Written from an American Indian perspective with input from religious scholars and community leaders, this pioneering reference work explores indigenous North American religions and religious practices and rituals.

The Encyclopedia of Food Grains is an in-depth and authoritative reference covering all areas of grain science. Coverage includes everything from the genetics of grains to the commercial, economic and social aspects of this important food source. Also covered are the biology and chemistry of grains, the applied aspects of grain production and the processing of grains into various food and beverage products. With the paramount role of cereals as a global food source, this Encyclopedia is sure to become the standard reference work in the field of science. Also available online via ScienceDirect – featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit www.info.sciencedirect.com. Written from an international perspective the Encyclopedia concentrates on the food uses of grains, but details are also provided about the wider roles of grains Well organized and accessible, it is the ideal resource for students, researchers and professionals seeking an authoritative overview on any particular aspect of grain science This second edition has four print volumes which provides over 200 articles on food grains Includes extensive cross-referencing and "Further Reading" lists at the end of each article for deeper exploration into the topic This edition also includes useful items for students and teachers alike, with Topic Highlights, Learning objectives, Exercises for Revision and exercises to explore the topic further

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"-- Describes Latin American theater from pre-Columbian times to the present, with sections on each country and entries for playwrights, theaters, and cultural movements, placing them within the context of international literature.

Contains approximately 2,500 alphabetically arranged entries providing information on people, events, and topics related to a variety of educational areas such as administration, reform, history, church-state conflicts, and civil rights, each with bibliographic references.

A collection of letters from a cross-section of Japanese citizens to a leading Japanese newspaper, relating their experiences and thoughts of the Pacific War.

The Encyclopedia of Politics in the American West is an A to Z reference work on the political development of one of America's most politically distinct, not to mention its fastest growing, region. This work will cover not only the significant events and actors of Western politics, but also deal with key institutional, historical, environmental, and sociopolitical themes and concepts that are important to more fully understanding the politics of the West over the last century.

Contains all twenty-one volumes of Grolier's Academic American Encyclopedia.

The Encyclopedia of Human Behavior, Second Edition is an award-winning three-volume reference on human action and reaction, and the thoughts, feelings, and physiological functions behind those actions. Presented alphabetically by title, 300 articles probe both enduring and exciting new topics in physiological psychology, perception, personality, abnormal and clinical psychology, cognition and learning, social psychology, developmental psychology, language, and applied contexts. Written by leading scientists in these disciplines, every article has been peer-reviewed to establish clarity, accuracy, and comprehensiveness. The most comprehensive reference source to provide both depth and breadth to the study of human behavior, the encyclopedia will again be a much-used reference source. This set appeals to public, corporate, university and college libraries, libraries in two-year colleges, and some secondary schools. Carefully crafted, well written, and thoroughly indexed, the encyclopedia helps users—whether they are students just beginning formal study of the broad field or specialists in a branch of psychology—understand the field and how and why humans behave as we do. Named a 2013 Outstanding Academic Title by the American Library Association's Choice publication Concise entries (ten pages on average) provide foundational knowledge of the field Each article features suggested further readings, a list of related websites, a 5-10 word glossary and a definition paragraph, and cross-references to related articles in the encyclopedi Newly expanded editorial board and a host of international contributors from the United States, Australia, Belgium, Canada, France, Germany, Ireland, Israel, Japan, Sweden, and the United Kingdom

This new four-volume encyclopedia is the most comprehensive and up-to-date resource available on the history of Native Americans, providing a lively, authoritative survey ranging from human origins to present-day controversies. • Approximately 450 entries within four separate volumes • Approximately 110 contributors from among the foremost scholars in the fields, including Troy Johnson on self-determination movements, Richard King on sports mascots, and Jon Rehyner on recovery of Native languages • Hundreds of images, including illustrations, photographs, and maps • A series of helpful research tools rounding out the fourth volume, including an extensive chronology, topical bibliography, and a comprehensive index

"This encyclopedic reference work has three types of entries: thematic essays, topical entries, and biographical entries. The essays synthesize existing work to provide interpretations of important aspects of the Polish American experience. The topical entries identify specific places, events, or organizations. The biographical entries identify Polish Americans who have made significant contributions at the regional or national level"--Provided by publisher.

Encyclopedia of Caves, Third Edition, provides detailed background information to anyone with a serious interest in caves. This includes students, both undergraduate and graduate, in the earth, biological and environmental sciences, and consultants, environmental scientists, land managers and government agency staff whose work requires them to know something about caves and the biota that inhabit them.

Caves touch on many scientific interests in geology, climate science, biology, hydrology, archaeology, and paleontology, as well as more popular interests in sport caving and cave exploration. Case studies and descriptions of specific caves selected for their special features and public interest are also included. This book will appeal to these audiences by providing in-depth essays written by expert authors chosen for their expertise in their assigned subject. Features 14 new chapters and 13 completely rewritten chapters Contains beautifully illustrated content, with more than 500 color images of cave life and features Provides extensive bibliographies that allow readers to access their subject of interest in greater depth

Contains numerous entries on personalities, events, terms, places, and special fields, and includes maps, charts, and diagrams

Entries discuss the lives and careers of businesswomen and cite works for further reading. This set also includes roughly 100 interspersed entries on topics central to American businesswomen, including career planning, childcare, diversity, education, the finance industry, flexible work arrangements, golf and real estate.--from back cover.

"Multidisciplinary, scholarly work by well-known political scientist and specialist of inter-American relations. Foremost reference in the field. More comprehensive and up-to-date than Sheinin's or Stoetzer's. Lengthy entries describe in historical perspective the major events and facets of the inter-American system (IAS) at all levels: national, regional, sub-regional, institutional (OAS, IDB, NAFTA, etc.), and personal/personnel. Each entry followed by section with leading, relevant sources in English and Spanish. Also includes useful bibliographic essay (p. 533-536) and extensive index (p. 536-561). Chronology and appendices include IAS membership, nine structural charts, and texts of OAS Charter and Rio Treaty"--Handbook of Latin American Studies, v.57.
