This volume examines the controversy surrounding the use of competition law to combat excessive pricing. While high or monopolistic pricing is not regarded as an antitrust violation in the US, employing abuse of dominance provisions in competition laws to fight excessive pricing has gained popularity in some BRICS jurisdictions and a number of EU-member states in recent years. The book begins by discussing the economic arguments for and against the prohibition of excessive or unfair prices by firms with market power. It then presents various country studies, focusing on developed countries (such as the UK and Israel) and on the BRICS countries, to highlight various practical challenges involved in recognizing excessive prices as abusive conduct on the part of dominant firms, including how to define, measure and identify excessive prices. The contributors also discuss other policy options that can be used to fight excessive prices in order to protect consumer welfare.

Wonderfully well researched . . . engrossing, enlightening! The Hindu The Delhi Sultanate period (1206-1526) is commonly portrayed as an age of chaos and violence-of plundering kings, turbulent dynasties, and the aggressive imposition of Islam on India. But it was also the era that saw the creation of a pan-Indian empire, on the foundations of which the Mughals and the British later built their own Indian empires. The encounter between Islam and Hinduism also transformed, among other things, India's architecture, literature, music and food. Abraham Eraly brings this fascinating period vividly alive, combining erudition with powerful storytelling,

Winner of the 2009 Ananda Kentish Coomaraswamy Book Prize, sponsored by the Association for Asian Studies The medieval Rajput queen Padmini - believed to have been pursued by Alauddin Khalji, the Sultan of Delhi - has been the focus of numerous South Asian narratives, ranging from a Sufi mystical romance in the sixteenth century to nationalist histories in the late nineteenth century. The Many Lives of a Rajput Queen explores how early modern regional elites, caste groups,

and mystical and monastic communities shaped their distinctive versions of the past through the repeated refashioning of the legend of Padmini. Ramya Sreenivasan investigates these legends and traces their subsequent appropriation by colonial administrators and nationalist intellectuals, for varying different political ends. Using Padmini as a means of illustrating the power of gender norms in constructing heroic memory, she shows how such narratives about virtuous women changed as they circulated across particular communities in South Asia between the sixteenth and early twentieth centuries. This book will interest historians of memory, gender, community, culture, and historywriting in South Asia. Illustrating how enduring legends emerged out of particular precolonial repositories of "tradition," the book also addresses the nature of colonial transitions and precolonial historical consciousness.

Presents a consolidated timeline of medieval India by taking into account the period that marked the end of ancient India, and focusing on the importance of the transitory centuries when Delhi had begun to surface as the new power center, triggering prominent trends in thought and institutions. This book analyzes the nature of social forces, complexity of causation and the interdependence of change and continuity in the light of the crucial transition from ancient to early medieval India, with the emergence of the Delhi Sultanate and the Vijayanagar-Bahmani kingdoms. Proceeding to detail the most effervescent period in Indian history - the era of the great Mughals - the text provides an insight into the ideological-philosophical basis of the times, focusing on the Sufi and Bhakti movements, and culminates with the rise of the Marathas, the advent of European companies, and the eventual establishment of the British in Bengal. Keeping in mind that the history of medieval India has not moved in a linear fashion, and that much of the period saw phases of expansion and realignment of political attributes, this book contributes to a deeper understanding of the much misread period of Indian history with a view that takes into account the resultant interface between the political, social, economic, religious and cultural elements and devotes to this crucial period the attention it deserves.

Perspectives in Indian History deals with the history of India from 10,000 BC until 1857 AD. It delves into the story of the Indus-Saraswati civilization and the development of the Vedas. Such a book has been written for the first time, wherein India's history has been analyzed from the early Hindu period. Hitherto most history books have emphasized the Muslim period or the British period. These have been written by Muslim historians or European colonists, which was often skewed by their fundamental bias that no civilization could equal their own. During this retelling, the author covers the interesting aspects of each age starting with the Ramayana. He then examines hotly debated issues like whether Alexander the Great won or lost in India. The author carries out an analysis of the causes of the conquest of India by the Muslims. The author analyses detailed battleplans of major battles, which affected India's history, like Panipat, Plassey, and many others, and discusses the weaponry and tactics used in these wars.

Index 336 Foreword The administrative machinery of the Delhi Sultanate was run mainly by three ministries—the Diwan-i-Wizarat, the Diwan-i-'Arz and the Diwan-i-Risalat. While some work has been done on the first two, an in-depth study of the Diwan-i-Risalat—which dealt with religious matters, stipends and pious foundations—has largely remained a desideratum. Mr. A. D. Khan's work goes a long way in filling this gap in our historical literature. With his extensive knowledge of the contemporary and modern literature, he has tried to put the institution of sadarat in its proper historical perspective. His contribution deserves approbation by all those interested in medieval Indian history and culture. Discussing the origin of the office of sadr, Khwandmir observes in his Nama-i-Nami that Malik Shah Seljuqi had established this office as he was desirous of having a learned man at the court to represent the cases of Syeds and 'ulama' and to manage pensions, stipends and endowments. In course of time the office of sadr became the chief authority dealing with all religious matters and provided institutional liaison between State and Religion. Mr. Khan has very ably traced the evolution of sadarat in medieval India and has shown how the scope and conspectus of its work differed from period to period. The Diwan-i-Riyasat was headed by two important officers, the Qazi-ul-Quzat and the Sadr-us-Sudur.

During the Sultanate period these two offices were entrusted to the same person who thus came to exercise great authority in judicial matters while his patronage to scholars, religious men and the indigent people enhanced his prestige. The muhtasib (Censor of public morals), who functioned under the aegis of this department, enjoyed some economic powers also pertaining to the market. Thus the institution of sadarat became a very influential wing of the administrative machinery and both the pulpit and the chair came to be controlled by the sadr. Notwithstanding all this authority, it would be wrong to think that the sadarat or the 'ulama' bound to the state chariot regulated or influenced the policies of the State. Beyond creating a lashkar-i-du'a and providing state help to khanqahs and madrasahs, the sadarat had no say in administrative matters as such. It enjoyed religious prestige but wielded no political power. The Sultans were guided by exigencies of the political situation and formulated zawabit (state laws which had nothing to do with shari'at laws) to administer the country. The advice of Syed Nuruddin Mubarak Ghaznavi, Qazi Mughis and others was never heeded by the Sultans. Barani's political realism made him appreciate that in matters of government the Sultans looked to the precepts of the legendary heroes of Iran rather than the religious precepts and principles of the jurists. The Delhi Sultanate maintained the Diwan-i-Sadarat with all enthusiasm and extended all

patronage to its functionaries but the strings of administration were entirely in the hands of secular authorities. The function of the institution of ihtasab was to check immoral behaviour at public places. Under rulers who were themselves sunk in debauchery—like Kaiqubad, Mubarak Khalji and others—the muhtasib had to watch helplessly rapid deterioration in public morality. Under ‘Alauddin Khalji the institution of ihtasab gained unprecedented prestige. The Sultan’s strong measures against drinking, prostitution etc. strengthened the functioning of the Department. Maulana Ziauddin Sunnami’s Nisab al-Ihtasab gives a very good idea of the matters dealt with by the Department during this time. His book became popular in Muslim lands also. Mr. Khan’s work will be read with interest as it does not merely deal with the theoretical aspect of the institution of sadarat but gives a very lively account of the actual role of individuals involved in its functioning at different levels. He attempts an analysis of the different approaches of the ‘ulama and sufis of the period and traces its interaction in the broader framework of medieval history. It is hoped that Mr. Khan’s work will be read with keen interest by all students and scholars of the history of medieval India. K. A. Nizami (Nizami Villa, Aligarh)
