*Advanced English Grammar* Ilse Depraetere, Chad Langford, 2019-09-05 With more than 50 years of teaching experience between them, Ilse Depraetere and Chad Langford present a grammar pitched precisely at advanced learners of English who need to understand how the English language really works without getting lost in the complex specifics. Now fully updated and revised throughout, the second edition of this book pulls from linguistic theory all the relevant notions that will enable the language student to fully grasp English grammar. After introducing form and function, the authors cover verbs, nouns, aspect and tense, modality and discourse. Readers are led through the underlying principles of language use, with the book presupposing only a basic grasp of linguistic terminology and focusing on the critical issues. Full of challenging exercises and supported by a companion website featuring an extensive answer key, a glossary and further exercises for study, this is the reference grammar of choice for both native and non-native English speakers.

**Advance English Grammar Part II** Chandan Sengupta, This workbook is prepared to address the need of fellow aspirants of different competitive examinations duly conducted time to time by various boards of studies. We also wanted to cover up the need of students having eagerness to develop their skills through self studies. It is not merely a guide book. This workbook cannot introduce any learner simply to the mechanism of correct use of grammar related rules of speaking and writing. Primary knowledge of Grammar and Composition is required before moving through this workbook. Types of questions asked in exams are of similar pattern. Contents, in some cases, may differ. These materials are collected from our daily use of English. It would be better if fellow students start talking in English in a group made up of few of the selected friends working in a closed user group. It would be more convenient if such group start interacting through electronic media and through other suitable means. Another fruitful initiative will be following electronic media, news channels, analytics and other sources of information and views so as to collections of vocabulary will be increased. Collection and use of new words will definitely increase the grasping of students on the process of writing and representation of facts in speech. One can even aspire for an enhancement in the linguistic skill by following stories and compositions made by famous authors. Initiatives of any kind will be accepted and quantified in accord to the coverage of selected areas of competencies. The related fields of studies are linked together in such a way that they cannot be addressed individually through focused study materials. We simply put them in a definite order to link up our efforts to gain linguistic competencies of desired types.

*UPSC, PSC, SSC, RRB, Banking Examinations English Grammar Part IV* Chandan Sengupta, English Communicative is the set of curriculum implemented by different boards of studies to avail a balanced curriculum to be followed by students of

such boards of studies. These sets of curriculum cover up some of the general streams of studies which are common in terms of the studies of Grammar. This set of worksheets and activity resources are meant primarily for students of Grade VI and are prepared accordingly for availing some background study materials to the fellow students. Some of such materials are from the conventional study materials prepared by different schools of well repute. Our main objective is to cover up different topics specified for the fellow students of the particular level of study. Some fundamental questions often strike our mind: Do we speak English properly? Do we write a passage properly? Do we always remain aware of the rules related to speeches while speaking? Do we always claim that whatever presented by us are absolutely correct? Obviously not! We try to represent our aspirations in writing during several instances. We also try to remain stick to rules related to speeches. All the time our representations may not be grammatically correct. Dialects of American origin are considerably different than compared to that of European origin. Our communicative represents an admixture of both the dialects by part. Font size of some of the practice papers are kept small for ensuring accommodation of the material of large volume. Students of higher class can explore them with an ease. They may not feel any specific problem while moving through content areas. Resource Centre: Arabinda Nagar, Bankura, PIN - 722101 (W.B.) Attn: Chandan Sukumar Sengupta
