This book follows the journeys of those fleeing war, poverty or political crises, risking their lives as they attempt to find sanctuary in Europe. Over the past 25 years, almost 40,000 migrants have been reported missing or died due to drowning or exhaustion on the borders of Europe. 6,000 migrants died in 2016 alone, making it the deadliest year on record. Growing numbers of arrivals since 2015 have caused a wave of panic to sweep across the countries of the European Union, which has responded with an increasingly entrenched policy - the only one it considers appropriate - of fortifying its external borders. As a result, numerous walls and fences have sprung up to "regulate the flows", new camps have been opened and reception centres have been set up beyond the frontiers of Europe, all accompanied by the steady militarisation of surveillance and repression. The EU has thus been just as active in precipitating this "migrant crisis" as it has been in prolonging its effects. Indeed, this crisis calls into question the entire European system for border management and policies on immigration and reception. Deconstructing preconceptions, changing the way we see others, probing borders and mapping the nexus of control and detention, the collection of articles, maps, photographs and illustrations in this Atlas provide an important critical geography of migration policies. Perfect for journalists, activists, students of geopolitics at school or university, this Atlas seeks, above all, to give migrants a voice. d, this crisis calls into question the entire European system for border management and policies on immigration and reception. With its increasing presence in a continuously evolving media environment, the essay film as a visual form raises new questions about the construction of the subject, its relationship to the world, and the aesthetic possibilities of cinema. In this volume, authors specializing in various national cinemas (Cuban, French, German, Israeli, Italian, Lebanese, Polish, Russian, American) and critical approaches (historical, aesthetic, postcolonial, feminist, philosophical) explore the essay film and its consequences for the theory of cinema while building on and challenging existing theories. Taking as a guiding principle the essay form's dialogic, fluid nature, the volume examines the potential of the essayistic to question, investigate, and reflect on all forms of cinema—fiction film, popular cinema, and documentary, video installation, and digital essay. A wide range of filmmakers are covered, from Dziga Vertov (*Man with a Movie Camera*, 1928), Chris Marker (*Description of a*

Struggle, 1960), Nicolás Guillén Landrián (*Coffea Arábica*, 1968), Pier Paolo Pasolini (*Notes for an African Oresteia*, 1969), Chantal Akerman (*News from Home*, 1976) and Jean-Luc Godard (*Notre musique*, 2004) to Nanni Moretti (*Palombella Rossa*, 1989), Mohammed Soueid (*Civil War*, 2002), Claire Denis (*L'Intrus*, 2004) and Terrence Malick (*The Tree of Life*, 2011), among others. The volume argues that the essayistic in film—as process, as experience, as experiment—opens the road to key issues faced by the individual in relation to the collective, but can also lead to its own subversion, as a form of dialectical thought that gravitates towards crisis.

Tami has traveled long and far from his home in the south, forbidden to return until he has become a man, in this coming-of-age story. Defeating monsters and saving princesses has not been enough, and now he must find the fabled flower of the witch, but in his quest Tami inadvertently sparks a feud between the villagers who shelter him and the demon Yabra! And when the conflict comes to a head, Tami will have to choose between proving himself as a man, and protecting the villagers he's come to love. Available for the first time in English, Enrico Orlandi's exciting tale of adventure and compassion is a timely reflection on identity, responsibility, and the true meaning of maturity. "My intention when I created Tami and the world of *Il fiore della strega*, was to tell a fantastic story that would capture the reader's imagination and inspire them to lose themselves in the cold forests of the far north, to feel the icy gaze of the spirits and the warmth of the hearths in each tent. Tami's journey, his difficulties and mistakes, are in essence what every child must face as they grow into adulthood. To those who read this book, I would like to say that a girl can go on adventures, that a boy can cry if he needs to, that there is no right way to grow up. You just have to take the time to understand who you want to be." -- Enrico Orlandi

Praise for Ben Pastor's *Lumen*: "Pastor's plot is well crafted, her prose sharp. . . . A disturbing mix of detection and reflection."—Publishers Weekly "Rivets the reader with its twist of historical realities. A historical piece, it faithfully reproduces the grim canvas of war. A character study, it captures the thoughts and actions of real people, not stereotypes."—The Free Lance-Star "And don't miss *Lumen* by Ben Pastor. . . . An interesting, original, and melancholy tale."—Literary Review Italy, September 1943. The Italian government switches sides and declares war on Germany. The north of Italy is controlled by the fascist puppets of Germany; the south liberated by Allied forces fighting their way up the peninsula. Having survived hell on the Russian front, Wehrmacht major and aristocrat Baron Martin von Bora is sent to Verona. He is ordered to investigate the murder of a prominent local fascist: a bizarre death threatening to discredit the regime's public image. The prime suspect is the victim's twenty-eight-year-old widow Clara. Haunted by his record of opposition to SS policies in Russia, Bora must watch his step. Against the backdrop of relentless anti-partisan warfare and the tragedy of the Holocaust, a breathless chase begins. Ben Pastor, born and now back in Italy, lived for thirty years in the United States, working as a university professor in Vermont. The first in the Martin Bora series, *Lumen*, was published by Bitter Lemon Press in May 2011.

Oxbow says: In the early 8th century BC a Greek colony was established by the Parians on the island of Hvar in the Adriatic Sea, off the coast of modern Croatia. This volume presents a synthesis of what is known of this Greek colony gleaned from archaeological, written, epigraphic and numismatic sources.

This book proposes an integrated model of treatment for Personality Disorders (PDs) that goes beyond outdated categorical diagnoses, aiming to treat the general factors underlying the pathology of personality. The authors emphasize

the development of metacognitive functions and the integration of procedures and techniques of different psychotherapies. The book addresses the treatment of complex cases that present with multiform psychopathological features, outlining clinical interventions that focus on structures of personal meaning, metacognition and interpersonal processes. In addition, this book: Provides an overview of pre-treatment phase procedures such as assessment interviews Explains the Metacognitive Interpersonal Therapy (MIT) approach and summarizes MIT clinical guidelines Outlines pharmacological treatment for patients with PDs Includes checklists and other useful resources for therapists evaluating their adherence to the treatment method Complex Cases of Personality Disorders: Metacognitive and Interpersonal Therapy is both an insightful reexamining of the theoretical underpinnings of personality disorder treatment and a practical resource for clinicians.

“WRETCHED OF THE EARTH” part two! In trying to save the children from the vile clutches of the warlord Uma, Victor feels the pangs of being human again as he contracts a deadly virus. But in protecting them, will he sacrifice the one chance he has of being whole again? Or will he save himself at the cost of his humanity and his own immortal soul? Back in a new printing is this original vision of a forest filled with cute horny winged little fairies in tight fetish leather outfits. In Kondom's fairy-world, when a fairy turns 100 years old they become keepers and caretakers of the forest and all the little critters who live in the woods. While searching for a missing Stag Beetle, Pfil comes across an isolated house with three evil fairies who drug, bind and take her prisoner for their own sexual purposes. Where is Pamila and how does Pfil get out of this one?

When the Stone Towers that control the Abominations start to crumble, wizard Alben recruits Myrva, a Technocrat warrior, her brother Ian, a former soldier, his sidekick Gmor the ogre, and the priestess called Ecuba to battle the rising evil.

This book offers an essential compendium on the analysis and design of synchronous motors for variable-speed applications. Focusing on synchronous reluctance and ferrite permanent-magnet (PM) synchronous reluctance machines, it provides a broad perspective on three-phase machines for variable speed applications, a field currently dominated by asynchronous machines and rare-earth PM synchronous machines. It also describes synchronous reluctance machines and PM machines without rare-earth materials, comparing them to state-of-the-art solutions. The book provides readers with extensive information on and finite element models of PM synchronous machines, including all relevant equations and with an emphasis on synchronous-reluctance and PM-assisted synchronous-reluctance machines. It covers ferrite-assisted machines, modeled as a subcase of PM-assistance, fractional slot combinations solutions, and a quantitative, normalized comparison of torque capability with benchmark PM machines. The book

discusses a wealth of techniques for identifying machine parameters, with an emphasis on self-commissioning algorithms, and presents methods for automated machine design and optimization, including a software tool developed for this purpose. Addressing an important gap in the field of PM-less and less-PM electrical machines, it is intended as a self-contained reference guide for both graduate students and professional machine designers, and as a useful text for university courses on automated and/or optimized design of electrical machines and drives.

Eric Hobsbawm, who passed away in 2012, was one of the most brilliant and original historians of our age. Through his work, he observed the great twentieth-century confrontation between bourgeois fin de siècle culture and myriad new movements and ideologies, from communism and extreme nationalism to Dadaism to the emergence of information technology. In *Fractured Times*, Hobsbawm, with characteristic verve, unpacks a century of cultural fragmentation. Hobsbawm examines the conditions that both created the flowering of the belle époque and held the seeds of its disintegration: paternalistic capitalism, globalization, and the arrival of a mass consumer society. Passionate but never sentimental, he ranges freely across subjects as diverse as classical music, the fine arts, rock music, and sculpture. He records the passing of the golden age of the “free intellectual” and explores the lives of forgotten greats; analyzes the relationship between art and totalitarianism; and dissects phenomena as diverse as surrealism, art nouveau, the emancipation of women, and the myth of the American cowboy. Written with consummate imagination and skill, *Fractured Times* is the last book from one of our greatest modern-day thinkers.

You've gone through a million books and websites, listened to a bunch of clueless college admissions "experts," and still have no idea how to get into some of the most selective schools in America. If this sounds anything like you, this book was made especially for you. This guide is the definitive publication on the tried and true methods to get into the college of your choosing. Learn how to manipulate the college application process, not the other way around.

The latest novel from the #1 internationally best-selling author of *The Alchemist*. There is nothing wrong with anxiety. Although we cannot control God's time, it is part of the human condition to want to receive the thing we are waiting for as quickly as possible. Or to drive away whatever is causing our fear. . . . Anxiety was born in the very same moment as mankind. And since we will never be able to master it, we will have to learn to live with it—just as we have learned to live with storms. \* \* \* July 14, 1099. Jerusalem awaits the invasion of the crusaders who have surrounded the city's gates. There, inside the ancient city's walls, men and women of every age and every faith have gathered to hear the wise words of a mysterious man known only as the Copt. He has summoned the townspeople to address their fears with truth: “Tomorrow, harmony will become discord. Joy will be replaced by grief. Peace will give way to war. . . . None of us can know what tomorrow

will hold, because each day has its good and its bad moments. So, when you ask your questions, forget about the troops outside and the fear inside. Our task is not to leave a record of what happened on this date for those who will inherit the Earth; history will take care of that. Therefore, we will speak about our daily lives, about the difficulties we have had to face." The people begin with questions about defeat, struggle, and the nature of their enemies; they contemplate the will to change and the virtues of loyalty and solitude; and they ultimately turn to questions of beauty, love, wisdom, sex, elegance, and what the future holds. "What is success?" poses the Copt. "It is being able to go to bed each night with your soul at peace." \* \* \* Now, these many centuries later, the wise man's answers are a record of the human values that have endured throughout time. And, in Paulo Coelho's hands, The Manuscript Found in Accra reveals that who we are, what we fear, and what we hope for the future come from the knowledge and belief that can be found within us, and not from the adversity that surrounds us. This eBook edition includes a Reading Group Guide.

A study of the generation of French, German, English, Spanish, and Italian young men who fought in World War I.

"With *Burnt Black Suns*, Strantzias continues a trajectory into deeper darkness . . . and in some respects the odyssey has brought him closer to the primal core of the tradition and its rawest, purest essentials."-From Laird Barron's foreword "The stories of Simon Strantzias exemplify a style of horror that might be compared to the novellas of T. E. D. Klein."-Thomas Ligotti "*Burnt Black Suns* demonstrates Strantzias's remarkable narrative skills, his unerring, feverish sense of pace, and his absolute willingness to hurl himself into the darkest ranges of his excellent imagination."-Peter Straub "In *Burnt Black Suns* Strantzias casts far into time and space to find the alien, and what comes back wriggling inside his net is ghastly."-Adam Nevill In this fourth collection of stories, Simon Strantzias establishes himself as one of the most dynamic figures in contemporary weird fiction. The nine stories in this volume exhibit Strantzias's wide range in theme and subject matter, from the Lovecraftian "Thistle's Find" to the Robert W. Chambers homage "Beyond the Banks of the River Seine." But Strantzias's imagination, while drawing upon the best weird fiction of the past, ventures into new territory in such works as "On Ice," a grim novella of arctic horror; "One Last Bloom," a grisly account of a scientific experiment gone hideously awry; and the title story, an emotionally wrenching account of terror and loss in the baked Mexican desert. With this volume, Strantzias lays claim to be discussed in the company of Caitlín R. Kiernan and Laird Barron as one of the premier weird fictionists of our time.

Tracer's time as an Overwatch agent is up. Five years after the ratification of the Petras Act, she now tends to small-scale crimes as a part-time hero. But when a punk-rock omnic named Iggy shows Tracer the dire living conditions that have been forced upon London's omnic, Tracer becomes determined to help in any way possible—even if it puts her back in the crosshairs. Acclaimed Eisner and Harvey award-winning writer Mariko Tamaki (*This One Summer*, X-23) and kinetic artist Babs Tarr (*Batgirl*, *Motor Crush*) are joined by exquisite colorist Rachel Cohen (*Snotgirl*) and letterer extraordinaire Deron Bennett (*Tale of Sand*) for a monthly, five-part digital series that will be available online for free. Working in close collaboration, Blizzard Entertainment and Dark Horse Comics present Overwatch fans with an exciting new

addition to Overwatch's expanding story in the limited series Overwatch: Tracer – London Calling. Set several years after Overwatch and its agents are declared "illegal," this essential tie-in comic series will forever alter Overwatch history!

Heredity, either alone or in combination with environmental factors, is the most prominent underlying cause of hearing impairment. Thanks in large part to positional cloning techniques, scientists have identified nearly 100 gene loci implicated in hearing loss since 1995-an extraordinarily rapid rate of gene identification. Genetic Hearing Loss branches into syndromic and nonsyndromic categorical directions in its coverage of the genetics behind hearing loss. Authored by 60 internationally recognized researchers, the book describes the normal development of the ear, updates the classification and epidemiology of hearing loss, and surveys the usage of audiometric tests and diagnostic medical examinations.

Local environments such as cities and neighbourhoods are becoming a focal point for those concerned with environmental justice and sustainability. The Citizens at Risk takes up this emerging agenda and analyses the key issues in a refreshingly simple yet sophisticated style. Taking a comparative look at cities in Africa, Asia and Latin America, the book examines: the changing nature of urban environmental risks, the rules governing the distribution of such risks and their differential impact, how the risks arise and who is responsible The authors clearly describe the most pressing urban environmental challenges, such as improving health conditions in deprived urban settlements, ensuring sustainable urban development in a globalizing world, and achieving environmental justice along with the greening of development. They argue that current debates on sustainable development fail to come to terms with these challenges, and call for a more politically and ethically explicit approach. For policy makers, students, academics, activists or concerned general readers, this book applies a wealth of empirical analysis and theoretical insight to the interaction of citizens, their cities and their environment.

Throughout history the witch has been sought out, persecuted, tortured and killed for reasons unknown. Many were killed based on archaic laws that suited the needs of those in power at any given time. Others were killed for carrying a knowledge that was perceived as a threat to those in power. All were killed out of ignorance and fear. Fear of the unknown and fear of the truth could very well be the same thing. For whatever the reason it is no secret witches were sought out and put to death throughout history. Even today the real witch remains an enigma choosing solitude away from the world they live in. Why? we ask. The real witch knows nothing has changed in over two thousand years. The threat from those in power is just as real today as it ever was. Laws can be written and enforced, without measure, at any given time. Fear can bring immediate and massive changes in the world and is a great motivator when needed. Even in the greatest of nations, fear remains a constant tool, used frequently to get the changes that are desired at any given time. Yes, witches were sought out and killed. There is no secret to those events. The secret is why were they killed? What were governments and religion really looking for with their archaic laws that protected their indiscriminate killings throughout history? Hundreds, perhaps thousands, of innocent individuals were slaughtered, and for what? What secret is so great that it still remains elusive even today? What secret is so great that it is only whispered by a few, yet still sought after by those in power? And do we actually know, at any given time, who really is the power? There lies within the truth of all truths an

untold legend, buried by governments and religion for centuries yet silently whispered by those who have lifted the veil between the worlds unknown. Sought after by the rich and powerful throughout recorded history the secret has been carried silently, by a chosen few, through the decades. Eventually, out of fear, the legend that had passed as folklore was buried. Today it remains just out of sight to all except one. This is his story.

"HE" was really an "IT" He was incapable of love or mercy, or hate. And he certainly never felt the lack. He was almost pure thought. He was just doing what he had to do - looking for the right body to play host to him. Once he found it and moved in, he would execute one of the most incredible plans ever conceived. He would be hailed as a hero on his own planet and... EARTH WOULD NEVER KNOW WHAT HIT IT!

The intellectual history of the Middle Ages involves many earlier traditions and developments from them, but just as many completely new lines of thought. The influence of Classical Antiquity is always present: in the continuation and adaptation of late antique forms of education and intellectual training, but also in the works of the Latin Church Fathers and of the major ancient philosophers whose works were passed down and built upon in the Middle Ages. From the 12th century onwards Arabic-Islamic learning, which bore the clear stamp of Greek philosophy and science, became known in Latin-speaking Europe and was a catalyst for many new developments. In keeping with the educational system of the period, theology and philosophy, the latter being seen as a universal science, were the main vehicles of intellectual life. In logic, ethics and natural philosophy as well as in scientific theology, medieval scholars attained standards, which in some cases have not even been equalled today. 'Studien und Texte zur Geistesgeschichte des Mittelalters' aims to address itself to this cultural plurality with a correspondingly broad publication programme. It is open to specialist research into the influence of Classical philosophy, to text editions, to monographs on the history of various intellectual problems, to examinations of hitherto undiscovered or undervalued contributions by medieval thinkers to the development of thought. Conceived as an homage for Edouard Jauneau - maitre par excellence - the volume is introduced by a reconstruction of the Creation on the North portal of Chartres Cathedral, followed by a section on the transmission of significant texts, such as Plato's Timaeus, through the manuscript tradition. The chapter on later Greek philosophy contains studies on Plotinus and Augustine, Proclus, and Pseudo-Dionysius. A separate section interprets the thought of Johannes Scottus Eriugena, whose connections with earlier authors and influence on medieval neoplatonists constitutes a leitmotiv throughout the volume. The twelfth century is represented by articles on Gilbert of Poitiers on matter, Adelard of Bath, Honorius of Autun, Abelard's ethics and theology, monastic asceticism, Hildegard of Bingen's allegories, allegorical zoology, Alan of Lille's anthropology, the role of the Muses, and the Hermetic Asclepius. The particular usefulness of this study is its presentation of neoplatonic thought in its historical unfolding from Antiquity to the Later Middle Ages through a wide range of disciplines, focused on specific ideas and metaphors.

A TIMES LITERARY SUPPLEMENT BEST BOOK OF THE YEAR Drawing on an exceptional combination of skills as literary biographer, novelist, and chronicler of London history, Peter Ackroyd surely re-creates the world that shaped Shakespeare--and brings the playwright himself into unusually vivid focus. With characteristic narrative panache, Ackroyd immerses us in sixteenth-century Stratford and the rural landscape--the industry, the animals, even the flowers--that would appear in Shakespeare's plays. He takes us through Shakespeare's London neighborhood and the fertile, competitive theater world where he worked as actor and writer. He shows us Shakespeare as a businessman, and as a constant reviser of his writing. In joining these intimate details with profound intuitions about the playwright and his

work, Ackroyd has produced an altogether engaging masterpiece.

The commedia dell'arte, the improvised Italian theatre that dominated the European stage from 1550 to 1750, is arguably the most famous theatre tradition to emerge from Europe in the early modern period. Its celebrated masks have come to symbolize theatre itself and have become part of the European cultural imagination. Over the past twenty years a revolution in commedia dell'arte scholarship has taken place, generated mainly by a number of distinguished Italian scholars. Their work, in which they have radically separated out the myth from the history of the phenomenon remains, however, largely untranslated into English (or any other language). The present volume gathers together these Italian and English-speaking scholars to synthesize for the first time this research for both specialist and non-specialist readers. The book is structured around key topics that span both the early modern period and the twentieth-century reinvention of the commedia dell'arte. "An intellectual feast, learned, lucid, challenging and accessible." —San Francisco Chronicle "Ideas crackle" in this triumphant final book of Tony Judt, taking readers on "a wild ride through the ideological currents and shoals of 20th century thought." (Los Angeles Times) The final book of the brilliant historian and indomitable public critic Tony Judt, *Thinking the Twentieth Century* maps the issues and concerns of a turbulent age on to a life of intellectual conflict and engagement. The twentieth century comes to life as an age of ideas—a time when, for good and for ill, the thoughts of the few reigned over the lives of the many. Judt presents the triumphs and the failures of prominent intellectuals, adeptly explaining both their ideas and the risks of their political commitments. Spanning an era with unprecedented clarity and insight, *Thinking the Twentieth Century* is a tour-de-force, a classic engagement of modern thought by one of the century's most incisive thinkers. The exceptional nature of this work is evident in its very structure—a series of intimate conversations between Judt and his friend and fellow historian Timothy Snyder, grounded in the texts of the time and focused by the intensity of their vision. Judt's astounding eloquence and range are here on display as never before. Traversing the complexities of modern life with ease, he and Snyder revive both thoughts and thinkers, guiding us through the debates that made our world. As forgotten ideas are revisited and fashionable trends scrutinized, the shape of a century emerges. Judt and Snyder draw us deep into their analysis, making us feel that we too are part of the conversation. We become aware of the obligations of the present to the past, and the force of historical perspective and moral considerations in the critique and reform of society, then and now. In restoring and indeed exemplifying the best of intellectual life in the twentieth century, *Thinking the Twentieth Century* opens pathways to a moral life for the twenty-first. This is a book about the past, but it is also an argument for the kind of future we should strive for: *Thinking the Twentieth Century* is about the life of the mind—and the mindful life. Judt's book, *Ill Fares the Land*, republished in 2021 featuring a new preface by bestselling author of *Between the World and Me* and *The Water Dancer*, Ta-Nehisi Coates.

One former Miss Bolivia. Two missing Colombian drug dealers. Three wealthy tourists taken hostage. A passenger liner runs aground on the muddy banks of the Rio del Plata. One by one, its passengers are abducted by the city's criminal classes. As the kidnapping of three wealthy European couples sends stock markets yo-yoing, the job of solving the chaos falls on the weary shoulders of the last honest men in town--Deputy Inspector Walter Carroza of the serious-crime squad. But the one thing on his mind is former Miss Bolivia, Ana Torrente, "a cherub with tropical lips and tits." Why is it that the bodies of the men who try to take her to bed are always found minus a head? Devilishly ironic and shirt-soakingly atmospheric, *Holy City* confirms Orsi as the master chronicler of Buenos Aires' murderous underworld.
