

Albions Seed Four British Folkways In America America A Cultural History New By Fischer David Hackett 1989 Paperback

Jerry F. Hough, Robin Grier

Albion's Seed David Hackett Fischer, 1989 Given in memory of Lt. Charles Britton Hudson, CSA and Sgt. William Henry Harrison Edge, CSA by Eugene Edge III.

Bound Away David Hackett Fischer, James C. Kelly, 2000 A study of the migration patterns that characterized the colony and (later) state of Virginia over the three century history following its European founding. Dividing the topic into three patterns--migration to, within, and from Virginia--Fischer (history, Brandeis U) and Kelly (Virginia Historical Society) study the reasons behind the migrations of various populations, paying special attention to African Americans, and explore the cultural legacy of the migrations. Annotation copyrighted by Book News, Inc., Portland, OR

Liberty and Freedom David Hackett Fischer, 2005 The bestselling author of Washington's Crossing and Albion's Seed offers a strikingly original history of America's founding principles. Fischer examines liberty and freedom not as philosophical or political abstractions, but as folkways and popular beliefs deeply embedded in American culture. 400+ illustrations, 250 in full color.

The Great Wave David Hackett Fischer, 1999 Fischer has examined price records in many nations, and finds that great waves of rising prices in the 13th-, 16th-, 18th-, and 20th centuries were all marked by price swings of increasing volatility, falling wages, a growing gap between rich and poor, and an increase in violent crime, family disintegration, and cultural despair. 109 graphs & charts. 7 maps.

Fairness and Freedom David Hackett Fischer, 2012-02-10 From one of America's preeminent historians comes a magisterial study of the development of open societies focusing on the United States and New Zealand

Paul Revere's Ride David Hackett Fischer, 1994 Paul Revere's midnight ride looms as an almost mythical event in American history--yet it has been largely ignored by scholars and left to patriotic writers and debunkers. Now one of the foremost American historians offers the first serious look at the events of the night of April 18, 1775--what led up to it, what

really happened, and what followed--uncovering a truth far more remarkable than the myths of tradition. In Paul Revere's Ride, David Hackett Fischer fashions an exciting narrative that offers deep insight into the outbreak of revolution and the emergence of the American republic. Beginning in the years before the eruption of war, Fischer illuminates the figure of Paul Revere, a man far more complex than the simple artisan and messenger of tradition. Revere ranged widely through the complex world of Boston's revolutionary movement--from organizing local mechanics to mingling with the likes of John Hancock and Samuel Adams. When the fateful night arrived, more than sixty men and women joined him on his task of alarm--an operation Revere himself helped to organize and set in motion. Fischer recreates Revere's capture that night, showing how it had an important impact on the events that followed. He had an uncanny gift for being at the center of events, and the author follows him to Lexington Green--setting the stage for a fresh interpretation of the battle that began the war. Drawing on intensive new research, Fischer reveals a clash very different from both patriotic and iconoclastic myths. The local militia were elaborately organized and intelligently led, in a manner that had deep roots in New England. On the morning of April 19, they fought in fixed positions and close formation, twice breaking the British regulars. In the afternoon, the American officers switched tactics, forging a ring of fire around the retreating enemy which they maintained for several hours--an extraordinary feat of combat leadership. In the days that followed, Paul Revere led a new battle-- for public opinion--which proved even more decisive than the fighting itself.] When the alarm-riders of April 18 took to the streets, they did not cry, the British are coming, for most of them still believed they were British. Within a day, many began to think differently. For George Washington, Thomas Jefferson, John Adams, and Thomas Paine, the news of Lexington was their revolutionary Rubicon. Paul Revere's Ride returns Paul Revere to center stage in these critical events, capturing both the drama and the underlying developments in a triumphant return to narrative history at its finest.

Washington's Crossing David Hackett Fischer, 2006-02-01 Six months after the Declaration of Independence, the American Revolution was all but lost. A powerful British force had routed the Americans at New York, occupied three colonies, and advanced within sight of Philadelphia. Yet, as David Hackett Fischer recounts in this riveting history, George Washington--and many other Americans--refused to let the Revolution die. On Christmas night, as a howling nor'easter struck the Delaware Valley, he led his men across the river and attacked the exhausted Hessian garrison at Trenton, killing or capturing nearly a thousand men. A second battle of Trenton followed within days. The Americans held off a counterattack by Lord Cornwallis's best troops, then were almost trapped by the British force. Under cover of night, Washington's men stole behind the enemy and struck them again, defeating a brigade at Princeton. The British were badly shaken. In twelve weeks of winter fighting, their army suffered severe damage, their hold on New Jersey was broken, and their strategy was ruined. Fischer's richly textured narrative reveals the crucial role of contingency in these events. We see how the campaign unfolded in a sequence of difficult choices by many actors, from generals to civilians, on both sides. While British and German forces

remained rigid and hierarchical, Americans evolved an open and flexible system that was fundamental to their success. The startling success of Washington and his compatriots not only saved the faltering American Revolution, but helped to give it new meaning.

American Nations Colin Woodard, 2012-09-25 • A New Republic Best Book of the Year • The Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction Particularly relevant in understanding who voted for who during presidential elections, this is an endlessly fascinating look at American regionalism and the eleven “nations” that continue to shape North America According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In American Nations he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history.

Cracker Culture Grady McWhiney, 1988 A History Book Club Alternate Selection. A controversial and provocative study of the fundamental differences that shaped the South ... fun to read, -- History Book Club Review

Champlain's Dream David Hackett Fischer, 2009-10-06 Traces the story of Quebec's founder while explaining his influential perspectives about peaceful colonialism, in a profile that also evaluates his contributions as a soldier, mariner, and cultural diplomat.

African Founders David Hackett Fischer, 2022-05-31 A ... synthesis of African and African-American history that shows how slavery differed in different regions of the country, and how the Africans and their descendants influenced the culture, commerce, and laws of the early United States--

The Quakers in America Thomas D. Hamm, 2003 The Quakers in America is a multifaceted history of the Religious Society of Friends and a fascinating study of its culture and controversies today. Lively vignettes of Conservative, Evangelical, Friends General Conference, and Friends United meetings illuminate basic Quaker theology and reflect the group's diversity while also highlighting the fundamental unity within the religion. Quaker culture encompasses a rich tradition of practice even as believers continue to debate whether Quakerism is necessarily Christian, where religious authority should reside, how one transmits faith to children, and how gender and sexuality shape religious belief and behavior. Praised for its rich insight and wide-ranging perspective, The Quakers in America is a penetrating account of an influential, vibrant, and often misunderstood religious sect. Known best for their long-standing commitment to social

activism, pacifism, fair treatment for Native Americans, and equality for women, the Quakers have influenced American thought and society far out of proportion to their relatively small numbers. Whether in the foreign policy arena (the American Friends Service Committee), in education (the Friends schools), or in the arts (prominent Quakers profiled in this book include James Turrell, Bonnie Raitt, and James Michener), Quakers have left a lasting imprint on American life. This multifaceted book is a concise history of the Religious Society of Friends; an introduction to its beliefs and practices; and a vivid picture of the culture and controversies of the Friends today. The book opens with lively vignettes of Conservative, Evangelical, Friends General Conference, and Friends United meetings that illuminate basic Quaker concepts and theology and reflect the group's diversity in the wake of the sectarian splintering of the nineteenth century. Yet the book also examines commonalities among American Friends that demonstrate a fundamental unity within the religion: their commitments to worship, the ministry of all believers, decision making based on seeking spiritual consensus rather than voting, a simple lifestyle, and education. Thomas Hamm shows that Quaker culture encompasses a rich tradition of practice even as believers continue to debate a number of central questions: Is Quakerism necessarily Christian? Where should religious authority reside? Is the self sacred? How does one transmit faith to children? How do gender and sexuality shape religious belief and behavior? Hamm's analysis of these debates reveals a vital religion that prizes both unity and diversity.

Nature and History in the Potomac Country James D. Rice, 2009-03-06 A -- B -- C -- D -- E -- F -- G -- H -- I -- J -- K -- L -- M -- N -- O -- P -- R -- S -- T -- V -- W -- Y

The Nine Nations of North America Joel Garreau, 1982 This provocative book regroups the areas of North America into divisions according to economic and social resources and needs.

Powhatan's Mantle Gregory A. Waselkov, Peter H. Wood, M. Thomas Hatley, 2006-12-01 Considered to be one of the all-time classic studies of southeastern Native peoples, Powhatan's Mantle proves more topical, comprehensive, and insightful than ever before in this revised edition for twenty-first century scholars and students.

The Poor of Eighteenth-century France 1750-1789 Olwen H. Hufton, 1974

For Cause and Comrades James M. McPherson, 1997-04-03 General John A. Wickham, commander of the famous 101st Airborne Division in the 1970s and subsequently Army Chief of Staff, once visited Antietam battlefield. Gazing at Bloody Lane where, in 1862, several Union assaults were brutally repulsed before they finally broke through, he marveled, You couldn't get American soldiers today to make an attack like that. Why did those men risk certain death, over and over again, through countless bloody battles and four long, awful years? Why did the conventional wisdom -- that soldiers become increasingly cynical and disillusioned as war progresses -- not hold true in the Civil War? It is to this question--why did they fight--that James McPherson, America's preeminent Civil War historian, now turns his attention. He shows that, contrary to what many scholars believe, the soldiers of the Civil War remained powerfully convinced of the ideals for which they fought throughout

the conflict. Motivated by duty and honor, and often by religious faith, these men wrote frequently of their firm belief in the cause for which they fought: the principles of liberty, freedom, justice, and patriotism. Soldiers on both sides harkened back to the Founding Fathers, and the ideals of the American Revolution. They fought to defend their country, either the Union--the best Government ever made--or the Confederate states, where their very homes and families were under siege. And they fought to defend their honor and manhood. I should not like to go home with the name of a coward, one Massachusetts private wrote, and another private from Ohio said, My wife would sooner hear of my death than my disgrace. Even after three years of bloody battles, more than half of the Union soldiers reenlisted voluntarily. While duty calls me here and my country demands my services I should be willing to make the sacrifice, one man wrote to his protesting parents. And another soldier said simply, I still love my country. McPherson draws on more than 25,000 letters and nearly 250 private diaries from men on both sides. Civil War soldiers were among the most literate soldiers in history, and most of them wrote home frequently, as it was the only way for them to keep in touch with homes that many of them had left for the first time in their lives. Significantly, their letters were also uncensored by military authorities, and are uniquely frank in their criticism and detailed in their reports of marches and battles, relations between officers and men, political debates, and morale. For Cause and Comrades lets these soldiers tell their own stories in their own words to create an account that is both deeply moving and far truer than most books on war. *Battle Cry of Freedom*, McPherson's Pulitzer Prize-winning account of the Civil War, was a national bestseller that Hugh Brogan, in *The New York Times*, called history writing of the highest order. For Cause and Comrades deserves similar accolades, as McPherson's masterful prose and the soldiers' own words combine to create both an important book on an often-overlooked aspect of our bloody Civil War, and a powerfully moving account of the men who fought it.

The Long Process of Development Jerry F. Hough, Robin Grier, 2015-04-30 This groundbreaking book examines the history of Spain, England, the United States, and Mexico to explain why development takes centuries.

Albion's Seed David Hackett Fischer, 1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Historian's Fallacie David H. Fischer, 1970-12-30 If one laughs when David Hackett Fischer sits down to play, one will stay to cheer. His book must be read three times: the first in anger, the second in laughter, the third in respect....The wisdom is expressed with a certain ruthlessness. Scarcely a major historian escapes unscathed. Ten thousand members of the American Historical Association will rush to the index and breathe a little easier to find their names absent.
