We would all like the world to become a better place. Laws and programs are helpful and are designed with good intentions, but there's only so much they can do. It really comes down to each person doing his part to live life as problem-free as possible for him. Since no one is an island unto himself, anyone's lack of personal responsibility or good ethics affects others – whether just those close to him or the general population. We all hope to live a happy life. However, hoping is not the most effective way to ensure you reach that very important goal. Instead of relying on the remote possibility of consistent GOOD LUCK, learn how to consider, prepare for, and optimally handle nearly every situation you might encounter in life to ensure that you reap rewards for the efforts you have to expend to live either way. Discover how you can become a more knowledgeable, resilient and worthwhile contributor to society by

could protect your computer from malicious activity by installing an antivirus program and activating a firewall utility. Unfortunately, that's no longer good enough; the Internet has become a much darker place, plagued not only by rogue software but also by dangerous criminals and shadowy government agencies. *Is It Safe?* addresses the new generation of security threat. It presents information about each type of threat and then discusses ways to minimize and recover from those threats. *Is It Safe?* differs from other security books by focusing more on the social aspects of online security than purely the technical aspects. Yes, this book still covers topics such as antivirus programs and spam blockers, but it recognizes that today's online security issues are more behavioral in nature—phishing schemes, email scams, and the like. Are you being scammed? Learn how to spot the newest and most insidious computer security threats—fraudulent retailers, eBay scammers, online con artists, and the like. Is your identity safe? Avoid being one of the nine million Americans each year who have their identities stolen. Today's real Internet threats aren't viruses and spam. Today's real threat are thieves who steal your identity, rack up thousands on your credit card, open businesses under your name, commit crimes, and forever damage your reputation! *Is Big Brother watching?* Get the scoop on online tracking and surveillance. We examine just who might be tracking your online activities and why. Is your employer watching you? How to tell when you're being monitored; and how to determine what is acceptable and what isn't.
