#1 NEW YORK TIMES BESTSELLER Our earliest experiences shape our lives far down the road, and *What Happened to You?* provides powerful scientific and emotional insights into the behavioral patterns so many of us struggle to understand. "Through this lens we can build a renewed sense of personal self-worth and ultimately recalibrate our responses to circumstances, situations, and relationships. It is, in other words, the key to reshaping our very lives."—Oprah Winfrey This book is going to change the way you see your life. Have you ever wondered "Why did I do that?" or "Why can't I just control my behavior?" Others may judge our reactions and think, "What's wrong with that person?" When questioning our emotions, it's easy to place the blame on ourselves; holding ourselves and those around us to an impossible standard. It's time we started asking a different question. Through deeply personal conversations, Oprah Winfrey and renowned brain and trauma expert Dr. Bruce Perry offer a groundbreaking and profound shift from asking "What's wrong with you?" to "What happened to you?" Here, Winfrey shares stories from her own past, understanding through experience the vulnerability that comes from facing trauma and adversity at a young age. In conversation throughout the book, she and Dr. Perry focus on understanding people, behavior, and ourselves. It's a subtle but profound shift in our approach to trauma, and it's one that allows us to understand our pasts in order to clear a path to our future—opening the door to resilience and healing in a proven, powerful way.

INSTANT NEW YORK TIMES BESTSELLER An urgent primer on race and racism, from the host of the viral hit video series "Uncomfortable Conversations with a Black Man" "You cannot fix a problem you do not know you have." So begins Emmanuel Acho in his essential guide to the truths Americans need to know to address the systemic racism that has recently electrified protests in all fifty states. "There is a fix," Acho says. "But in order to access it, we're going to have to have some uncomfortable conversations." In *Uncomfortable Conversations With a Black Man*, Acho takes on all the questions, large and small, insensitive and taboo, many white Americans are afraid to ask—yet which all Americans need the answers to, now more than ever. With the same open-hearted generosity that has made his video series a phenomenon, Acho explains the vital core of such fraught concepts as white privilege, cultural appropriation, and "reverse racism." In his own words, he provides a space of compassion and understanding in a discussion that can lack both. He asks only for the reader's curiosity—but along the way, he will galvanize all of us to join the antiracist fight.

Where does reality stop and fantasy begin? In the case of *The Walking Dead* superstar Norman Reedus, the question is still very much up in the air. His Daryl Dixon is a very flawed, psychologically scarred character in a zombie-infested world. And there is much in his portrayal that is informed by a real life that is equally flawed and equally scarred. In *Norman Reedus: An Unauthorized Biography: True Tales of the Walking Dead's Zombie Hunter*, the first detailed look at Norman Reedus' life and times, you will get it all. The good, the bad and the ugly. This book chronicles his days as a defiant young man in a fractured but ultimately liberating family life, allegations of physical abuse from Reedus himself, to his struggles in the Los Angeles art underground, alcohol problems that saw him in AA and, for a time, homeless, his breakthrough in acting, modeling and the slow, steady and never boring journey through love, fatherhood and his often truly odd professional choices. You'll discover why Reedus said thanks but no thanks to an offer to play opposite a reigning superstar, how he became Daryl Dixon and how *The Walking Dead* changed his life. Oh yes, there is that penchant for roadkill. New York Times Bestselling author Marc Shapiro has dug deep, tracking down people who knew him way back when as well as in the here and now for original interviews. They were willing to talk and they revealed stories about Reedus that even the most fanatic fans won't know. The author's research was relentless, digging into deep, dark and obscure corners. Norman Reedus' world is about real life wrapped around a world of fantasy. *Norman Reedus: The Unauthorized Biography: True Tales of the Walking Dead's Zombie Hunter* pulls no punches, tells only the truth and leaves the rest up to the reader. Which ultimately is the way Norman Reedus would want it.

The history of terrorism has been largely a history of perpetrators, their motives and actions. The history of their victims has always seemed to be of secondary importance. But terrorism is communication by violence, and its efficiency depends significantly on the selection and the treatment of the victims by the perpetrators, on the one hand, and the perception and acknowledgement of victimhood by the public, on the other. How does it affect our picture of the history of terrorism then, if the victims are moved centre stage? If the focus is put on their suffering, their agency, their helplessness, or on how they are acknowledged or exploited by society, politics and media? If the central role is taken into account which they play in terrorist propaganda as well as in the emotional response of the public? The contributions to this edition of the *European History Yearbook* will examine such questions in a broad range of historical case studies and methods, including visual history. Not least, they aim at historicizing the roles of survivors and relatives in the social process of coming to terms with terrorist violence, a question highly relevant up to the present day.

"Warning: this book is NOT a new-age self-help softy. Perhaps it's the subject that initially enchanted me. I personally wish I had thought of having a Conversation with MY Womb! Giuditta Tornetta did think of it, and she rendered her trailblazing idea into a book that is at once practical, and a wildly esoteric page-turner." -Midwife Robin Lim, 2011 CNN Hero, International Alexander Langer Award Recipient.

"Conversations with the Womb is a guide back to yourself. It is time for this material to inspire and influence today's woman." -Kelly Brogan MD, Holistic Women's Health. "Conversations with the Womb is a treasure. A perfect way to connect with the profound wisdom we all carry inside." -Christiane Northrup, M.D., ob/gyn physician and author of the New York Times bestsellers: *Women's Bodies*, *Women's Wisdom* and *The Wisdom of Menopause*. Often referred to as the well-spring of creation, the womb is the epicenter of a woman's relationship to the divine. *Conversations With the Womb* is a provocative rediscovery of ancient feminine power. Using the Nine Chakras of Creation as a road map to transforming one's personal history, women are encouraged to begin a profound and ongoing conversation with their most primal organ. Unburdened by their histories the immense creative force within the womb can be harnessed to manifest our heart's desire."

How do we communicate with people who disagree with us? In today's polarized world, friends and strangers clash with each other over

issues large and small. Coworkers have conflicts in the office. Married couples fight over finances. And online commenters demonize one another's political and religious perspectives. Is there any hope for restoring civil discourse? Communications expert Tim Muehlhoff provides a strategy for having difficult conversations, helping us move from contentious debate to constructive dialogue. By acknowledging and entering into the other person's story, we are more likely to understand where they're coming from and to cultivate common ground. Insights from Scripture and communication theory provide practical ways to manage disagreements and resolve conflicts. We can disagree without being disagreeable. And we can even help another see different points of view and learn from one another. Find out how.

How do people with brain damage communicate? How does the partial or total loss of the ability to speak and use language fluently manifest itself in actual conversation? How are people with brain damage able to expand their cognitive ability through interaction with others - and how do these discursive activities in turn influence cognition? This groundbreaking collection of new articles examines the ways in which aphasia and other neurological deficits lead to language impairments that shape the production, reception and processing of language. Edited by noted linguistic anthropologist Charles Goodwin and with contributions from a wide range of international scholars, the articles provide a pragmatic and interactive perspective on the types of challenges that face aphasic speakers in any given act of communication. *Conversation and Brain Damage* will be invaluable to linguists, discourse analysts, linguistic and medical anthropologists, speech therapists, neurologists, psychiatrists, psychologists, workers in mental health care and in public health, sociologists, and readers interested in the long-term implications of brain damage.

Challenging a number of myths about living long term with or after cancer, this book offers new insights by delving into areas that are not usually spoken about. Written from a dual perspective- that of a psychologist who had breast cancer and who copes with the long-term effects of treatment - the book contests the assumption that the afflicted person will simply 'get better' or 'move through' to a better situation. Emotional and physical side-effects can worsen over time and people living beyond or with cancer often endure a mismatch between expectations and reality, because they have been told that life would be easier than it actually is. This can leave both those suffering longer term and those close to them confused and unprepared. Including testimonies with people who have had a cancer diagnosis and people in the medical profession, the book signposts ways that professionals may help and offers prompts for friends and relatives to have useful and open conversations with the person affected. It gives voice to many people who feel that their suffering is disputed and diminished by the prevailing narrative around recovery. Galgut includes discussion on relationships, work, trauma, fear of recurrence and the role of therapy. Giving an unflinchingly honest perspective, *Living with the Long-Term Effects of Cancer* sheds light on these struggles, in the belief that bringing this conversation to the forefront is key to improving life for those who are affected by cancer and who suffer longer term from its effects.

Hellinger sheds light on his unique use of family constellations to reveal hidden often destructive family dynamics and to active healing resources. Hellinger also speaks freely and frankly about his observations of the forces at work in family systems and the controversy that surrounds some of those observations.

A small group of Indians known as the Honey Lake Maidus are very much alive today in the valley of the Susan River of northeast California. As a tribe, however, they do not exist. This is because they have not been acknowledged, a process by which the federal government officially recognizes Indian tribes. By contrast, other California Indian tribes have won federal recognition and come to represent a driving force behind most Indian legislation, including laws to regulate Indian casinos. Their political power and economic prosperity, however, has incurred resentment. Caught in this web of contending political forces are hundreds of small Indian groups, peoples like the Honey Lake Maidus who, because they lack federal recognition, cannot protect their cultures and secure their futures. They are also unable to undertake economic endeavors that would provide care for their children and elders. In *Quest for Tribal Acknowledgment*, Sara-Larus Tolley, an anthropologist who has worked for the Honey Lake Maidus for several years, recounts the group's efforts to obtain recognition. In 1999, the tribe gained funding to work full-time on its petition, which it submitted to the government in 2001. While the Honey Lake Maidus wait for their application to gain "active" status, they continually update and refine its contents. And like hundreds of other unrecognized Indian groups seeking acknowledgment, they hope for the future.

Welcome to the future, where you can talk with the digital things around you: voice assistants, chatbots, and more. But these interactions can be unhelpful and frustrating—sometimes even offensive or biased. *Conversations with Things* teaches you how to design conversations that are useful, ethical, and human-centered—because everyone deserves to be understood, especially you.

Suppose you could ask God any question and get an answer. What would it be? Young people all over the world have been asking those questions. So Neale Donald Walsch, author of the internationally bestselling *Conversations with God* series had another conversation. *Conversations with God for Teens* is a simple, clear, straight-to-the-point dialogue that answers teens questions about God, money, sex, love, and more. *Conversations with God for Teens* reads like a rap session at a church youth group, where teenagers discuss everything they ever wanted to know about life but were too afraid to ask God. Walsch acts as the verbal conduit, showing teenagers how easy it is to converse with the divine. When Claudia, age 16, from Perth, Australia, asks, "Why can't I just have sex with everybody? What's the big deal?", the answer God offers her is: "Nothing you do will ever be okay with everybody. 'Everybody' is a large word. The real question is can you have sex and have it be okay with you?" There's no doubt that the casual question-and-answer format will help make God feel welcoming and accessible to teens. *Conversations with God for Teens* is the perfect gift purchase for parents, grandparents, and anyone else who wants to provide accessible spiritual content for the teen(s) in their lives.

Devoted explicitly to the examination of Ottoman/Turkish-inspired architecture in Western Europe during the eighteenth and nineteenth centuries, in this study Nebahat Avcioglu rethinks the question of cultural frontiers not as separations but as a rapport of heterogeneities. Reclaiming turquerie as cross-cultural art from the confines of the inconsequential exoticism it is often reduced to, Avcioglu analyses hitherto neglected constructions, and links them to notions of self-representation and politics.

Is the Armenian Genocide a strictly historical matter? If that is the case, why is it still a topical issue, capable of causing diplomatic rows and heated debates? The short answer would be that the century old Armenian Genocide is much more than a historical question. It emerged as a political dilemma on the international arena at the San Stefano peace conference in 1878 and has remained as such into our days. The disparity between knowledge and acknowledgement, mainly ascribable to Turkey's official denial of the genocide, has only heightened the politicization of the Armenian question. Thus, the memories of the WWI era refuse to be relegated to the pages of history but are rather perceived as a vivid presence. This is the result of the perpetual process of politics of memory. The politics of memory is an intricate and interdisciplinary negotiation, engaging many different actors in the society who have access to a wide range of resources and measures in order to achieve their goals. By following the Armenian question during the past century up to its Centennial Commemoration in 2015, this study aims to explain why and how the politics of memory of the Armenian Genocide has kept it as a topical issue in our days.

White women are one of the most influential demographics in America—we are the largest voting bloc, with purchasing power that exceeds anybody else's, and when we unify to demand change, we are a force to be reckoned with. Yet, so many of us sit idly on the sidelines, opting out of raising our hands to do, learn, and engage in ways that could make a difference. Why? White American

women are no monolith. Yet, as Women's March national organizer Jenna Arnold has learned over the past few years criss-crossing the US in conversations with white women about their identity and role in the country, we do possess common characteristics—ones that get in the way of us becoming more engaged as citizens. We're so focused on checking off our to-do lists, or so afraid of getting it wrong, or so busy trying to avoid conflict, that we are actively avoiding the urgent conversations we need to have. We are confused about how we got here and unsure how to do better. Raising Our Hands is the reckoning cry for white women. It asks us to step up and join the new frontlines of the fight against complacency—in our homes, in our behaviors, and in our own minds. Consider Raising Our Hands your starting place, your "Intro to Being a White Woman in Today's World" freshman-year class. In these pages, Jenna peels back the history that's been kept out of textbooks and the cultural norms that are holding us back, so we can finally start really listening to marginalized voices and doing our part to promote progress. The American white woman is a powerful force—an essential participant—to mobilize alongside the rest of humanity on behalf of the world, and we can no longer make excuses for why we don't have time or don't know enough.

Conversations with Colum McCann brings together eighteen interviews with a world-renowned fiction writer. Ranging from his 1994 literary debut, *Fishing the Sloe-Black River*, to a new and unpublished interview conducted in 2016, these interviews represent the development as well as the continuation of McCann's interests. The number and length of the later conversations attest to his star-power. Let the Great World Spin earned him the National Book Award and promises to become a major motion picture. His most recent novel, *TransAtlantic*, has awed readers with its dynamic yoking of the 1845-1846 visit of Frederick Douglass to Ireland, the 1919 first nonstop transatlantic flight of Alcock and Brown, and Senator George Mitchell's 1998 efforts to achieve a peace accord in Northern Ireland. An extensive interview by scholar Cecile Maudet is included here, as is an interview by John Cusatis, who wrote *Understanding Colum McCann*, the first extensive critical analysis of McCann's work. An author who actually enjoys talking about his work, McCann (b. 1965) offers insights into his method of writing, what he hopes to achieve, as well as the challenge of writing each novel to go beyond his accomplishments in the novel before. Readers will note how many of his responses include stories in which he himself is the object of the humor and how often his remarks reveal insights into his character as a man who sees the grittiness of the urban landscape but never loses faith in the strength of ordinary people and their capacity to prevail.

Contemporary European Playwrights presents and discusses a range of key writers that have radically reshaped European theatre by finding new ways to express the changing nature of the continent's society and culture, and whose work is still in dialogue with Europe today. Traversing borders and languages, this volume offers a fresh approach to analyzing plays in production by some of the most widely-performed European playwrights, assessing how their work has revealed new meanings and theatrical possibilities as they move across the continent, building an unprecedented picture of the contemporary European repertoire. With chapters by leading scholars and contributions by the writers themselves, the chapters bring playwrights together to examine their work as part of a network and genealogy of writing, examining how these plays embody and interrogate the nature of contemporary Europe. Written for students and scholars of European theatre and playwriting, this book will leave the reader with an understanding of the shifting relationships between the subsidized and commercial, the alternative and the mainstream stage, and political stakes of playmaking in European theatre since 1989.

"[A] cult-hit . . . [a] sharply realistic comedy of adultery and friendship."—Entertainment Weekly SALLY ROONEY NAMED TO THE 2019 TIME 100 NEXT LIST • WINNER OF THE SUNDAY TIMES (UK) YOUNG WRITER OF THE YEAR AWARD • ONE OF BUZZFEED'S BEST BOOKS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY VOGUE AND SLATE AND ONE OF THE BEST BOOKS OF THE YEAR BY BUZZFEED AND ELLE Frances is a coolheaded and darkly observant young woman, vaguely pursuing a career in writing while studying in Dublin. Her best friend is the beautiful and endlessly self-possessed Bobbi. At a local poetry performance one night, they meet a well-known photographer, and as the girls are then gradually drawn into her world, Frances is reluctantly impressed by the older woman's sophisticated home and handsome husband, Nick. But however amusing Frances and Nick's flirtation seems at first, it begins to give way to a strange—and then painful—intimacy. Written with gemlike precision and marked by a sly sense of humor, *Conversations with Friends* is wonderfully alive to the pleasures and dangers of youth, and the messy edges of female friendship. SHORTLISTED FOR THE INTERNATIONAL DUBLIN LITERARY AWARD "Sharp, funny, thought-provoking . . . a really great portrait of two young women as they're figuring out how to be adults."—Celeste Ng, "Late Night with Seth Meyers Podcast" "The dialogue is superb, as are the insights about communicating in the age of electronic devices. Rooney has a magical ability to write scenes of such verisimilitude that even when little happens they're suspenseful."—Curtis Sittenfeld, *The Week* "Rooney has the gift of imbuing everyday life with a sense of high stakes . . . a novel of delicious frictions."—New York "A writer of rare confidence, with a lucid, exacting style . . . One wonderful aspect of Rooney's consistently wonderful novel is the fierce clarity with which she examines the self-delusion that so often festers alongside presumed self-knowledge. . . . But Rooney's natural power is as a psychological portraitist. She is acute and sophisticated about the workings of innocence; the protagonist of this novel about growing up has no idea just how much of it she has left to do."—Alexandra Schwartz, *The New Yorker* "This book. This book. I

read it in one day. I hear I'm not alone."—Sarah Jessica Parker (Instagram)
