This volume combines diverse research scenarios to present a solid framework for analysis of figurative language. *Figurative Language, Genre and Register* brings together discourse analysis and corpus linguistics in a cutting-edge study of figurative language in spoken and written discourse. The authors explore a diverse range of communities from chronic pain sufferers to nursery staff to present a detailed framework for the analysis of figurative language. The reader is shown how figurative language is used between members of these communities to construct their own 'world view', and how this can change with a shift in perspective. Figurative language is shown to be pervasive and inescapable, but it is also suggested that it varies significantly across genres.

This pathbreaking study links two traditionally separate genres as their stars crossed to explore the emergence of multiple selves in early modern Italian culture and society. Mauro Calcagno focuses on the works of Claudio Monteverdi, a master of both genres, to investigate how they reflect changing ideas about performance and role-playing by singers. Calcagno traces the roots of dialogic subjectivity to Petrarch's love poetry arguing that Petrarchism exerted a powerful influence not only on late Renaissance literature and art, but also on music. Covering more than a century of music and cultural history, the book demonstrates that the birth of opera relied on an important feature of the madrigalian tradition: the role of the composer as a narrative agent enabling

Edward T. Cone was one of the most important and influential music critics of the twentieth century. He was also a master lecturer skilled at conveying his ideas to broad audiences. *Hearing and Knowing Music* collects fourteen essays that Cone gave as talks in his later years and that were left unpublished at his death. Edited and introduced by Robert Morgan, these essays cover a broad range of topics, including music's position in culture, musical aesthetics, the significance of opera as an art, setting text to music, the nature of twentieth-century harmony and form, and the practice of musical analysis. Fully matching the quality and style of Cone's published writings, these essays mark a critical addition to his work, developing new ideas, such as the composer as critic; clarifying and modifying older positions, especially regarding opera and the nature of sung utterance; and adding new and often unexpected insights on composers and ideas previously discussed by Cone. In addition, there are essays, such as one on Debussy, that lead Cone into areas he had not previously examined. *Hearing and Knowing Music* represents the final testament of one of our most important writers on music.
