

Adventure Motorcycle Calendar 2018

This best-selling book is also “#1 book in motorcycle safety” (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called “Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it’s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or “blind” truck drivers. The book offers the kind of first-hand experience that can literally save riders’ lives, as illustrated in the chapters “Booby Traps” and “Special Situations,” which offer evasive tactics and advice to avoid and handle everything from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions. The final chapter of the book, “Sharing the Ride,” is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a complete index.

The story of the four-wheel-drive tractors built by Steiger, International Harvester, Case, and Case IH is told in dramatic fashion in this authoritative guide. Starting with the development of early four-wheel-drive systems at International Harvester, the book traces the evolution and design some of the most powerful and capable tractors of the twentieth century. With fresh detail on the 4300, 4100, Steiger-built IH tractors, and the 2+2 tractors including the Super 70 series, the book offers prototype drawings of several models—including the complete story of the never-before-published Magnum 2+2-- as well as inside stories and backroom drama that is a must for any enthusiast for farm history or tractors. Learn the complete story of Steiger tractors, which were originally designed and built in the barn of John, Douglass, and Maurice Steiger located near Red Lake Falls, Minnesota. Containing interviews with more than 50 of the people who built Steiger from its humble origin to a world leader, the book traces the evolution of the lime green Steigers in engrossing detail. The book also covers the J.I. Case 4WD line in great detail. In addition, the book tells the story of how each of these significant players in the industry combined under one banner and--together--created one of the current industry-leading technologies, the Quadtrac. The modern evolution of the Steigers and the introduction of the STX Series (and more) also receive in-depth coverage. The same team that created the award-winning books Red Tractors 1958-2013 and Red Combines 1915-2015 created this book, and notable new contributors include Sherry Schaefer (editor of Heritage Iron magazine) and noted historian Jim Allen. Contributors include Sherry Schaefer, Oscar H. Will III, Jim Allen, Kenneth Updike, Todd Markle, Gregg Montgomery, Guy Fay, Martin Rickatson, Sarah Tomac, Matthias Buschmann, Jean Cointe, Michael Osweiler, and Johann Dittmer.

MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him side-lined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales,

Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, ahead of the chasing pack including Alvaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.

Large Prints increased font size and wider line spacing maximizes reading legibility, and has been proven to advance comprehension, improve fluency, reduce eye fatigue, and boost engagement in young readers of all abilities, especially struggling, reluctant, and striving readers.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

In 2012, while others his age were enjoying quiet retirement, Ron Fellowes set off on the challenge of a lifetime. His dream to ride a 102 year-old FN motorcycle across the world - to the Belgian factory where the bike originated - had all the hallmarks of an epic adventure: one that was never going to be easy. For eight months Ron rode 14,600 kilometres through 15 countries under grueling conditions, into some of the world's most hostile territory. He faced desert sandstorms, mountains too steep for the motorcycle's capability, the threat of rockslides and bombings when he took a detour, and pressure from armed police through conflict zones. He was robbed, and when held at gunpoint, Ron came face-to-face with his own mortality. The motorcycle's limited capacity - no gears, inadequate brakes and pedal assisted - made it a daily struggle. Breakdowns were common, and only Ron's ingenuity and single-mindedness, Lynne's logistical support, and the generosity of others kept him going. Beautifully illustrated in full colour throughout, No Room for Watermelons is co-written by Ron and Lynne. It is an engaging, and entertaining account of one man's stoic determination to fulfill his dream. You will be carried along for the ride, and inspired to achieve your own dreams... no matter how impossible they seem.

Ton Up! A Century of Café Racer Speed and Style focuses on the story of the ton-up boys and their café racers. But it's much more than just that. Illustrated with historic and modern photos and featuring a text by one of the world's motorcycle historians, it's really the story of motorcycle speed and style evolved from the early 1900s right through today. Café racers are most associated with the young, rebellious rock-and-rollers of 1960s Britain. These riders created the quintessential café racers—fast motorcycles customized to resemble the racing bikes of the period. They were called “café racers” because their riders raced on public roads, from one café to the next. The goal was to do “the ton” (exceed 100 miles per hour) on these runs, which led to their designation as “ton-up boys.” Today, ton-up culture is more popular than ever and recognized worldwide with a following of young and long-time riders alike. With Ton Up!, enjoy a scenic ride through the history of this vibrant scene.

Perfect in its compactness, in its functionality, and in its widely imitated design, the Vespa scooter is not only a means of transport, but a true icon. In celebration of Vespa's 75th anniversary, *Vespa: Style and Passion* is the lavishly illustrated official history of the legendary scooters and the culture they've inspired. Introduced by the Italian firm Piaggio in 1946 with the model 98, Vespa enjoyed quick success. The scooters' diminutive size and affordability were perfect for promoting postwar mobility. But as with most novel designs, it would also be highly imitated, destined for icon status. From Piaggio's origins to the first Vespa prototypes to today's forward-looking Elettrica model, *Vespa: Style and Passion* is the ultimate retrospective of this beloved brand. A rich selection of visuals includes dozens of studio images of the most significant models from throughout Vespa history--including classics like the 125, 150 GS, Super Sprint, Primavera, and Rally--as well as period advertisements, rare archival photographs, and images of Vespas in popular culture and motorsport. Mod culture, perhaps most responsible for spreading scooter culture, is also given its due with images of customized Vespas. *Vespa: Style and Passion* relates with elan and high design the endless evolution of a marque that has conquered six continents, with 19 million units sold. The Vespa is not simply a scooter, but the scooter, known and appreciated the world over--a rare example of a motor vehicle that survived crises and fashions, always remaining faithful to the original concept. This is the definitive story of that influence.

"Sex Rampage of the Cycle Savages" ... "Big Mama's Killer Cycle Army" ... "Cross-Country Blast With 'Satan's Riders'" ... "Cycle Queens of Violence" ... A unique archive of biker illustration art at its most savage, with history and context by editors Robert Deis (MensPulpMags.com) and Wyatt Doyle (CRYPTOZOOLOGY ANTHOLOGY), and an afterword/reality check by crime novelist/top cop Paul Bishop. And the deluxe hardcover edition includes 20 bonus pages of belted and booted biker pulp art! *BARBARIANS ON BIKES* is big, bad, and untamed. Can you handle the ride?

Tales from South America is a book of adventure, connection, and a lonely personal journey to the ends of the world. Egle, a 28-year old woman from Lithuania, sets out on a 30,000-mile solo motorcycle ride from Peru to Patagonia and back, exploring South America on two wheels. Along the way, as she journeys to the far South, she connects with local people, discovers a different South America and, in the end, a different self. *Tales from South America* is filled with stories about the everyday life, the weird and wonderful legends, and the extraordinary people of Peru, Bolivia, Argentina, Chile, Ecuador, and Colombia. Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. *Riding in the Zone* helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. *Riding in the Zone* takes riders to the next level in their skill set.

A comprehensive step-by-step introduction to planning, building, and fettling a custom motorcycle. *How to Build a Motorcycle* leads you through all the key stages--from initially finding the right project for your skill level, to sourcing a base bike and safely taking on some full-on bike-building tasks. With clear, easy-to-follow instructions, proper advice, and specially commissioned step-by-step illustrations throughout it is an ideal aid to getting your hands oily.

The dramatic, humorous and candid memoir of one of the most recognisable names in motorcycling. Henry Cole's passion for motorbikes began when, at the age of eight, he was first introduced to a "man cave": His great-uncle Redbeard's corrugated iron shed was "stuffed to the gills with old motorbikes" which Henry helped rebuild and ride. Since then, Henry's life can be charted through the bikes and journeys he has been on, from a stifling public-school education, via many years battling addiction, to the big-sky iconic routes Henry has ridden for over twenty series as presenter of numerous TV shows.

This book reminds millions of motorcyclists why their bike gives them the freedom to be exactly who they want to be. When you ride a motorbike you become part of a worldwide community of kindred spirits, those of us who will not be pacified by driving a car, but instead live for adventure, escape and the sheer thrill of the throttle.

Axe doesn't suffer from addiction. He relishes it. Ever since an open heart surgery tested his metal, everyday challenges just haven't been enough. Despite living the good life in Texas, his girlfriend, Sunshine, knows as well as he does that no matter how happy Axe might be, he'll always have demons inside to battle. He trades his current ride, the Goat, for its steroid-pumped younger cousin, the Cadillaxe. After equipping the triple black beauty with mirror-mounted radar detection and thermal vision, he takes a test run to Colorado and back. Next he finishes building the most exotic chopper of his career and rides this chrome steed to Daytona Beach. But neither of these vehicles or trips are enough for his insatiable need for adrenaline. Finally, the idea of riding his BMW S1000RR motorcycle from the Pacific to the Atlantic consumes his twisted mind. Axe prepares by modifying the BMW, installing the latest gadgetry, and training. Eventually, brains pass the torch to balls as it becomes clear the task is not intended for the weak or sensible. Through pure determination, the leather-clad biker shatters the record for the fastest motorcycle ride across America.

In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a 35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stones lighter and decades wiser. She'd ridden through unforgiving landscapes and countries ravaged by war, witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

Gloria Tramontin Struck rode a motorcycle for the very first time at age 16 in 1941. Women simply didn't ride motorcycles in 1941, but at the urging of her older brother, a very reluctant Gloria gave it a try, and it changed her life forever. She has been riding ever since, and at age 92, still rides regularly and continues to participate in cross country rides. As you might expect, any woman regularly riding a motorcycle in an era when women didn't ride motorcycles has a lot of stories to tell. In Gloria Struck: 75 years on Two Wheels and Still Riding, Gloria shares with you all of her favorite stories, from back when she was being raised behind her father's motorcycle shop in Clifton NJ, through 75 years of riding tales, all the way to the present, where she is rightfully celebrated at motorcycles rallies and events. Complementing her life and riding stories is an extensive scrapbook of photos, over 100 of which are included in this autobiography. Also included are anecdotes provided by fans, friends and admirers. Of course, Gloria's book and her stories, are as much about overcoming prejudice and personal obstacles, as it is about riding motorcycles. Because of that, this book resonates with riders and non-riders alike. The message is about more than riding, it's about meeting and conquering life's challenges with courage and humor.
