The young girl pushes against the backseat of the family sedan, fighting to free herself from the crude ties restricting her hands and feet. As the car speeds towards the edge of town, she looks back at her family home, and watches in horror as it is suddenly engulfed in a mass of flames. Trembling with fear, she turns towards the driver and hears only laughter. She knows that the worst is yet to come... Detective Jenna Alton surveys the charred remains of the large suburban home, stopping to pause at the three lifeless bodies of the Woods family. Jenna knows she's looking for a serial killer, but her priority is finding the missing teenage daughter last seen on the night of the inferno. Days later, Sophie Wood's body is discovered floating in a shallow pool of crystal-clear water—known locally as Dead Man's Drop—but Jenna still doesn't know who would target the quiet family in such a brutal attack. Delving into the family's past, she makes a shocking discovery—a link between the killer and someone connected to her deputy David Kane. If Jenna is right and the killer is back and seeking revenge, then she must act fast to keep her deputy safe. When another girl is taken, Jenna and David follow the trail into a network of underground caves on the outskirts of town. With little time before the killer claims his next victim, they race into the pitch-black tunnels, unsure whether they have just walked into the killer's trap. Can they find the girl in time and escape

"Juliet is failing to juggle motherhood and her stalled-out dissertation on confessional poetry when her husband, Michael, informs her that he wants to leave his job and buy a sailboat. With their two kids - Sybil, age seven, and George, age two - Juliet and Michael set off for Panama, where their forty-four foot sailboat awaits them. The initial result is transformative; the marriage is given a gust of energy, Juliet emerges from her depression, and the children quickly embrace the joys of being feral children at sea. Despite the stresses of being novice sailors, the family learns to crew the boat together on the ever-changing sea. The vast horizons and isolated islands offer Juliet and Michael reprieve - until they are tested by the unforeseen. Sea Wife is told in gripping dual perspectives: Juliet's first person narration, after the journey, as she struggles to come to terms with the life-changing events that unfolded at sea, and Michael's captain's log, which provides a riveting, slow-motion account of these same inexorable events, a dialogue that reveals the fault lines created by personal history and political divisions."--Publisher description.
