How do Nurses really feel about their work? Do they become distant and uninvolved with pain and suffering to protect themselves from self-destruction over the years? Do they genuinely care what happens to their patients or is it merely a calloused race to the finish line of quitting time each shift? Any reader who has laid in a hospital bed or had a loved one hospitalized will be able to immediately relate to this book and it's lovingly detailed descriptions of the events unfolding in the lives of both patients and their primary caregivers, the Nursing staff. There are surprises; this is not a pink, warm fuzzy diary but a visceral accounting of the true struggle to maintain humanity and compassion in an environment that runs the risk of becoming immune to it's own drama. The pieces are delivered in the format of often graphic prose and poetry and forward the unexpected combination of pathos and hope. Expect to need tissues as a reading aid. This is a book not only for the lay public but for the health care professions as well; it normalizes the extraordinary experiences of those whose work it is to sustain and save life, whose charge is to heal and to help. There is reassurance in each line of these pages and it should be required reading for all nursing students and health care professionals in addition to being a primer for all those whose life leads them through illness, either in a hospital bed or beside it.

Engulfed in the darkness of Irian Jaya's Snow Mountains live the Yali, naked cannibals who call themselves lords of the earth. Yet, in spite of their boldness, they live in terror and bondage to the women-hating, child-despising gods they serve. Missionary Stan Dale dared to enter their domain and be an instrument to change their future. Peace Child author, Don Richardson, tells the story of Dale, his wife, his companions and thousands of Yali tribesmen in Lords of the Earth. This unforgettable tale of faithful determination and zeal against overwhelming odds brings unlikely characters together in a swirl of agony and bloodshed climaxing in a dramatic, unexpected ending. Readers will find their perceptions of how God moves enlarged and inspired by this classic story. For parents and youth leaders looking for real-life role models for the new generation of young people, you will want to meet the Dales in Lords of the Earth.

"In 1927, the critic Rene Chavance identified carpet production as the most successful of the decorative arts in achieving 'the more visionary aims of the times'. Susan Day's book, a work of original scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors, demonstrates that these Art Deco carpets have lost none of their decorative power. A significant number of the carpets are shown precisely as they were meant to be seen, within the rooms for which they were made." "The fruits of the remarkable Art Deco efflorescence throughout Europe form the first part of the book. In the second, the focus turns to the reaction against the artistes-decorateurs by the champions of modernism. In France, the designs of Sonia Delaunay, Eileen Gray and Jean Lurcat evoked collage and Cubism; the Bauhaus and Scandinavia provided different influences. The fashion for abstract and modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso, Klee and Miro, while in the USA, designers developed a style that was distinctly American." "This visual feast, of appeal not only to carpet collectors and textile specialists but to anyone with an interest in 20th-century design, ranges from the supremely imaginative achievements of Paul Poiret's unique weaving studio, the Ecole Martine, to the Scandinavian folk traditions of Marta Maas-Fjetterstrom, the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl's handwoven carpets in Germany. The book's invaluable reference section includes detailed information on artists, manufacturers and retailers, their signatures and monograms, and a glossary and bibliography." --Book Jacket.

When did Satan fall? We know that the angels were created prior to the Earth. We find Satan had already fallen in Genesis 3. The mystery is, when did he fall? It appears that there are substantial Scriptural references to his rebellion, his agenda, and the subsequent catastrophic judgment that ensued. This raises the whole issue of the origin of evil. And why hasn't God simply wiped him, and sin, out completely? It is also disturbing to recognize that Satan tempted Jesus by offering him the kingdom, power and the glory in the temptations recorded in Luke 5. How could Satan lay a legitimate claim to these?

The book that inspired the major History Channel special God Code shows there is more to the Bible than meets the eye—messages from God hidden for ages, now revealed by modern computer technology. In God Code, antiquities expert Timothy P. Smith reveals his decades-long quest to understand the complex messages he discovered in an ancient Hebrew manuscript of the Bible. This painstaking search involves adventure and mystery, but instead of consulting ancient maps to find buried treasure, Smith relied on the data calculation power of modern technology. His quest shows how Scripture is more amazing than we ever dreamed—and that it may even reveal the future of generations living today. God Code reveals: • An encrypted code in Genesis, in the oldest known Hebrew text of the Old Testament, that predicted the birth and resurrection of Jesus. • Scientific evidence that this encrypted code was authored by the divine hand of God. • Signs that there are more encrypted codes in this same Hebrew text that will lead to additional messages from God to humanity. • Hidden clues that may lead to the location of long-missing sacred artifacts, such as the Ark of the Covenant. • Insights on why Smith was chosen to uncover this encrypted code. • A dire warning that God wants us to hear—and heed. In the companion History Channel series, the author travels across continents in search of artifacts missing since Bible times—clues to their location revealed in God Code. The Caucasus MRW (online and print) Volume will cover this European Macroregion. The content will focus on the ethnobotany of wild plants in this Macroregion and it will be first developed as an online site and, later, when all of the planned topics have been covered for this specific volume, printed in a hard copy version. The online site will remain live and be available for updates (with new monographs [if not covered initially due to lack of research]). The content will be divided into sections covering countries (or groups of countries), based on plant diversity and not necessarily political or national boundaries. The Caucasus volume will have an Introduction (4,000-6,000 words); 50 200 plant monographs (10 to maximum 50 monographs per country) with each monograph having a length of ~1,500 words (with references), plus 2-4 photographs. To further define the content, the plant monographs will be divided into five major categories (food; medicine/cosmetic; veterinary; handicraft plants; and ritual/folkloric uses) and include notes. The number of the monographs in every category will be negotiated depending on the advances of the ethnobotanical research in each specific country, or group of countries. The main criteria for the inclusion of a given plant will be its cultural salience within a given country (assessed by the Volume Editor). References will be given at the end of the

Introduction and each monograph.

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood, Indian Cinema has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it

means to belong here"—D. A. Powell.
