Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Wahlen/Jones/Pagach's INTERMEDIATE ACCOUNTING, 2E boosts reader confidence in mastering the concepts of intermediate accounting like no other book. Researching Writing is an accessible, informative textbook that teaches undergraduates how to conduct ethical, authentic research in writing studies. The book introduces students to the research approaches used most often and offers a course framework for professors creating or teaching research courses themselves. Author Joyce Kinkead lays out the research process, including finding and defining questions, planning, and starting the research. Expository content introduces the language and methods of writing research, and specific methods are demonstrated in published examples, illustrating student work using student work and showing that it is possible for students to join the scholarly conversation in writing studies. Other features include student activities, instructor resources, student resources, and links to external content on journal websites, digital publications, YouTube, and similar work. The first-ever textbook for research methods in writing studies for undergraduates, Researching Writing takes a hands-on approach that excites and engages students in the depth and complexities of research and will influence the creation of courses in new writing majors as the field continues to grow.
