Celtic music is enjoying a well-deserved revival. This revival may have been inspired by historical Hollywood epics, by popular dance acts such as "Riverdance" or purely by the emotional power of Celtic melodies. The songs all tell stories that have been passed down through successive generations, with more facets than any other kind of traditional music: some are melancholy dirges, some playful and lively dance tunes. This book brings together 20 of these traditional melodies in contemporary, modern arrangements for mixed chorus. In them you will find homophonic movements, sweeping melodic lines, vocal imitations of Celtic instruments and rousing rhythms. The irresistible charm of this music will leave no choral singer unmoved and is bound to find favour with audiences.

With its piano accompaniment, this piece is suitable for SATB and piano or orchestra.

With this collection, once again Fred Onovwerosuoke is reaching out to the public desirous of sharing in the musical experience that Africa has to offer. I commend the publication not only to singers but also to music educators and concert repertoire

It shows how Orthodox prelates, clergy and laity have shaped Russians' attitudes towards religious and ideological pluralism, which in turn have influenced the ways in which Russians understand civil society, including those of its features - pluralism and freedom of conscience - that are essential for a functioning democracy. It shows how the official church, including the Moscow Patriarchate, has impeded the development of civil society, while on the other hand the non-official church, including nonconformist clergy and lay activists, has promoted concepts central to civil society.
