Peter disobeys his mother by going into Mr. McGregor's garden and almost gets caught.

NATIONAL BESTSELLER • In this witty and warm-hearted account, Peter Mayle tells what it is like to realize a long-cherished dream and actually move into a 200-year-old stone farmhouse in the remote country of the Lubéron with his wife and two large dogs. He endures January's frosty mistral as it comes howling down the Rhône Valley, discovers the secrets of goat racing through the middle of town, and delights in the glorious regional cuisine. *A Year in Provence* transports us into all the earthy pleasures of Provençal life and lets us live vicariously at a tempo governed by seasons, not by days.

The most accessible guide to the essential ideas of “the inventor of modern management”. In late 2003, ninety-four-year-old Peter Drucker invited Jeffrey Krames to his home for an unprecedented day-long interview. He spoke candidly about his seminal management principles, his enormous body of work (thirty-eight books over six decades), and the leaders he had advised over the years (including Jack Welch). Krames used the insights he gained that day to create *Inside Drucker's Brain*--a compact guide to the great man's wisdom. Krames had no intention of writing a biography, but rather a book that would showcase Drucker's most important ideas and strategies, and explain why they are just as useful today as they were decades ago. Drucker's biggest contribution was a mind-set, not a methodology. He focused on prodding managers to ask the right questions, to look beyond what they thought they knew, and to focus on tomorrow rather than yesterday. If anything, this mind-set is more valuable in the digital age than it was in the industrial age. This user-friendly book will help readers grasp all of Drucker's key ideas on leadership, strategy, innovation, personal effectiveness, career development, and many other topics.

Peter Sagal, the host of NPR's *Wait Wait...Don't Tell Me!* and a popular columnist for *Runner's World*, shares “commentary and reflection about running with a deeply felt personal story, this book is winning, smart, honest, and affecting. Whether you are a runner or not, it will move you” (Susan Orlean). On the verge of turning forty, Peter Sagal—brainiac Harvard grad, short bald Jew with a disposition towards heft, and a sedentary star of public radio—started running seriously. And much to his own surprise, he kept going, faster and further, running fourteen marathons and logging tens of thousands of miles on roads, sidewalks, paths, and trails all over the United States and the world,

including the 2013 Boston Marathon, where he crossed the finish line moments before the bombings. In *The Incomplete Book of Running*, Sagal reflects on the trails, tracks, and routes he's traveled, from the humorous absurdity of running charity races in his underwear—in St. Louis, in February—or attempting to “quiet his colon” on runs around his neighborhood—to the experience of running as a guide to visually impaired runners, and the triumphant post-bombing running of the Boston Marathon in 2014. With humor and humanity, Sagal also writes about the emotional experience of running, body image, the similarities between endurance sports and sadomasochism, the legacy of running as passed down from parent to child, and the odd but extraordinary bonds created between strangers and friends. The result is “a brilliant book about running...What Peter runs toward is strength, understanding, endurance, acceptance, faith, hope, and charity” (P.J. O'Rourke).

Decades ago, Japan won the Second World War. Americans worship their infallible Emperor, and nobody believes that Japan's conduct in the war was anything but exemplary. Nobody, that is, except the George Washingtons – a shadowy group of rebels fighting for freedom. Their latest subversive tactic is to distribute an illegal video game that asks players to imagine what the world might be like if the United States had won the war instead. Captain Beniko Ishimura's job is to censor video games, and he's tasked with getting to the bottom of this disturbing new development. But Ishimura's hiding something... He's slowly been discovering that the case of the George Washingtons is more complicated than it seems, and the subversive videogame's origins are even more controversial and dangerous than the censors originally suspected. Part detective story, part brutal alternate history, *United States of Japan* is a stunning successor to Philip K Dick's *The Man in the High Castle*. My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. In *Autonorama: The Illusory Promise of High-Tech Driving*, historian Peter Norton argues that driverless cars cannot be the safe, sustainable, and inclusive "mobility solutions" that tech companies and automakers are promising us. The salesmanship behind the "driverless future" is distracting us from better ways to get around that we can implement now. Unlike autonomous vehicles, these alternatives are inexpensive, safe, sustainable, and inclusive. Norton takes the reader on an engaging ride--from the GM Futurama exhibit to "smart" highways and vehicles--to show how we are once again being sold car dependency in the guise of mobility. *Autonorama* is hopeful, advocating for wise, proven, humane mobility that we can invest in now, without waiting for technology that is forever just out of reach.

How to Walk Across America is the survival guide for the crazy, courageous few who want (or need) to chuck it all and walk from ocean to ocean. No nonsense. No marketing. Just lessons from the road, from people who have actually walked across America. This is the ultimate primer on mega-long distance hiking, practical advice to keep feet from failing, sanity from disintegrating, and bank accounts from disappearing, no matter how long the hike. Attorney, adventurer, and author Tyler Coulson walked across America in 2011 with his dog, Mabel. Contributor Nate Damm did it in 2011, and contributors John and Kait Seyal did it in 2012, with three therapy dogs. Coulson shares lessons that you can only learn on the road, from common sense to highway secrets. He writes with candor and humor, stripping away all the marketing and glamour of high-tech, high-dollar hiking. What's left is the ultimate first-level guide to the practice of chucking it all and walking out. It pulls no punches: it will scare you, inspire you, and leave you laughing. Tyler Coulson is also the author of *BY MEN OR BY THE EARTH*.

Do you have a real relationship with God, or do you just have a religion? Do you know God, or do you just know about God? In *How Big Is Your God?* Paul Coutinho, SJ, challenges us to grow stronger and deeper in our faith and in our relationship with God—a God whose love knows no bounds. To help us on our way, Coutinho introduces us to people in various world religions—from Hindu friends to Buddhist teachers to St. Ignatius of Loyola—who have shaped his spiritual life and made possible his deep, personal relationship with God.

In this "beautifully written, sharply observed, and heartfelt" guide to his hometown (New York Times), legendary New York City journalist Pete Hamill leads us on an unforgettable journey through the city he loves. Walking the Manhattan streets he loves, from Times Square to the island's southern tip, Pete Hamill combines a moving memoir of his own days and nights in New York with a lively and revealing history of the city's most enduring places and people. "Pete Hamill lovingly captures the vibrant sights, sounds, and smells of Manhattan from Battery Park to midtown, the most important, most exciting stretch of real estate in the world." --New York Daily News

A Swiss orphan is heartbroken when she must leave her beloved grandfather and their happy home in the mountains to go to school and to care for an invalid girl in the city.

In a hierarchy, every employee rises to the level of their own incompetence. This simple maxim, defined by this classic book over 40 years ago, has become a beacon of truth in the world of work. From the civil service to multinational companies to hospital management, it explains why things constantly go wrong: promotion up a hierarchy inevitably leads to over-promotion and

incompetence. Through barbed anecdotes and wry humour the authors define the problem and show how anyone, whether at the top or bottom of the career ladder, can avoid its pitfalls. Or, indeed, avoid promotion entirely!

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

The face of the pedestrian safety crisis looks a lot like Ignacio Duarte-Rodriguez. The 77-year old grandfather was struck in a hit-and-run crash while trying to cross a high-speed, six-lane road without crosswalks near his son's home in Phoenix, Arizona. He was one of the more than 6,000 people killed while walking in America in 2018. In the last ten years, there has been a 50 percent increase in pedestrian deaths. The tragedy of traffic violence has barely registered with the media and wider culture.

Disproportionately the victims are like Duarte-Rodriguez—immigrants, the poor, and people of color. They have largely been blamed and forgotten. In *Right of Way*, journalist Angie Schmitt shows us that deaths like Duarte-Rodriguez's are not unavoidable "accidents." They don't happen because of jaywalking or distracted walking. They are predictable, occurring in stark geographic patterns that tell a story about systemic inequality. These deaths are the forgotten faces of an increasingly urgent public-health crisis that we have the tools, but not the will, to solve. Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic. Her investigation unveils why pedestrians are dying—and she demands action. *Right of Way* is a call to reframe the problem, acknowledge the role of racism and classism in the public response to these deaths, and energize advocacy around road safety. Ultimately, Schmitt argues that we need improvements in infrastructure and changes to policy to save lives. *Right of Way* unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities. It challenges us to imagine and demand safer and more equitable cities, where no one is expendable.

workers—with even worse results at the bottom and for people of color—while bestowing billions on the few at the very top. In this “accessible and inspiring analysis”, lifelong anti-poverty advocate Peter Edelman assesses how the United States can have such an outsized number of unemployed and working poor despite important policy gains. He delves into what is happening to the people behind the statistics and takes a particular look at young people of color, for whom the possibility of productive lives is too often lost on the way to adulthood (Angela Glover Blackwell). For anyone who wants to understand one of the critical issues of twenty-first century America, *So Rich, So Poor* is “engaging and informative” (William Julius Wilson) and “powerful and eloquent” (Wade Henderson).

Jenkins walked from New York state to New Orleans, searching for himself and his country.

A New York Times bestseller: A “charming” memoir of growing up Jewish among New Orleans high society—and finding a place in the bigger world (Winston Groom, *The Wall Street Journal*). The Wolf family had been in New Orleans for generations. They were Jewish but—as Peter Wolf’s grandmother put it—“not in an obvious way.” In fact, they threw lavish Christmas parties to entertain Peter’s father’s friends in the cotton business and even put up a tree. But despite their success and their philanthropic work, the Wolfs were always excluded from NOLA’s inner circles, elite clubs, and high-status Mardi Gras krewes. It took a detour to New England—where Peter attended Exeter and Yale, and met friends like Calvin Trillin—to put the young man in touch with his cultural roots, and an adventurous adult life beyond the Big Easy to see the corruption, insularity, and racism that lurked beneath the cultural and culinary delights of his home. With a fond heart and a clear, candid view, Wolf offers this reminiscence of his childhood in Metairie, Louisiana, and the unique social hierarchies of New Orleans, with its old Creole families and residents both rich and poor. A meditation on place and identity, this is “a loving and beautifully written portrait of New Orleans in the 1950s and 1960s” and a look at a landscape that was shifting and disappearing even before Hurricane Katrina altered it forever (Booklist).

Beginning in New Orleans, Peter Jenkins continues his walk across America—with his bride Barbara. Lavishly illustrated with 48 pages of full-color and black-and-white photos, here is the story of the journey that captured a nation’s heart, now available for the first time in trade paperback.

Allison gives us the guide's-eye view of living in the bush, confronting the world's fiercest terrain of wild animals and, most challenging of all, managing herds of gaping tourists. Passionate for the animals of the Kalahari, Allison works as a top safari guide in the wildlife-rich Okavango Delta. As he serves the whims of his wealthy clients, he often has to stop the impulse to run as far away from them as he can, as these tourists are sometimes more dangerous than a pride of lions. No one could make up these outrageous-but-true tales: the young woman who rejected the recommended safari-friendly khaki to wear a more "fashionable" hot pink ensemble; the lost tourist who happened to be drunk, half-naked, and a member of the British royal family; establishing a real friendship with the continent's most vicious animal; the Japanese tourist who requested a repeat performance of Allison's being charged by a lion so he could videotape it; and spending a crazy night in the wild after blowing a tire on a tour bus, revealing that Allison has as much good-natured scorn for himself. The author's humor is exceeded only by his love and respect for the animals, and his goal is to limit any negative exposure to humans by planning trips that are minimally invasive—unfortunately it doesn't always work out that way! New story: People often ask safari guides about the experience that frightened them the most. In this story Peter Allison tells of the time he became aware of unseen danger, and knew that somewhere within meters of him was a hunting lioness. Peter Allison is originally from Sydney, Australia. His safaris have been featured in National Geographic, Conde Nast Traveler, and on television programs such as Jack Hanna's Animal Adventures. He travels frequently to speaking appearances, and splits most of his time between Botswana, Sydney, and San Francisco.

More than twenty years ago, a disillusioned college graduate named Peter Jenkins set out with his dog Cooper to look for himself and his nation. His memoir of what he found, *A Walk Across America*, captured the hearts of millions of Americans. Now, Peter is a bit older, married with a family, and his journeys are different than they were. Perhaps he is looking for adventure, perhaps inspiration, perhaps new communities, perhaps unspoiled land. Certainly, he found all of this and more in Alaska, America's last wilderness. Looking for Alaska is Peter's account of eighteen months spent traveling over twenty thousand miles in tiny bush planes, on snow machines and snowshoes, in fishing boats and kayaks, on the Alaska Marine Highway and the Haul Road, searching for what defines Alaska. Hearing the amazing stories of many real Alaskans--from Barrow to Craig, Seward to Deering, and everywhere in between--Peter gets to know this place in the way that only he can. His resulting portrait is a rare and unforgettable depiction of a dangerous and beautiful land and all the people that call it home. He also took his wife and eight-year-old daughter with him, settling into a "home base" in Seward on the Kenai Peninsula, coming and going from there, and hosting the rest of their family for extended visits. The way his family lived, how they made Alaska their home and even participated in Peter's explorations, is as much a part of this story as Peter's own travels. All in all, Jenkins delivers a warm, funny, awe-inspiring, and memorable diary of discovery--both of this place that captures all of our imaginations, and of himself, all over again.

"Anyone who thinks walking across the country is about walking, I'm here to tell you that it's not."

The story of man's continental leap of faith and the country that caught him.

Twenty-five years ago, a disillusioned young man set out on a walk across America. This is the book he wrote about that journey -- a classic account of the reawakening of his faith in himself and his country. "I started out searching for myself and my country," Peter Jenkins writes, "and found both." In this timeless classic, Jenkins describes how disillusionment with society in the 1970s drove him out onto the road on a walk across America. His experiences remain as sharp and telling today as they were twenty-five years ago -- from the timeless secrets of life, learned from a mountain-dwelling hermit, to the stir he caused by staying with a black family in North Carolina, to his hours of intense labor in Southern mills. Many, many miles later, he learned lessons about his country and himself that resonate to this day -- and will inspire a

MORE THRILLING ADVENTURES WITH THE WORLD'S FAVOURITE SAFARI GUIDE Plans are usually only good for one thing - laughing at in hindsight. So, armed with rudimentary Spanish, dangerous levels of curiosity and a record of poor judgement, I set off to tackle whatever South America could throw at me. Not content with regular encounters with dangerous animals on one continent, Peter Allison decided to get up close and personal with some seriously scary animals on another. Unlike in Africa, where all Peter's experiences had been safari based, he planned to vary things up in South America, getting involved with conservation projects as well as seeking out "the wildest and rarest wildlife experiences on offer". From learning to walk - or rather be bitten and dragged along at speed by - a puma in Bolivia, to searching for elusive jaguars in Brazil, finding love in Patagonia, and hunting naked with the remote Huaorani people in Ecuador, *How to Walk a Puma* is Peter's fascinating and often hilarious account of his adventures and misadventures in South America.

The discovery of a mysterious object in the U.S. Capitol building and a subsequent kidnapping lead Harvard symbologist Robert Langdon into a web of mysterious codes, secret locations, and hidden knowledge.

Forsthoefel headed out the back door of his home in Pennsylvania with a backpack, an audio recorder, his copies of Whitman and Rilke, and a sign that read "Walking to Listen." Over the course of a year he faced an Appalachian winter and a Mojave summer. He met beasts inside: fear, loneliness, doubt. But he also encountered incredible kindness from strangers. Ultimately, this the stories of others living all along the roads of America carry this journey and sing out how a life is made, and how our nation defines itself on the most human level.
