In 1835, Texas offered young men like John C. Duval a chance for action and glory. That year he and his brother, Burr, the sons of a former governor of Florida, organized a volunteer company called the "Mustangs." Like Davy Crockett, they were fired up "to give the Texans a helping hand on the road to freedom" from Mexican rule. The first chapters of *Early Times in Texas* lead up to the Goliad Massacre on Palm Sunday 1836, in which Burr (referred to as Captain D?) was killed. John was luckier. After a hair-raising escape from Goliad, he wandered across the countryside, dodging the Mexicans and living by his wits. The diary that Duval kept during these exciting months was the basis for *Early Times in Texas*, which was published more than fifty years later, in 1892. In the intervening years he was a Ranger known as "Texas John" and later was recognized as one of Texas's first men of letters, the author of *The Adventures of Big-Foot Wallace*

This collection of essays examines various forms of dystopian fiction in literature, television, and digital games. It frames the timely trend of dystopian fiction as a thematic field that accommodates several genres from societal dystopia to apocalyptic narratives and climate fiction, many of them examining the hazards of science and technology to human societies and the ecosystem. These are genres of the Anthropocene par excellence, capturing the dilemmas of the human condition in the current, increasingly precarious epoch. The essays offer new interpretations of classical and contemporary works, including the canonised prose of Orwell, Atwood and Cormac McCarthy, modern pop culture classics like *Battlestar Galactica*, *Fallout* and *Hunger Games*, and the

work of Johanna Sinisalo, a pioneer of Finnish speculative fiction. From Thomas Pynchon to *Watership Down*, the volume's multifaceted approach offers fresh perspectives to those already familiar with existing research, but it is no less accessible for newcomers to the ever-expanding field of dystopian studies.

Red Is the New Black challenges the assumption that the Democratic Party is a girl's best friend. *Red Is the New Black* takes an in depth look at the major policy issues affecting all of us to unveil the core values that best empower today's women. It turns out that if we focus on values instead of arguing over ideas, there's a whole lot of common ground upon which women of all viewpoints can agree. Entrepreneur, media commentator, and former White House National Security Council Director Cathy Lynn Taylor shares how these core tenants have shaped her own decisions—and success—and should be shaping the policies that affect the daily lives of women. By combining her own personal anecdotes with hard-hitting research, Taylor powerfully illustrates a set of values that unite us and the policies that best support them.

In this enlightening biography, award-winning academic psychologist Michael Corballis tells the story of how the field of cognitive psychology evolved and the controversies and anecdotes that occurred along the way. Since the Second World War, psychology has undergone several scientific movements, from behaviourism to cognitive psychology and finally to neuroscience. In this fascinating biography, Corballis recounts his career as a researcher who played a part in these monumental changes in psychology. Beginning with his boarding-school education in New Zealand, Corballis goes on to recount his PhD studies and behavioural research into mirror-image discriminations in pigeons, the uprising of the "cognitive revolution" amidst 1960s counterculture and his switch to become a cognitive psychologist, his research into brain asymmetry and the evolution of language and its origin of manual gestures, and the development of mental time travel in animals. Featuring stories of prominent scientists who were integral in psychology's biggest discoveries and insight into the heated debates and controversies in psychology during a time of great scientific and sociocultural change, this biography is a must-read for those interested in how psychology became established as a science.

The first book-length art historical examination of a major contemporary French artist. Over the past two decades, French artist Pierre Huyghe has produced an extraordinary body of work in constant dialogue with temporality. Investigating the possibility of a hypothetical mode of timekeeping—"parallel presents"—Huyghe has researched the architecture of the

incomplete, directed a puppet opera, founded a temporary school, established a pirate television station, staged celebrations, scripted scenarios, and journeyed to Antarctica in search of a mythological penguin. In this first book-length art historical examination of Huyghe and his work, Amelia Barikin traces the artist's continual negotiation with the time codes of contemporary society. Barikin finds in Huyghe's projects an alternate way of thinking about history—a “topological historicity” that deprograms (or reprograms) temporal formats. Barikin offers pioneering analyses of Huyghe's lesser-known early works as well as sustained readings of later, critically acclaimed projects, including *No Ghost Just a Shell* (2000), *L'Expédition scintillante* (2002), and *A Journey That Wasn't* (2005). She emphasizes Huyghe's concepts of “freed time” and “the open present,” in which anything might happen. Bringing together an eclectic array of subjects and characters—from moon walking to situationist practices, from *Snow White* to Gilles Deleuze—*Parallel Presents* offers a highly original account of the driving forces behind Huyghe's work.

When I was assigned an infantry MOS, in spite of having a profile, I first thought about what the Psychiatrist had told me. He said I lost my temper very fast and it was uncontrollable. My first reaction was to get very angry, my mind seemed to blow up, I wanted to scream at him that he was wrong. Then I realized that was just what he had just told me. So I always worried that I would get into a situation where I would need all my faculties about me, and I would lose it and cause one or more people to get injured because I was not thinking properly. I found it easy to operate in the infantry. The operating manuals were written so they were easy to understand. I passed all the schools I had to attend, and I was considered very efficient. However, I was not the loud, screaming bully that was typical of the Infantry Sergeant. I was often criticized because I did not scream at the troops. I found that if you talked to them using good English I got more done. So I did not use curse words, or degrade people in any manner. I learned when I went to my first Infantry unit, that if I told them I had a profile, and that I could type, I would be put in a dead end job that earned no rewards, so I would just be marking time. I could not operate that way. As soon as I could I got rid of the profile. I got a few breaks, and considered myself very lucky to accomplish as much as I did in the Army. I wrote mostly about myself, but I did include bits about people who I considered outstanding, good or bad. I hope you enjoy reading this as much as I enjoyed living it. SFC (Ret) William G. Altenhofen

At the 2013 "Celebrating The Hobbit" conference at Valparaiso University--marking the 75th anniversary of the book's publication and the first installment of Peter Jackson's Hobbit movies--two plenary papers were presented: "Anchoring the Myth: The Impact of The Hobbit on Tolkien's Legendarium" by John D. Rateliff provided numerous examples of The Hobbit's influence on Tolkien's legendarium; and "Tolkien's French Connections" by Verlyn Flieger discussed French influences on the development of Bilbo Baggins and his adventures. In discussions with the plenary speakers and other presenters, it became apparent that a book focusing on how The Hobbit influenced the subsequent development of Tolkien's legendarium was sorely needed. This collection of 15 previously unpublished essays fills that need. With Rateliff's and Flieger's papers included, the book presents two chapters

on the Evolution of the Dwarven Race, two chapters on Durin's Day examining the Dwarven lunar calendar, and 11 chapters on themes exploring various topics on influences and revisions between The Hobbit and Tolkien's legendarium.

This book charts the significant changes in contemporary Canada's literary profile since the mid-1990s, within a context of the new national rhetoric of multiculturalism. By looking closely at a representative range of fictions in English by women from a variety of ethnocultural backgrounds, Howells examines the complexities embedded within Canadian identity. What does 'Refiguring Identities' mean for these writers, given their individual agendas and the multiple affiliation of any woman's identity construction? All these writers are engaged in rewriting history across generation, and Howells argues that woman's fiction negotiates new possibilities for cultural change, introducing more heterogeneous narratives of identity in multi-cultural Canada.

Incredible stories from those who thrived in the Wild West. The “mountain men” were the hunters and trappers who fiercely strode the Rocky Mountains in the early to mid-1800s. They braved the elements in search of the skins of beavers and other wild animals, to sell or barter for goods. The lifestyle of the mountain men could be harsh, existing as they did among animals, and spending most of their days and nights living and camping out in the great unexplored wilds of the Rockies. Life outdoors presented many threats, not least among them Native Americans, who were hostile to the mountain men encroaching on the area for their own purposes. For a certain kind of pioneer, this risk and more were outweighed by the benefits of living free, without the restrictions and boundaries of “civilized” settlements. Included in this collection are tales from great writers, including: Washington Irving Stanley Vestal Osborne Russell Francis Parkman Jr. And many more! In *The Adventures of the Mountain Men*, New York Times bestselling author Stephen Brennan has compiled many of the best stories about the mountain men—the most daring exploits, the death-defying chances taken to hunt big game, the clashes with the arrows of Native Americans, and also the moments when the men were struck by the incomparable beauty of the unsullied, majestic Rocky Mountains.

What does it mean when a band is judged by how hard they pray rather than how hard they rock? Would Jesus buy "Jesus junk" or wear "witness wear"? What do Christian skate parks, raves, and romance novels say about evangelicalism -- and America? Daniel Radosh went searching for the answers and reached some surprising conclusions. Written with the perfect blend of amusement and respect, Rapture Ready! is an insightful, entertaining, and deeply weird journey through the often hidden world of Christian pop culture. This vast and influential subculture -- a \$7 billion industry and growing -- can no longer be ignored by those who want to understand the social, spiritual, and political aspirations of evangelical Christians. In eighteen cities and towns throughout thirteen states -- from the Bible Belt to the outskirts of Hollywood -- Radosh encounters a fascinating cast of characters, including Bibleman, the Caped Christian; Rob Adonis, the founder and star of Ultimate Christian Wrestling; Ken Ham, the nation's leading prophet of creationism; and Jay Bakker, the son of Jim and Tammy Faye Bakker, and pastor of his own liberal, punk rock church. From Christian music festivals and theme parks to Passion plays and comedy nights, Radosh combines gonzo reporting with a keen eye for detail and just the right touch of wit. Rapture Ready! is a revealing survey of a parallel universe and a unique perspective on one of America's most important social movements.
