Mary Jo Ryan travelled over twenty thousand miles, from Ireland, to Australia, to Savannah, Georgia, in search of love, security, and peace. Instead, she found bigotry, hatred, betrayal, and pain; and the nightmare of a secret which she carried alone, until she met Frances Jackson and Richard Frankel. Frances was an African-American war widow whose courage saved Mary Jos life and whose strong faith inspired her to live above her loneliness. Richard was a combat pilot and Korean War hero seeking the truth in a world of wartime lies. Richards search to find his brother, a priest who had disappeared in 1949, revealed a Catholic conspiracy and a cover-up buried in the Pentagon. But it also led him to meet Mary Jo, and to help her carry the burden of a secret which she would keep for fifty years. Mary Jo and her two sons became the family which Richard never knew. But his attempt to overcome his own secret shame would lead to a crime which would forever link Saint Patricks parish and a 1961 CIA operation in Cuba, in a countdown to tragedy. Much more than a mystery, this is the story of a Christian womans faith, an embittered soldiers desperation, and a lonely warriors courage. In Gods providential plan, they overcome a web of lies and secret sins, on their shared journey to forgiveness and truth.

Everybody knows what a notary public does, right? Actually, there is much misunderstanding and confusion about what the proper role and duty of a notary is. A notary public does not ?legalize? documents, or verify the accuracy or truthfulness of the content or statements made in a document, and yet the role that a notary plays in ascertaining the identity of the person who signs a document, placing that person under oath, if required, and determining the signer's intent and willingness to consent to the transaction is vital in modern society. A notary public is a public official commissioned by the Secretary of State to administer oaths and affirmations, take acknowledgments, witness signatures, and perform other duties as permitted by state law. A notary should be familiar with the Idaho notary laws and to follow the standards of reasonable care for performing a notarial act.

These recommendations are based on existing good practice and are intended as a practical tool to provide helpful guidance and to improve the implementation of the provisions of the Aarhus Convention in decision-making to: a) assist Parties when designing their legal framework on public participation in environmental decision-making; b) assist public officials when designing and carrying out public participation procedures on environmental decision-making under the Convention, and c) provide an invaluable tool through which to share expertise and good practice so as to promote participation. The Recommendations may also be of value to public, NGOs and the private sector involved in environmental matters.

India is ageing. One response of Indian policy makers has been introduction of the New Pension Scheme (NPS), a defined contribution pension scheme which is mandatory for civil servants and voluntary for the rest of the population. Given the size of the target population, even if take up is modest, NPS savings may soon provide huge amounts of capital to the Indian economy. However, challenges are abound. What governance structure will best achieve the ultimate policy goal of serving the needs of savers? What business processes and information technology design will serve members best? How effectively will the NPS attack the problem of old-age poverty? In this book, a multi-disciplinary international team, comprised of economists, lawyers, pension management experts, and capital market experts, attempt to answer these and other questions. The book proposes significant legal, regulatory, and governance reforms for the NPS and other existing pension schemes, as well. It finds that current NPS business practices cannot keep pace with potential growth of the system and makes suggestions on how to take better advantage of information technology. Based on review of experience elsewhere and state-of-the-art economic-demographic modelling, it warns that the NPS in its current form does not address the retirement income needs of the lifelong very poor, suggesting that it is only one in a range of responses needed to cope with the challenges of population ageing in India.
