Ted Cowling, Ted Cowling Staff

Ad Astra Kevin O. McLaughlin, 2016-08-26 In 2034, the Earth is in crisis. Energy use is at an all-time high, and energy-hungry nations seem on the verge of going to war with one another. But on the moon a discovery is made, something that changes the balance of everything. A set of caves is opened by explorers, revealing a buried base thousands of years old. Among the relics found is the ruin of an ancient starship, with an engine capable of carrying humanity to the stars - or becoming the golden apple that starts a war no one can win. A handful of unlikely heroes will risk their lives to keep the starship safe. If life knocked you down, would you risk everything you had left to reach for the stars? Excerpt: Dan - ad astra! Dan heard the order. Ad astra. To the stars. It was a toast the two of them had shared back in college, when they first stepped onto the roads which would lead them into space. It had been John's idea to use the toast as a code word now. Dan didn't even take a deep breath before executing the order. He'd practiced this with Majel enough times in the simulator - not the part about having a gunman in the bridge, but if that order was ever given, it would be a true crisis. He checked the screen again. Visual range in only fifteen seconds. No time for anything else. He rapidly initiated the program, said a quick prayer, and pressed the Enter button on his keyboard. Immediately, the ship began to shudder. The story continues in book two Stellar Legacy and book three Deep Waters

Adventures of the Starship Satori: Book 1-6 Complete Library Kevin McLaughlin, 2019-02-18 Collected together for the first time, read the opening six-book arc of USA Today Bestseller Kevin McLaughlin's epic starship Satori series! Dan Wynn thought he was grounded forever, but was given one last shot at the stars. Beth Wynn figured she'd never see her ex-husband again, until the adventure of a lifetime brought them back together. John Carraway, billionaire businessman with a secret: an ancient starship with an intact wormhole drive. Charline Foster, rogue hacker with a brilliant past. Andrew Wakefield, former elite soldier and the son John never had. Together they would embark on a journey that launched humanity into the stars, and face perils that threaten not only their lives, but the future of everyone on Earth.

Ad Astra Kevin McLaughlin, 2017-10-29 Dan Wynn wanted to explore space more than life itself, but a tragic accident left him too injured for NASA's space program. Second chances don't come along every day, so when an old friend offered him one, he grabbed on with both hands. The next thing Dan knew, he was on the moon, piloting humanity's first starship while fighting his way through one peril after another. Little did Dan know that simple offer was anything but, and would lead him

to the stars far beyond our own. The risks are great. But if life knocked you down, what would you gamble to have one more shot at your dreams? Excerpt: Dan - ad astra! Dan heard the order. Ad astra. To the stars. It was a toast the two of them had shared back in college, when they first stepped onto the roads which would lead them into space. It had been John's idea to use the toast as a code word now. Dan didn't even take a deep breath before executing the order. He'd practiced this with Majel enough times in the simulator - not the part about having a gunman in the bridge, but if that order was ever given, it would be a true crisis. He checked the screen again. Visual range in only fifteen seconds. No time for anything else. He rapidly initiated the program, said a quick prayer, and pressed the Enter button on his keyboard. Immediately, the ship began to shudder. This book is a heavily revised second edition of the original volume. The story length has been increased by about 60%, adding enormously more background to the characters and deepening of the personality of the world and crew. If you've already read the first edition, you won't need to read this version to catch up - but fans of the series are sure to enjoy this expanded and improved Author's Preferred Edition!

By Darkness Revealed Kevin McLaughlin,2023-10-29 What can you do when the thing you hate most in the world is also the only thing which might keep you alive? Ryan Blackwell never wanted to have magical abilities. He'd rather leave them as far behind him as possible - and never look back! Arriving at the military college of Northshield University was supposed to be a chance to start over and build a new life for himself. One without magic, thank you very much! But Northshield holds a secret: a powerful nexus of ley lines. Where these converging lines of raw magical force intersect, strange things can happen and even stranger beings are attracted to the site. Almost overnight Ryan is faced with a choice: accept his magic or die. But even that may not be enough, because as the threats grow stronger and students begin dying, even Ryan will find his power tested to the limit. Giving up isn't an option, and flight is impossible. That only leaves one path to survival...fight back! ABOUT THE AUTHOR Kevin McLaughlin is the multiple USA Today bestselling author of over a hundred works of science fiction and fantasy. He writes smart, fun adventures; the sort that keep you reading WAY past bedtime and leave you with no regrets the next day. He brings together a background of military, scientific, medical, and martial arts experience to create stories with vibrant characters which have thrilled millions of readers.

Ad Astra Per Aspera Henry Westwood,2011-05 AD ASTRA PER ASPERA. The second book of the Hoille/Nuttall trilogy . Lord Pennywort was having to question his loyalties; to his alien friends whom he had served since his abduction in 1666, or to his new friends Vicky and Trevor who he greatly admired. Could he work with both to find a way forward and help the Earth find a new stability? The Earth was in turmoil following the ravages of plague; the population was decimated; utilities greatly diminished, and looting and riots were frequent. Vicky and Trevor were hoping that Lord Pennywort, with his powers, would work with the nations left to bring back some stability,but would this all be too much opening the way for the Siriusians to move to Earth? Would it end Trevor andVicky's hopes of going, Ad Astra, to the stars. This book is not just science fiction, it has love and romance,wickedness and murder, warmth and laughter and a good sprinkling of suspense. It will make the reader sit up and take notice; it is close to the truth!

Berserker Fred Saberhagen,2003 Presents a series of short science-fiction stories that tells of encounters between humans and the intelligent, self-aware death machines known as the Berserkers.

Fulcrum David Rebbitt,2016-09-30 After 25 years of service, Commander John Forest has had enough of the fleet. He is retiring to a real job on Earth, far from the frontier and the fleet to start a new life. His intervention in an experimental fighter at the Battle of the Markus Nebula over 20 years ago turned the tide against the Globurs and made him a hero. Now he just wants to change his life and get away from the fleet.The Globurs are the first intelligent species ever encounter by humanity in hundreds of years of exploration. First contact was during a survey and details are scarce as no one survived. Rim systems were attacked and overrun over the next few years. Globurs probe for weakness and attack without mercy. No attempts to communicate with them have ever received a reply. Recovered prisoners are insane, but the Globur do not take prisoners anymore.The tide was turned by a new strategy and a decisive battle at the Markus Nebula. The Globurs were pushed back and a stalemate developed along the rim. The stalemate means attacks and raids on civilian outposts and merchant shipping. In the interstellar space along the rim, fleet outposts and patrolling task forces continue to defend humanity. The imperial senate calls the war and skirmishes an incursion. Over the last 20 years, things have gotten a lot quieter. No one has seen a Globur capital ship in years. The only thing the core worlds care about is the unnecessary cost of maintaining the fleet. Not much news ever really gets back to the core worlds and the incursion is all but forgotten. Only those on the rims worlds volunteer for fleet service to protect their worlds. Things on the rim are changing. When a heavy fleet task force is savagely mauled and manages to limp back to their outpost, the unthinkable is revealed. The Globurs have an advantage that puts every outpost and rim world at risk. Fleet defenses, long relied upon to detect incursions and dispatch

intercepts, may be rendered useless. Ships are lost and not easily replaced. The fleet cannot sustain the current loss rate and something big may be coming. The Senate agrees to dispatch the fleet's greatest hero with their finest ships on a goodwill tour that covers a desperate gamble. All this should have nothing to do with John Forest. He is retired, and his augmentation has been permanently deactivated. He has gone home and settled into a new job on Earth. He even has a new girlfriend and is beginning to enjoy himself as his replacement takes over his former duties on the rim overseeing the fighter operations aboard the flagship of his former task force. His new girlfriend is a reporter - and a smart one. She thinks he is being watched. John thinks that is ridiculous, but he does start to wonder. Sure he was a hero - but that was a long time ago. Who would possibly be interested in him? Only a few know the shocking secret he hides and John isn't one of them.
