Two Native-American boys have vanished into thin air, leaving a pool of blood behind them. Lieutenant Joe Leaphorn of the Navajo Tribal Police has no choice but to suspect the very worst, since the blood that stains the parched New Mexican ground once flowed through the veins of one of the missing, a young Zuñi. But his investigation into a terrible crime is being complicated by an important archaeological dig . . . and a steel hypodermic needle. And the unique laws and sacred religious rites of the Zuñi people are throwing impassable roadblocks in Leaphorn's already twisted path, enabling a craven murderer to elude justice or, worse still, to kill again.

- Details how the author and her boyfriend developed a close friendship with Manly Hall and how Hall at first mistook her boyfriend as his heir apparent
- Explains how Hall adopted the author as his "girl Friday" and personal weirdo screener, giving her access to the inner circles of occult Los Angeles
- Richly depicts the characters who worked and gathered at Hall's Philosophical Research Society, including Hall's wife, the famed "Mad Marie" In the early 1980s, underground musicians Tamra Lucid and her boyfriend Ronnie Pontiac discovered the book *The Secret Teachings of All Ages* at the Bodhi Tree bookstore in Los Angeles. Poring over the tome, they were awakened to the esoteric and occult teachings of the world. Tamra and Ronnie were delighted to discover that the book's author, Manly Palmer Hall (1901-1990), master teacher of Hermetic mysteries and collector of all things mystical, lived in LA and gave lectures every Sunday at his mystery school, the Philosophical Research Society (PRS). After their first tantalizing Sunday lecture, Tamra and Ronnie soon started volunteering at the PRS, beginning a seven-year friendship with Manly P. Hall, who eventually officiated their wedding in his backyard. In this touching, hilarious, and ultimately tragic autobiographical account, Tamra shares an intimate portrait of Hall and the occult world of New Age Los Angeles, including encounters with astrologers, scholars, artists, spiritual seekers, and celebrities such as Jean Houston and Marianne Williamson. Tamra vividly describes how she used her time at the PRS to learn everything she could not only about metaphysics but also about the people who practice it. But when Tamra begs Hall to banish a certain man from the PRS--the same man who inherited Hall's estate and whom his wife Marie later alleged was Hall's murderer--Tamra and Ronnie are the ones banished. Tamra's noir chronicle of an improbable friendship between a twenty-something punk and an eighty-year-old metaphysical scholar reveals Hall not only as an inspiring esoteric thinker but also as a genuinely kind human being who simply wanted to share his quest for inner meaning and rare wisdom with the world.

From iconic NBA All-Star Carmelo Anthony comes a New York Times bestselling memoir about growing up in the housing projects of Red Hook and Baltimore—a brutal world *Where Tomorrows Aren't Promised*. For a long time, Carmelo Anthony's world wasn't any larger than the view of the hoopers and hustlers he watched from the side window of his family's first-floor project apartment in Red Hook, Brooklyn. He couldn't dream any bigger than emulating his older brothers and cousin, much less going on to become a basketball champion on the world stage. He faced palpable dangers growing up in the housing projects of Red Hook and West Baltimore's Murphy Homes (a.k.a. Murder Homes, subject of HBO's *The Wire*). He navigated an education system that ignored, exploited, or ostracized him. He suffered the untimely deaths of his closely held loved ones. He struggled to survive physically and emotionally. But with the strength of family and the guidance of key mentors on the streets and on the court, he pushed past lethal odds to endure and thrive. By the time Carmelo found himself at the NBA Draft at Madison Square Garden in 2003 preparing to embark on his legendary career, he wondered: How did a kid who'd had so many hopes, dreams, and expectations beaten out of him by a world of violence, poverty, and racism make it here at all? Carmelo's story is one of strength and determination; of dribbling past players bigger and tougher than him, while also weaving around vial caps and needles strewn across the court; where dealers and junkies lined one side of the asphalt and kids playing jacks and Double Dutch lined the other; where rims had no nets, and you better not call a foul—a place *Where Tomorrows Aren't Promised*.

Part graphic novel, part memoir, *Wake* is an imaginative tour-de-force that tells the story of women-led slave revolts and chronicles scholar Rebecca Hall's efforts to uncover the truth about these women warriors who, until now, have been left out of the historical record. Women warriors planned and led slave revolts on slave ships during the Middle Passage.

They fought their enslavers throughout the Americas. And then they were erased from history. Wake tells the story of Dr. Rebecca Hall, a historian, granddaughter of slaves, and a woman haunted by the legacy of slavery. The accepted history of slave revolts has always told her that enslaved women took a back seat. But Rebecca decides to look deeper, and her journey takes her through old court records, slave ship captain's logs, crumbling correspondence, and even the forensic evidence from the bones of enslaved women from the "negro burying ground" uncovered in Manhattan. She finds women warriors everywhere. Using in-depth archival research and a measured use of historical imagination, Rebecca constructs the likely pasts of Adono and Alele, women rebels who fought for freedom during the Middle Passage, as well as the stories of women who led slave revolts in Colonial New York. We also follow Rebecca's own story as the legacy of slavery shapes life, both during her time as a successful attorney and later as a historian seeking the past that haunts her. Illustrated beautifully in black and white, Wake will take its place alongside classics of the graphic novel genre, like Marjane Satrapi's *Persepolis* and Art Spiegelman's *Maus*. The story of both a personal and national legacy, it is a powerful reminder that while the past is gone, we still live in its wake.

A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a "compulsively readable parable for the 21st century" (*Vanity Fair*). When Mae Holland is hired to work for the Circle, the world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

From the bestselling author of *Tuxedo Park*, the fascinating story of the 3,000 people who lived together in near confinement for more than two intense and conflicted years under J. Robert Oppenheimer and the world's best scientists to produce the Atomic Bomb and win World War II. They were told as little as possible. Their orders were to go to Santa Fe, New Mexico, and report for work at a classified Manhattan Project site, a location so covert it was known to them only by the mysterious address: 109 East Palace. There, behind a wrought-iron gate and narrow passageway just off the touristy old plaza, they were greeted by Dorothy McKibbin, an attractive widow who was the least likely person imaginable to run a front for a clandestine defense laboratory. They

stepped across her threshold into a parallel universe--the desert hideaway where Robert Oppenheimer and a team of world-famous scientists raced to build the first atomic bomb before Germany and bring World War II to an end. Brilliant, handsome, extraordinarily charismatic, Oppenheimer based his unprecedented scientific enterprise in the high reaches of the Sangre de Cristo mountains, hoping that the land of enchantment would conceal and inspire their bold mission. Oppenheimer was as arrogant as he was inexperienced, and few believed the thirty-eight-year-old theoretical physicist would succeed. Jennet Conant captures all the exhilaration and drama of those perilous twenty-seven months at Los Alamos, a secret city cut off from the rest of society, ringed by barbed wire, where Oppenheimer and his young recruits lived as virtual prisoners of the U.S. government. With her dry humor and eye for detail, Conant chronicles the chaotic beginnings of Oppenheimer's by-the-seat-of-his-pants operation, where freshly minted secretaries and worldly scientists had to contend with living conditions straight out of pioneer days. Despite all the obstacles, Oppie managed to forge a vibrant community at Los Alamos through the sheer force of his personality. Dorothy, who fell for him at first sight, devoted herself to taking care of him and his crew and supported him through the terrifying preparations for the test explosion at Trinity and the harrowing aftermath of Hiroshima and Nagasaki. Less than a decade later, Oppenheimer became the focus of suspicion during the McCarthy witch hunts. When he and James B. Conant, one of the top administrators of the Manhattan Project (and the author's grandfather), led the campaign against the hydrogen bomb, Oppenheimer's past left-wing sympathies were used against him, and he was found to be a security risk and stripped of his clearance. Though Dorothy tried to help clear his name, she saw the man she loved disgraced. In this riveting and deeply moving account, drawing on a wealth of research and interviews with close family and colleagues, Jennet Conant reveals an exceptionally gifted and enigmatic man who served his country at tremendous personal cost and whose singular achievement, and subsequent undoing, is at the root of our present nuclear predicament.

A series of whimsical, briskly paced essays by the popular New York Times "Social Q's" columnist provides modern advice on navigating today's murky moral waters, sharing recommendations for such everyday situations as texting on the bus to splitting a dinner check. By the author of *Emma's Table*.

"With its diversity throughout including almost 40 authors from different therapeutic modalities, continents and professional fields the book indeed is both an 'invitation and challenge' and a means 'to aid transcultural therapists in conducting their work in a sensitive and informed manner'. It brings to mind a colourful and well stocked market comprising two parts. The first provides nourishing food for practitioners such as contributions to theory, use of interpreters, training, supervision, research and case studies. The second offers an outstanding exploration of the impact of different cultural backgrounds orchestrated by the editor, whose compilation from a UK perspective might be a useful example for other cultural and language areas. The involved reader will be delighted to have this inspiring handbook to hand." Gerhard Stumm, Ph.D., psychotherapy trainer, Vienna "Therapists pride themselves on cherishing the uniqueness of every client. This book offers a powerful challenge for it plainly demonstrates that a commitment to honouring uniqueness cannot be divorced from a sensitivity to the cultural, racial, spiritual and ethnic differences that clients present in an increasingly multicultural society. Here is an impressive compendium that illuminates the many clinical, training, relational and supervisory issues involved together with the widest range of contributions from diverse cultures that I have ever encountered in one volume. Colin Lago is to be congratulated on editing an invaluable resource which is both stimulating and disturbing in its implications." Brian Thorne, Emeritus Professor of Counselling, University of East Anglia and Co-founder of The Norwich Centre This fascinating book examines recent critical thinking and contemporary research findings in the field of transcultural counselling and psychotherapy. It also explores the effects of different cultural heritages upon potential clients and therapists. The first part of the book reflects the curriculum, context and content of counselling and psychotherapy training courses, with regards to sensitivity to diversity. It covers key issues such as: Implications of identity development for therapeutic work Ethnic matching of clients and therapists Working with interpreters and bi-cultural workers Overcoming racism, discrimination and oppression within the counselling process An overview of current research within this field In the second part, the authors give personal accounts that explore the impact of cultural heritage on people who have moved from their countries of origin to 'Western' countries,, such as the UK or the USA. The Handbook of Transcultural Counselling and Psychotherapy will be of immense value to a wide range of readers, including counselling and therapy practitioners, supervisors, trainees, agency managers and colleagues in other therapy-related services. Vibrantly and perceptively told, this is the story of one remarkable year—a vivid history of exhilarating triumphs and shattering defeats around the world. 1956 was one of the most remarkable years of the twentieth century. All across the globe, ordinary people spoke out, filled the streets and city squares, and took up arms in an attempt to win their freedom. In this dramatic, page-turning history, Simon Hall takes the long view of the year's events—putting them in their post-war context and looking toward their influence on the counterculture movements of the 1960s—to tell the story of the year's epic, global struggles from the point of view of the freedom fighters, dissidents, and countless ordinary people who worked to overturn oppressive and authoritarian systems in order to build a brave new world. It was an epic contest. 1956 is the first narrative history of the year as a whole—and the first to frame its tumultuous events as part of an interconnected, global story of revolution.
