The Common European Framework of Reference (CEFR) was used to develop guidelines for the provision of English L2 support for newcomer children in Irish primary schools. The guidelines present age-appropriate and domain-specific 'can do' descriptors for the first three levels of the CEFR (A1-B1). This book reports on an in-depth empirical investigation of the English L2 development of 18 primary pupils over the course of one school year. It presents case studies which illustrate the often uncertain progress of pupils' language development, and examines the wide range of variance across the sample. It also provides an analysis of the data as a whole, which reveals a number of regular patterns. The findings confirm that pupils' communicative capacity developed according to the functional trajectory proposed by the guidelines and derived from the CEFR; they also allow us to attach a great deal of linguistic detail to descriptors of underlying linguistic competence.

English Grammar Lessons covers the basics of word usage, including nouns, pronouns, verbs, propositions and adjectives. It shows how they work together to form sentences and ideas, and how misuse of grammar can lead to serious misunderstandings. Nouns take on plural or singular meaning. Verbs take on past, present, and future tenses. The meaning of what we say depends on the correct word choices that we make. Of course, nouns and verbs are modified by adjectives and adverbs for greater descriptive value. Using all of the words at our disposal in the correct way makes our language sing with taste, color, and texture. English Grammar Lessons also deals with words that are spelled alike or sound alike but must be treated differently in order to avoid confusion. Synonyms and homonyms can confuse and bewilder the best of us. Also, the rules of pronunciation can become confusing, and the book sets out the major rules that govern pronunciation. In addition to grammar rules, the book shows how good and exciting composition can liven up a bit of prose and keep it from becoming dead and dull. Composition involves using words to create a vivid picture. Each word is like a brushstroke of bright color that paints a unique scene. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.
