The Book Trade in the Italian Renaissance Angela Nuovo, 2013-06-17 This work offers the first English-language survey of the book industry in Renaissance Italy. Whereas traditional accounts of the book in the Renaissance celebrate authors and literary achievement, this study examines the nuts and bolts of a rapidly expanding trade that built on existing economic practices while developing new mechanisms in response to political and religious realities. Approaching the book trade from the perspective of its publishers and booksellers, this archive-based account ranges across family ambitions and warehouse fires to publishers' petitions and convivial bookshop conversation. In the process it constructs a nuanced picture of trading networks, production, and the distribution and sale of printed books, a profitable but capricious commodity. Originally published in Italian as *Il commercio librario nell'Italia del Rinascimento* (Milan: Franco Angeli, 1998; second, revised ed., 2003), this present English translation has not only been updated but has also been deeply revised and augmented.

Rudolf Steiner Speaks to the British Rudolf Steiner, 2013-11-06 As demonstrated by the contents of this book, Rudolf Steiner was able to speak to the British in a very direct and lively way. He did not need to give a long introductory build-up to his main theme, as was expected of him in Germany for instance, but could refer immediately to esoteric ideas. The intention of this volume is to give a fuller picture of Rudolf Steiner's work in Britain, and his approach to esoteric ideas while on British soil. Although the major lecture series he gave in Britain have been previously published, this book gathers together various lectures, addresses, question-and-answer sessions, minutes of important meetings and articles - a good deal of which has been unavailable in English until now. It also features a complete list of all the lectures and addresses Steiner gave in Britain, making it a valuable reference book for students of Rudolf Steiner's work.

The Ocean and the Boy Giuseppe Conte, 1997 Born in Imperia in 1945, Giuseppe Conte is one of the most important and powerful voices in Italian literature today. A talented and versatile writer, he has published numerous books of poetry,

novels, criticism, essays, and plays. He has received major literary prizes (including the Premio Montale) and has translated into Italian the works of Shelley, D.H. Lawrence and Walt Whitman. He has traveled extensively, has visited the United States to present his poetry, and now lives in Imperia, Italy, and in Nice, France. *The Ocean and the Boy*, Conte's first full-length book of poetry, is written in an intensely personal style, fusing myth and everyday reality. In this dual-language edition, the first English translation of a complete poetry book by Conte, the editor-translator, Italian-born poet Laura Stortoni, has included a translator's note, biographical and bibliographical data, endnotes and an introduction by Italo Calvino.

The House of Life Mario Praz, 2009-10-15 In simplest terms, it is a house tour, but Mario Praz's Roman apartment was no ordinary house it was a wunderkammer, a house of wonders, rooms replete with objects d'art and sculpture, walls hung with paintings and prints, bureaus overflowing with postcards and ephemera. And Praz is no ordinary guide; he leads you, the reader, through each room discussing the objects therein. What emerge are his passions, his immense erudition, his insatiable curiosity, his undeniable amiability, his infectious enthusiasm. What emerges is a multi-layered disquisition on the nature of art, on the challenge of investigation and discovery, on the way in which art and the objects we choose to surround us tell stories.

Lectures on Art Delivered Before the University of Oxford in Hilary Term, 1870 John Ruskin, 1870

The Butlers of Iberville Parish, Louisiana David D. Plater, 2015-11-18 In 1833, Edward G. W. and Frances Parke Butler moved to their newly constructed plantation house, Dunboyne, on the banks of the Mississippi River near the village of Bayou Goula. Their experiences at Dunboyne over the next forty years demonstrated the transformations that many land-owning southerners faced in the nineteenth century, from the evolution of agricultural practices and commerce, to the destruction wrought by the Civil War and the transition from slave to free labor, and finally to the social, political, and economic upheavals of Reconstruction. In this comprehensive biography of the Butlers, David D. Plater explores the remarkable lives of a Louisiana family during one of the most tumultuous periods in American history. Born in Tennessee to a celebrated veteran of the American Revolution, Edward Butler pursued a military career under the mentorship of his guardian, Andrew Jackson, and, during a posting in Washington, D.C., met and married a grand-niece of George Washington, Frances Parke Lewis. In 1831, he resigned his commission and relocated Frances and their young son to Iberville Parish, where the couple began a sugar cane plantation. As their land holdings grew, they amassed more enslaved laborers and improved their social prominence in Louisiana's antebellum society. A staunch opponent of abolition, Butler voted in favor of Louisiana's withdrawal from the Union at the state's Secession Convention. But his actions proved costly when the war cut off agricultural markets and all but destroyed the state's plantation economy, leaving the Butlers in financial ruin. In 1870, with their plantation and finances in disarray, the Butlers sold Dunboyne and resettled in Pass Christian, Mississippi, where they resided in a rental cottage with the financial support of Edward J. Gay, a wealthy Iberville planter and their daughter-in-law's

father. After Frances died in 1875, Edward Butler moved in with his son's family in St. Louis, where he remained until his death in 1888. Based on voluminous primary source material, *The Butlers of Iberville Parish, Louisiana* offers an intimate picture of a wealthy nineteenth-century family and the turmoil they faced as a system based on the enslavement of others unraveled.

Renaissance Characters Eugenio Garin, 1997-05-09 Compared to the Middle Ages, the Renaissance is brief—little more than two centuries, extending roughly from the mid-fourteenth century to the end of the sixteenth century—and largely confined to a few Italian city states. Nevertheless, the epoch marked a great cultural shift in sensibilities, the dawn of a new age in which classical Greek and Roman values were reborn and human values in all fields, from the arts to civic life, were reaffirmed. With this volume, Eugenio Garin, a leading Renaissance scholar, has gathered the work of an international team of scholars into an accessible account of the people who animated this decisive moment in the genesis of the modern mind. We are offered a broad spectrum of figures, major and minor, as they lived their lives: the prince and the military commander, the cardinal and the courtier, the artist and the philosopher, the merchant and the banker, the voyager, and women of all classes. With its concentration on the concrete, the specific, even the anecdotal, the volume offers a wealth of new perspectives and ideas for study.

Leonardo, Architect Carlo Pedretti, 1985 The monumental Mole Vanvitelliana in the harbor of the Adriatic City of Ancona is the spectacular setting for a most original Leonardo exhibition. For the first time Leonardo's presence at Urbino and Pesaro as an architect and general engineer in the service of Cesare Borgia in 1502 is presented in a historical and cultural context that includes every aspect of Leonardos art, science and technology, and also his philosophical outlook. The rarely seen materials, presented here in a fully illustrated catalogue, are also discussed in detail by seven scholars of international repute coordinated by the editor.

Alexander Girard Mateo Kries, Jochen Eisenbrand, 2016 When spontaneous student protests erupted in Hong Kong on 28 September 2014 as a reaction to proposed changes in the electoral process, the global media was rife with images not only of the protesters themselves, but also the myriad informal structures and designs they had created. Barricades, shelter and sculptures were constructed from everyday objects, the umbrellas that coined the movement's name were used for protection from police enforcement. The exhibition presents this act of civil disobedience through the objects that were spawned by the movement, illustrating that design not only shapes and defines products, but can function as an agent of change in politics, communication and social innovation. 00Exhibition: Vitra Design Museum, Weil, Germany (12.03.2016-29.01.2017)
