This book offers a whole school approach to the teaching of grammar and punctuation that is fully matched to the demands of the English grammar and punctuation test and the new curriculum. With the shift towards elegant, well-constructed sentences, it offers the busy teacher three simple steps to motivate and engage children, through: • explicit teaching and modelling; • over forty practical games and activities; • application and improvement within editing and proof reading. This book draws on recent research but also is based on many years of classroom practice and a number of case studies.

Practical examples develop teachers' understanding of grammatical terms and progression and show how it is possible to have a significant impact on vocabulary, sentence structure and children's writing in general. A balance is found where skills are explicitly taught but within the context of an exciting and interesting curriculum.

Chants and songs for children which reinforce important points and/or grammatical structures in American English.

Skyline is a vibrant novel set in contemporary times in a run-down block of flats in Long Street, central Cape Town. Through this novel, narrated by an adolescent girl, the book explores the lives of African refugees who come to South Africa seeking a new life and better place, having fled wars and poverty in their own countries. The narrator and her sister befriend a warm and caring refugee from Mozambique called Bernard. They help him battle the terrible sadness and loneliness his country's civil war has inflicted upon him. He in turn, along with others from Zimbabwe, Sudan and Congo, introduces the sisters to the music, wisdom and energy of Africa. There is sadness in this story, for it gives a hard look at the emotional carnage caused by war. But there is also hope and humour and friendship.

Capturing a unique historical moment, this book examines the changes in urban life since the collapse of the Soviet Union from an ethnographic perspective, thus addressing significant gaps in the literature on cities, Central Asia and post-socialism. It encompasses Tashkent, Almaty, Astana and Ulan-Ude: four cities with quite different responses to the fall of the Soviet Union. Each chapter takes a theme of central significance across this huge geographical terrain, addresses it through one city and contextualizes it by reference to the other sites in this volume. The structure of the book moves from nostalgia and memories of the Soviet past to examine how current

changes are being experienced and imagined through the shifting materialities, temporalities and political economies of urban life. Privatization is giving rise to new social geographies, while ethnic and religious sensibilities are creating emergent networks of sacred sites. But, however much ideologies are changing, cities also provide a constant lived mnemonic of lost configurations of ideology and practice, acting as signposts to bankrupted futures. *Urban Life in Post-Soviet Asia* provides a detailed account of the changing nature of urban life in post-Soviet Asia, clearly elucidating the centrality of these urban transformations to citizens' understandings of their own socio-economic condition.
