grandparents is an adjustment with rules and routines, but when Richard joins band for something to do, he unexpectedly discovers a talent and a sense of purpose. Taking up the tuba feels like something he can do that belongs to him, and playing music is like a light going on in the dark. Soon Richard gains acceptance to the prestigious Baltimore School for the Arts, and continues thriving in his musical studies as he navigates racial and socioeconomic disparities as one of few Black students in his programs. With fierce determination, Richard pushes forward on his remarkable path, eventually securing a coveted spot in a symphony orchestra and becoming the first African American to earn a doctorate in music for tuba performance. A professor and mentor, Richard now shares his extraordinary story—of dreaming big, impossible dreams and making them come true. Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides' witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there's a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie's grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator's life in motion. Middlesex is a

grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It's a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.

As sightings of the Virgin Mary have increased around the world over the last couple of decades, the Vatican has placed increased importance on a group of theologians, scientists and physicians whose job is to investigate them. These are the miracle detectives. Randall Sullivan's book follows these investigators on the trail of the Virgin Mary from the Vatican City in Rome to Oregon, Arizona, Venezuela, Switzerland, Ireland, Japan and Kenya. What he discovers is that every road and each mystery leads back to a tiny village in Bosnia. There, against the background of the ongoing war, eight young visionaries have been receiving what they say are the final apparitions of the Madonna. These appearances, which began in 1981 in a small village in the former Yugoslavia, have been more thoroughly examined than any purported miraculous phenomenon in history. To date, the results defy explanation. This is an amazing story of religious mysticism, as well as a testing of the author's own faith and beliefs. When his beloved donkey becomes ill, a young Italian boy is determined to take her to the crypt of St. Francis in Assisi in hopes of making her well.
