African Myths J.K. Jackson,2018-12-15 Sub-Saharan Africa is a land of colourful contrasts and diverse cultures. Despite the destructive influences of colonialism and the slave trade and the lack of early written records, Africa has persevered with its powerful tradition of storytelling, with tales of its history passed down in songs and stories through the generations. Because of the huge diversity of lifestyles and traditions, no real unified mythology exists in Africa, but broadly speaking, a number of beliefs, ideas and themes are shared by African peoples. So this collection offers a selection of descriptions and tales, often those recorded faithfully by some of the first to put them to paper - tales of the gods, creation stories, trickster adventures, animal fables and stories which amuse and teach - from Olukun's Revenge, from the Yoruba people of west Africa, to The Story of the Glutton, from the Bantu-speaking peoples of east Africa, all brought together with the aim of providing an insight into the boundless and vibrant world of African myth. FLAME TREE 451: From mystery to crime, supernatural to horror and myth, fantasy and science fiction, Flame Tree 451 offers a healthy diet of werewolves and mechanical men, blood-lusty vampires, dastardly villains, mad scientists, secret worlds, lost civilizations and escapist fantasies. Discover a storehouse of tales gathered specifically for the reader of the fantastic.

African Myths & Legends J.K. Jackson,2022-04-12 Gorgeous Collector's Edition. With its powerful tradition of storytelling,

African Mythology Jan Knappert,1995

A Dictionary of African Mythology Harold Scheub,2002 This collection of fascinating and revealing tales captures the sprawling diversity of African mythology. Four hundred alphabetically arranged entries touch on virtually every aspect of African religious belief, from Africa's great epic themes (dualistic gods, divine tricksters, creator gods, and heroes) to descriptions of major mythic systems (the Dogon, the Asante, and the San) and beyond. Scheub covers the entire continent, from the mouth of the Nile to the shores of the Cape of Good Hope, including North African as well as sub-Saharan cultures. His retellings provide information about the respective belief system, the main characters, and related stories or variants. Perhaps most important, Scheub emphasizes the role of mythmaker as storyteller--as a performer for an audience. He studies various techniques, from the rhythmic movements of a Zulu mythmaker's hands to the way a storyteller will play on the familiar context of other myths within her cultural context. An invaluable bridge to the richly diverse oral cultures of Africa, this collection uncovers a place where story and storyteller, tradition and performance, all merge.
