Golding’s iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

"Never before, the entire history of the American theater, has so much of the truth of black people's lives been seen on the stage," observed James Baldwin shortly before *A Raisin in the Sun* opened on Broadway in 1959. Indeed Lorraine Hansberry's award-winning drama about the hopes and aspirations of a struggling, working-class family living on the South Side of Chicago connected profoundly with the psyche of black America--and changed American theater forever. The play's title comes from a line in Langston Hughes's poem "Harlem," which warns that a dream deferred might "dry up/like a raisin in the sun." "The events of every passing year add resonance to *A Raisin in the Sun*," said *The New York Times*. "It is as if history is conspiring to make the play a classic." This Modern Library edition presents the fully restored, uncut version of Hansberry's landmark work with an introduction by Robert Nemiroff.

This beloved celebration of individuality is now an original movie on Disney+! A modern-day classic and New York Times bestseller from Newbery Medalist Jerry Spinelli. *Stargirl*. From the day she arrives at quiet Mica High in a burst of color and sound, the hallways hum with the murmur of "Stargirl, Stargirl." She captures Leo Borlock's heart with just one smile. She sparks a school-spirit revolution with just one cheer. The students of Mica High are enchanted. At first. Then they turn on her. Stargirl is suddenly shunned for everything that makes her different, and Leo, panicked and desperate with love, urges her to become the very thing that can destroy her: normal. In this celebration of nonconformity, Newbery Medalist Jerry Spinelli weaves a tense, emotional tale about the perils of popularity and the thrill and inspiration of first love. "Spinelli has produced a poetic allegorical tale about the magnificence and rarity of true nonconformity." -- *The New York Times*

This book investigates the origins of figurative language in literary discourse within a cognitive framework. It represents an interface between linguistics and literature and develops a 6-tier theoretical model which analyses the different factors contributing to the creation of figurative words and expressions. By examining features ranging from language structure to figurative thought, cultural history, reference, narrative and the personal experience of authors, it develops a global overview of the processes involved. Due to its particularly innovative characteristics in literature, the theme of death is explored in relation to universal concepts such as love and time. These aspects are discussed in the light of well-known authors in comparative literature such as D.H. Lawrence, Simone De Beauvoir, Hermann Hesse and Jorge Luis Borges. The origins can involve complex conceptual mappings in figures of speech such as metaphor and symbolism. They are often at the roots of an author's personal desires or represent the search for answers to human existence. This approach offers a wide variety of new ideas and research possibilities for postgraduate and research students in modern languages, linguistics and literature. It would also be of interest to academic researchers in these disciplines as well as the general public who would like to delve deeper into the relevant fields.

How men communicate with each other on stage when no women are present--and what it tells us about power and gender

Wilde's witty and buoyant comedy of manners, filled with some of literature's most famous epigrams, reprinted from an authoritative British edition. Considered Wilde's most perfect work.

In this volume, the communicative and neuropsychological correlates of daily interactions are discussed. The predominant account on explaining the construction of meaning by humans is the inter-relational perspective, that postulates an intentional convergence of meaning arising as a consequence of the active exchanges between people. The neural correlates of communication were illustrated in the light of new empirical results, considering the main topics of: a) language and language development; b) pragmatics and neuropragmatics of communication; c) neurocognition and the cognitive bases of intentions; d) nonverbal communication and emotion contribution to the communicative systems. New methodological approaches are considered, with particular attention to neuroimaging (such as PET and fMRI) and brain stimulation techniques (as MEG and TMS), as well as their application to the clinical field.

The 171 extant plays of the Yuan period (1279-1368) are the oldest and most brilliant examples of Chinese dramatic literature. In this first comprehensive study, Chung-wen Shih systematically explores the riches of Yuan drama, from its unexcelled lyric poetry to its colorful characterization. After tracing the popular genres that contributed to the flowering of Yuan drama, the author describes conventional features of dramatic construction, methods of characterization, and recurring themes. The central focus is on the use of

language: prose passages and lyrics are cited to show how innovative use of spoken language invests the prose with a remarkable strength and suppleness, and how imaginative use of figurative language endows the poetry with an incomparable richness of texture. Attention is also given to the use of music and physical aspects of staging. Originally published in 1976. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. The new standards were written to address the harsh realities for poor performance of American students across all grades levels, k-12. According to NAEP (National Assessment of Educational Progress) data, more than 60% of our students in grades 4, 8, and 12 are not proficient readers and the United States is one of the lowest performing in mathematics. The statistics are even more staggering for our children who live in poverty, students with disabilities and English Language Learners. The new standards have

sent a clear message: all students must be engaged deeper learning. This deeper level of understanding and comprehension is communicated through a more sophisticated and independent level of applied literacy skills. In this book, some of our leading educators envision the standards as a vehicle to provide more rigorous instruction and illustrate how teachers are uniquely qualified to determine the most effective methods for developing students' skills and close the achievement gap.

This book examines the ways that Classical and Renaissance epic poems often work against their expressed moral and political values. It combines a formal and tropological analysis that stresses difference and disjunction with a political analysis of the epic's figurative economy. It offers an interpretation of three epic poems - Homer's Iliad, Virgil's Aeneid, and Spencer's Faerie Queene - that focuses on the way these texts make apparent the aesthetic, moral, and political difference that constitutes them, and sketches, in conclusion, two alternative resolutions of such division in Milton's Paradise Lost and Cervantes' Don Quixote, an 'epic' in prose. The book outlines a theory of how and why epic narrative may be said to subvert certain of its constitutive claims while articulating a cultural argument of which it becomes the contradictory paradigm. The author focuses on the aesthetic and ideological work accomplished by poetic figure in these narratives, and understands ideology as a figurative, substitutive system that resembles and uses the system of tropes. She defines the ideological function of tropes in narrative and the often contradictory way in which narratives acknowledge and seek to efface the transformative functions of ideology. Beginning with what it describes as a dual tendency within the epic simile (toward metaphor in the transformations of ideology; toward metonymy as it maintains a structure of difference), the book defines the politics of the simile in epic narrative and identifies metalepsis as the defining trope of ideology. It demonstrates the political and poetic costs of the structural reliance of allegorical narrative on catachresis and shows how the narrator's use of prosopopoeia to assert political authority reshapes the figurative economy of the epic. The book is particularly innovative in being the first to apply to the epic the set of questions posed by the linking of the theory of rhetoric and the theory of ideology. It argues that historical pressures on a text are often best seen as a dialectic in which ideology shapes poetic process while poetry counters, resists, figures, or generates the tropes of ideology itself.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.

A haunting examination of groupthink and mass hysteria in a rural community The place is Salem, Massachusetts, in 1692, an enclave of rigid piety huddled on the edge of a wilderness. Its inhabitants believe unquestioningly in their own sanctity. But in Arthur Miller's edgy masterpiece, that very belief will have poisonous consequences when a vengeful teenager accuses a rival of witchcraft—and then when those accusations multiply to consume the entire village. First produced in 1953, at a time when America was convulsed by a new epidemic of witch-hunting, *The Crucible* brilliantly explores the threshold between individual guilt and mass hysteria, personal spite and collective evil. It is a play that is not only relentlessly suspenseful and vastly moving but that compels readers to fathom their hearts and consciences in ways that only the greatest theater ever can. "A drama of emotional power and impact" —New York Post

Even as the major superhero film franchises appear to be exhausting their runs *The Umbrella Academy* demonstrates that the superhero genre is still extremely effective at creating role models with lasting psychological resonance and allegories with extraordinary emotional impact. These essays give a voice to the misunderstood family members of *The Umbrella Academy* in the comic book series and its highly popular Netflix adaptation. They explore different forces like individualism, identity, family, and feminism. One of the most striking features that unites these concepts is the linkage between violence with voice, as well as violence's aestheticized depiction.

This volume contains original research and innovative analyses that deepen our understanding of figurative thought and language. The selected papers focus on the multi-faceted aspect of figuration, its function in thought, and its impact on areas of grammar and communication. Key topics explored include metaphor, metonymy and their relationship to each other, as well as the less studied figure of hyperbole and its relation to the fundamental figures of metaphor and metonymy. Collectively, the papers examine the pragmatic reasoning processes triggered by figurative thought, the lexicogrammatical motivations and/or constraints on figurative language, the impact of deeply entrenched figurative thought on the lexicon of natural languages, the cultural origins of figurative thought, and the psycholinguistic motivations for figuration. The comprehensive treatment of these issues is fundamental for future research on figurative thought and language, particularly on questions of universality vs. specificity of figuration, the impact of figuration on constructions, cross-linguistic comparisons of figurative language, and cognitive-pragmatic approaches to figurative meaning.

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck’s in the elevator? Just as Will’s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck’s cigarette. Will doesn’t know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

This work is an analysis of the ideology, causal patterns, and means employed in the Nazi genocide against the Jews. It argues that the events of the genocide compel reconsideration of such

moral concepts as individual and group responsibility, the role of knowledge in ethical decisions, and the conditions governing the relation between guilt and forgiveness. It shows how the moral implications of genocide extend to linguistic and artistic presentations of the Nazi extermination of the Jews.
