In *Blood and Capital: The Paramilitarization of Colombia*, Jasmin Hristov examines the complexities, dynamics, and contradictions of present-day armed conflict in Colombia. She conducts an in-depth inquiry into the restructuring of the state's coercive apparatus and the phenomenon of paramilitarism by looking at its military, political, and legal dimensions. Hristov demonstrates how various interrelated forms of violence by state forces, paramilitary groups, and organized crime are instrumental to the process of capital accumulation by the local elite as well as the exercise of political power by foreign enterprises. She addresses, as well, issues of forced displacement, proletarianization of peasants, concentration of landownership, growth in urban and rural poverty, and human rights violations in relation to the use of legal means and extralegal armed force by local dominant groups and foreign companies. Hristov documents the penetration of major state institutions by right-wing armed groups and the persistence of human rights violations against social movements and sectors of the low-income population. *Blood and Capital* raises crucial questions about the promised dismantling of paramilitarism in Colombia and the validity of the so-called demobilization of paramilitary groups, both of which have been widely considered by North American and some European governments as proof of Colombian president Álvaro Uribe's advances in the wars on terror and drugs.

In this groundbreaking book, Ken Wilber uses his widely acknowledged "spectrum of consciousness" model to completely rewrite our approach to such important fields as psychology, spirituality, anthropology, cultural studies, art and literary theory, ecology, feminism, and planetary transformation. What would each of those fields look like if we wholeheartedly accepted the existence of not just body and mind but also soul and spirit? In a stunning display of integrative embrace, Wilber weaves these various fragments together into a coherent and compelling vision for the modern and postmodern world. Discovered by Martha Divine in the backstreets of San Juan, picking over garbage, drugged out of his mind and singing boleros that transfix the listener, a fifteen year old hustler is transformed into Sirena Selena, a diva whose uncanny beauty and irrisistable voice will be their ticket to fame and fortune. Auditioning for one of the luxury hotels in the Dominican Republic, Selena casts her spell over Hugo Graubel, one of the hotel's rich investors. Graubel is a powerful man in the Republic, married with children. Silena, determined to escape the poverty and abuse s/he suffered as a child, engages Graubel in a long seduction in this mordant, intensely lyrical tragi-comedy - part masque, part cabaret - about identity (class, race, gender) and "the hunger and desire to be other things."

The explosive memoir of the two legendary drug enforcement agents responsible for taking down Pablo Escobar and the subject of the hit Netflix series 'Narcos'. Javier Peña and Steve Murphy risked their lives hunting large and small drug traffickers in the decades they spent working for the US Drug Enforcement Administration. But their biggest challenge was the hunt for Pablo Escobar in Colombia. The partners, who began their careers as small-town cops, have been immortalised in Netflix's 'Narcos', a fictionalised account of their hunt for Escobar. Now, for the first time, they tell the real story of how they brought down the world's first narco-terrorist and ended the reign of terror of the world's most wanted criminal. *Manhunters* takes you deep inside the inner workings of the Search Bloc, the joint Colombian-US task force that resulted in an intensive 18-month operation that tracked Escobar. Between July 1992 and December 1993, Peña and Murphy lived on the edge, setting up camp in Medellín at the Carlos Holguin Military Academy. There, they lived and worked with the Colombian authorities, hunting down a man thought to be untouchable. Their terrifying first-hand experience coupled with stories from the DEA's de-classified files on the search for Escobar forms the beating heart of *Manhunters*, a gripping account of how two determined and courageous agents risked everything to capture the world's most wanted man. Praise for *Manhunters* 'A riveting account of two brave DEA Agents who put their lives, along with their families' lives, on the line to fight the war on drugs. A must read on the take down of Pablo Escobar.' Joe Pistone, a.k.a. Donnie Brasco 'A fast-paced tale by two agents who had the inside track on bringing down the most wanted man in recent US history.' Bruce Porter, New York Times bestselling author of *Blow* 'Steve and Javier's experience on the front lines of the war on drugs over the last thirty years made them an invaluable source of information for a narrative of one of the most complex, poorly reported, and misunderstood chapters in our recent past.' Eric Newman, Executive Producer, 'Narcos' 'Manhunters grabs you from the first page and gives you a front-row seat into the harrowing hunt for the brutal narco trafficker Pablo Escobar. Two unlikely heroes recount their stories in a way that is both compelling and captivating.' Congresswoman Mary Bono 'A compelling read about the adventures of two true American law enforcement heroes who ultimately took on the world's first narco-terrorist, the world's most wanted criminal, the world's largest cocaine baron, Pablo Escobar, and won!' Barbara Comstock, former congresswoman

Closely knit Colombian siblings' internal rifts threaten to tear apart the hard-won legacy their father fought to establish against guerilla and paramilitary violence. "Hello beautiful. I am Popeye." In 1998 I met Jhon Jairo Velásquez Vásquez—alias "Popeye"—lieutenant to the Medellín Cartel's leader, Pablo Escobar Gaviria. Our first encounter was at the

high security yard of the Modelo Prison in Bogotá, Colombia. I visited the prison frequently as a journalist for RCN TV. I was always conducting interviews and speaking to the inmates, uncovering news about what was really happening inside the prison. At that time, stories about confrontations between guerrilla and paramilitary factions were everyday news. You could often hear shots inside the prison as the different sides fought for control. I had always wanted to meet one of the members of the Medellín Cartel. I was curious to know who they were, what they looked like, and what these men, who belonged to the most powerful drug cartel that has ever existed in Colombia, were thinking. At the high security yard I was able to talk with two of them. The most notorious was Jhon Jairo Velásquez Vásquez. "Hello beautiful. I am Popeye." The man who sat in front of me stared at me. His pale skin reflected the six years he had been in prison; in fact, it looked as if he had never once stepped outside. Popeye smiled at me with curiosity while his cold eyes examined me from head to toe. We were introduced by another inmate, Ángel Gaitán Mahecha, a man accused of paramilitarism and homicide. My first impression was surprise and curiosity; I also examined him from head to toe. He wasn't quite six feet tall. His slim body and the smile on his face almost put me at ease. I thought this man couldn't possibly frighten anyone, and yet I couldn't forget the number of homicides in which he had been involved. I wanted to see into the mind of the man who planned and participated in the most horrible homicides that the cartel had carried out in their war against the state.

Colombian drug lord Pablo Escobar's ambition and ruthlessness made him one of the wealthiest, most powerful and most violent criminals of all time. Pablo Escobar, born on December 1, 1949, in Antioquia, Colombia, entered the cocaine trade in the early 1970s. He collaborated with other criminals to form the Medellín Cartel. He was killed in 1993. Referred to by his brother, Roberto, as a modern day Robin Hood, Escobar often paid for low-cost housing and other community necessities for the poor people of his neighbourhood. It was apparently a meticulously built image that Escobar promoted in his own newspaper and which ensured his protection by many Medellín citizens. Escobar built his drug trafficking industry to such an extent that he eventually controlled over 80% of the cocaine sent to America. With his own factories and an entire fleet of aeroplanes and ships, including two radio-controlled submarines, it has been estimated that Escobar smuggled 70 to 80 tonnes of cocaine from Colombia to America per month, and as much as 11 tonnes in each flight. In order to launder the drug money, the Medellín Cartel controlled a large amount of crooked white-collar workers, such as bankers, lawyers and extended family. In 1989 Escobar was listed as the seventh Richest Man in the World by Forbes magazine, with a fortune rumoured to be around \$24 billion. He certainly loved to display his wealth and lived an extravagant lifestyle. He invested much of his money in real estate, splashing out on luxurious homes, many with private helicopter ports. He owned numerous cars, helicopters and aeroplanes, a private zoo for which he imported exotic wild animals, and a massive garden filled with hundreds of fruit trees. He also owned apartments, banks and large tracts of land. For his own protection, Escobar bought the support of other criminals, who also acted as his guerrilla army, carrying out any violence he demanded. The international bestseller that inspired the must-watch drama on USA Network starring Alice Braga as Teresa Mendoza. From "master of the intellectual thriller" Arturo Pérez-Reverte, a remarkable tale, spanning decades and continents—from the dusty streets of Mexico to the sparkling waters off the coast of Morocco, to the Strait of Gibraltar and Spain—in a story encompassing sensuality and cruelty, love and betrayal, and life and death. Teresa Mendoza's boyfriend is a drug smuggler who the narcos of Sinaloa, Mexico, call "the king of the short runway," because he can get a plane full of coke off the ground in three hundred yards. But in a ruthless business, life can be short, and Teresa even has a special cell phone that Guero gave her along with a dark warning. If that phone rings, it means he's dead, and she'd better run, because they're coming for her next. Then the call comes. In order to survive, she will have to say goodbye to the old Teresa, an innocent girl who once entrusted her life to a pinche narco smuggler. She will have to find inside herself a woman who is tough enough to inhabit a world as ugly and dangerous as that of the narcos—a woman she never before knew existed. Indeed, the woman who emerges will surprise even those who know her legend, that of the Queen of the South. Pablo Escobar was one of the most terrifying criminal minds of the last century. In the decade before his death in 1993, he reigned as the head of a multinational cocaine industry and brought the Colombian state to its knees, killing thousands of politicians, media personalities, police, and unarmed citizens. In the 1980s, Virginia Vallejo was Colombia's most famous television celebrity: a top-rated anchorwoman and a twice-divorced socialite who had been courted by the country's four wealthiest men. In 1982, she interviewed Pablo Escobar on her news program, and soon after, they began a discreet--albeit stormy--romantic relationship. During their five-year affair, Escobar would show Vallejo the vulnerability of presidents, senators, and military leaders seeking to profit from the drug trade. From Vallejo's privileged perspective and her ability to navigate the global corridors of wealth and high society, Escobar gained the insight to master his manipulation of Colombia's powerful elite and media. Loving Pablo, Hating Escobar chronicles the birth of Colombia's drug cartels: the kidnapers, the guerilla groups, and the paramilitary organizations. It is, above everything, a great love story--a deep and painful journey through a forbidden relationship--that gives us an intimate vision of the legendary drug baron who left his mark on Colombia, Latin America, the United States, and the world forever.

"THE INTERNATIONAL BEST SELLER! When Pablo Escobar died in 1993, his seventeen-year-old son initially vowed revenge. But Juan Pablo quickly recognized that reaction entailed following in his father's footsteps--something neither he nor his father ever wanted. Their lives in immense danger, Juan Pablo, his mother, and his sister assumed new identities and fled to Argentina, where he would spend the next two decades grappling with his father's legacy. Now an architect and advocate of drug policy reform, Juan Pablo breaks his silence to tell his side of the story, shedding new light on the infamous kingpin--the man who was also his loving father"--

The mind-blowing true story of Pablo Escobar and the Medellín Cartel beyond their portrayal on Netflix. Colombian drug lord Pablo Escobar was a devoted family man and a psychopathic killer; a terrible enemy, yet a wonderful friend. While donating millions to the poor, he bombed and tortured his enemies - some had their eyeballs removed with hot spoons. Through ruthless cunning and America's insatiable appetite for cocaine, he became a multi-billionaire, who lived in a \$100-million house with its own zoo. Pablo Escobar: Beyond Narcos demolishes the standard good versus evil telling of his story. The authorities were not hunting Pablo down to stop his cocaine business. They were taking over it. Shaun Attwood's War on Drugs trilogy - Pablo Escobar, American Made, and We Are Being Lied To - is a series of harrowing, action-packed and interlinked true stories that demonstrate the catastrophic consequences of drug prohibition." Christ versus Arizona turns on the events in 1881 that surrounded the shootout at the OK Corral, where Wyatt Earp, Doc Holliday, and Virgil and Morgan Earp fought the Clantons and the

McLaurys. Set against a backdrop of an Arizona influenced by the Mexican Revolution and the westward expansion of the United States, the story is a bravura performance by the 1989 Nobel Prize-winning author. A monologue by the nave, unreliable, and uneducated Wendell L. Espana, the book weaves together hundreds of characters and a torrent of interconnected anecdotes, some true, some fabricated. Wendell's story is a document of the vast array of ills that welcomed the dawning of the twentieth century, ills that continue to shape our world in the new millennium. "Cela prefers the weird, the apparently meaningless and the amorphous. The world of his novels has been likened to that of Hieronymus Bosch and Brueghel; he sees man as a prisoner in a forbidding universe where chaos and imperfection always defeat the idealist." Paul West "Cela is a restless spirit. In him is united a marked fondness for experiment with a provocative attitude. At the same time he can be included in an old Spanish tradition of hilarious grotesqueness which is often the other side of despair. Compassion for man's hopeless suffering is there, but tightly controlled." 1989 Nobel prize for Literature Press Release "One of the most gifted and powerful writers in contemporary Europe." #1 NATIONAL BESTSELLER Far more than a superb memoir about the highest levels of professional tennis, Open is the engrossing story of a remarkable life. Andre Agassi had his life mapped out for him before he left the crib. Groomed to be a tennis champion by his moody and demanding father, by the age of twenty-two Agassi had won the first of his eight grand slams and achieved wealth, celebrity, and the game's highest honors. But as he reveals in this searching autobiography, off the court he was often unhappy and confused, unfulfilled by his great achievements in a sport he had come to resent. Agassi writes candidly about his early success and his uncomfortable relationship with fame, his marriage to Brooke Shields, his growing interest in philanthropy, and—described in haunting, point-by-point detail—the highs and lows of his celebrated career.

One of the oldest and most powerful stories of all time—God and Satan, Adam and Eve—retold in stunning graphic novel form by the dark and beautiful imagery of Pablo Auladell. Milton's epic poem charts humanity's fall from grace and the origin of the struggle between God and Satan, good and evil, life and death. In the aftermath of the Angels' devastating defeat in the war for Heaven, Satan determines to seek his revenge. Meanwhile, Adam and Eve have newly awakened in the Garden of Eden . . . First published nearly three hundred and fifty years ago, Paradise Lost has now been reimagined by the Spanish artist Pablo Auladell. His astonishing artwork portrays the complexity and tragedy of one of the great stories of all time. His bleak and surprising imagery captures the lyricism of Milton's original for a new audience—and is a masterful tribute to a literary classic.

A literary murder mystery set in Havana, One Hundred Bottles is also a survivor's story of very rough love, intense friendship, and creating family in the chaos that Cuba experienced during the 1990s.

Between the fifth and twelfth centuries, when vast stretches of Europe were still uninhabited, a society grew up which had to learn the very rudiments of how to manipulate the ordering of public life. It was during and just after this period that many of the basic political concepts of today were formed. In this new study the author employs the latest medieval research -- much of it his own -- to trace the origins and development of political ideas in Western Europe -- ideas as familiar as sovereignty, parliament, citizenship, the rule of law and the state. He shows this development being forged out of the conflict between the descending and ascending theses of government, with their Roman and Germanic sources, and explains the dominance of ecclesiastical powers in medieval society.

The sequel to the New York Times bestseller and international multimedia phenomenon, Endgame: The Calling.

James Laughlin has been called the American Catullus. Like that most Greek of ancient Latin poets, he elevates his everyday subjects with wit and clarity of language. Love and hate, death and aging, politics, literature, travel, the horrors of war - Laughlin's muse speaks of all these things with a fresh directness that makes his poems both timeless and contemporary. The founder of New Directions, Laughlin's efforts as publisher and poet have been to prolong and extend the old poetic traditions. Poetry for him is, in Gertrude Stein's phrase, a "continuous present" in all times and cultures. Laughlin developed his distinctive tight metrics with the advice of William Carlos Williams. A longer, comical line is found in the recent poems of Laughlin's doppelganger, Hiram Handspring. The Man in the Wall follows Laughlin's recent Collected Poems (Moyer Bell Limited).

"I have many scars. Some of them are physical, but many more are scars on my soul. A bomb sent to kill me while I was in a maximum security prison has made me blind, yet now I see the world more clearly than I have ever seen it before. I have lived an incredible adventure. I watched as my brother, Pablo Escobar, became the most successful criminal in history, but also a hero to many of the people of

Colombia. My brother was loved and he was feared. Hundreds of thousands of people marched in his funeral procession, and certainly as many people celebrated his death." These are the words of Roberto Escobar—the top accountant for the notorious and deadly Medellín Cartel, and brother of Pablo Escobar, the most famous drug lord in history. At the height of his reign, Pablo's multibillion-dollar operation smuggled tons of cocaine each week into countries all over the world. Roberto and his ten accountants kept track of all the money. Only Pablo and Roberto knew where it was stashed—and what it bought. And the amounts of money were simply staggering. According to Roberto, it cost \$2,500 every month just to purchase the rubber bands needed to wrap the stacks of cash. The biggest problem was finding a place to store it: from secret compartments in walls and beneath swimming pools to banks and warehouses everywhere. There was so much money that Roberto would sometimes write off ten percent as "spoilage," meaning either rats had chewed up the bills or dampness had ruined the cash. Roberto writes about the incredible violence of the cartel, but he also writes of the humanitarian side of his brother. Pablo built entire towns, gave away thousands of houses, paid people's medical expenses, and built schools and hospitals. Yet he was responsible for the horrible deaths of thousands of people. In short, this is the story of a world of riches almost beyond mortal imagination, and in his own words, Roberto Escobar tells all: building a magnificent zoo at Pablo's opulent home, the brothers' many escapes into the jungles of Colombia, devising ingenious methods to smuggle tons of cocaine into the United States, bribing officials with literally millions of dollars—and building a personal army to protect the Escobar family against an array of enemies sworn to kill them. Few men in history have been more beloved—or despised—than Pablo Escobar. Now, for the first time, his story is told by the man who knew him best: his brother, Roberto.

This work is a history of the Pacific, the ocean that became a theatre of power and conflict shaped by the politics of Europe and the economic background of Spanish America. There could only be a concept of the Pacific once the limits and lineaments of the ocean were set and this was undeniably the work of Europeans. Fifty years after the Conquista, Nueva España and Peru were the bases from which the ocean was turned into virtually a Spanish lake.

Stefan Zweig (1881–1942) was a poet, novelist, and dramatist, but it was his biographies that expressed his full genius, recreating for his international audience the Elizabethan age, the French Revolution, the great days of voyages and discoveries. In this autobiography he holds the mirror up to his own age, telling the story of a generation that "was loaded down with a burden of fate as was hardly any other in the course of history." Zweig attracted to himself the best minds and loftiest souls of his era: Freud, Yeats, Borgese, Pirandello, Gorky, Ravel, Joyce, Toscanini, Jane Addams, Anatole France, and Romain Rolland are but a few of the friends he writes about.

Pablo Escobar was a mama's boy who cherished his family and sang in the shower, yet he bombed a passenger plane and formed a death squad that used genital electrocution. Most Escobar biographies only provide a few pieces of the puzzle, but this action-packed 1000-page book reveals everything about the king of cocaine. Mostly translated from Spanish, Part 1 contains stories untold in the English-speaking world, including: The tragic death of his youngest brother Fernando. The fate of his pregnant mistress. The shocking details of his affair with a TV celebrity. The presidential candidate who encouraged him to eliminate their rivals.

I've begged God for forgiveness, but I won't know till the day I die if He has truly forgiven me ... I've paid my dues to society by serving my long sentence, but perhaps I haven't earned His indulgence ... Oh my God, I've lived so many different lives! I survived Pablo Escobar Gaviria, El Patrón (The Boss), and it was the strength of his indomitable spirit that kept me going all these years; I don't quite know how or why. I still feel his presence every day of my existence. The Medellín cartel's crimes weigh as heavily on my shoulders today as they did yesterday. My youth, wasted in crime, became the sword that now hangs over my graying head. To the world, I'll always be known by my alias, Popeye, the fearsome hitman of the Medellín cartel, Pablo Escobar Gaviria's right-hand man ... How can I make you understand I'm a new man ... that twenty-three years behind bars in that hellhole have transformed the person I once was. Now the freedom I yearned for is vanishing in the murderous hands of my enemies. Perhaps fate has extended my life only to toy with me by preparing my own dying moments. I survived in captivity but I don't know if I'll be able to live in freedom ... A prisoner of my own mind, I'll try to fight to find some peace ... It's very cold ... now it's August 2014. I'm one step from freedom and I'm still breathing ... still here in this dimly lit cell in the maximum security prison in Cúmbita, Boyacá.

"An atmospheric and complicated saga of crimes that criss-cross the narrow strait between Sweden and Denmark...great cop characters...and some imaginatively grisly perps."— Sunday Times Would you kill for the one you love? That's the question that international bestseller Stefan Ahnhem's *The Ninth Grave: A Fabian Risk Novel* seeks to answer in this spine-tingling thriller set six months before the events in *Victim Without a Face*. On a cold winter evening, the Swedish minister of justice disappears without a trace from the short walk between the house of Parliament and his car. At the same time the wife of a famous Danish TV-star is found brutally murdered in her luxury home north of Copenhagen. Soon more bodies are discovered, all missing different body parts. As criminal investigator Fabian Risk and Danish counterpart Dunja Hougaard race to put the pieces together, they are dragged into a conspiracy worse than anyone could imagine.

Based on the spontaneous and hair-raising, Johnny's verbal testimony, a former guerilla who belonged and spent almost 13 years inside many of the Farc fronts, *In Hell*, summarizes and records for historic memory, experiences of a Colombian peasant guy, who was 12-year-old, when he left his mother's home, for being engaged to the oldest Latinamerican irregular armed and subversive organization.

Johnny's narration articulates the dramatic and exciting storm of facts, hidden or masked, about the daily events happened inside harsh Leninist systems, as the cultivated since Farc's birth, by its instigator and founder, former oil ist and Colombian Communist Central Committee Party's member, Luis Alberto Morantes, a. Jacobo Arenas. This is a short excerpt of *In Hell*: And Leoni assured: —I closed my eyes to avoiding see her face, while I took this woman from her hair— —One....Two....Three!— We followed Alonso orders. Astonished I heard the guttural sound of the death, expelled by her wounded throat. By instinct I lifted the extreme of the rope. The heavy lifeless body fell down over a piece of a tree, as sooner as Leoni lifted her hair, and nauseated vomited all that his stomach had inside. With the diabolic sight aimed over the naked corpse, and without astonishing, Alonso added: —I took you here so you could get used to it.... If you were here with your mother and she screwed up, you would kill her too— We were trembled

because it was the first time that we killed somebody— And now we had to kill Walter the retarded kid, who tied-up had been looking on with horror. He was sweating profusely, and even though he was tied up and had a noose around his neck, he struggled for survival and wrestled with great strength. During the court-martial I knew that Walter was born in la Vereda Patios of Baraya Huila, so I was concerned because he could be some of my father's relatives. Alonso inquired: —What 's up my friends? ...Are not you strong enough?... Pull harder!... Pull harder!...Tighten the rope!!!!— We tightened with so much strength. Walter died. Alonso took the knife and cut off his right arm, while his corpse was hanging from the ropes still. The body was warm, so blood drained out of it. —Drink blood of the dead, so you learn to kill traitors, as I did when I was handsome and young—Alonso exclaimed while his eyes were filled with a diabolic look.

Los ensayos del libro analizan el éxito de la serie Narcos desde una perspectiva crítica. Explican la popularización de la misma, su estrategia de publicidad retorcida o su poco éxito en Colombia. Y también su juego entre el realismo mágico y los «retazos» de la realidad colombiana. El libro se cierra con una entrevista realizada a Sebastián Marroquín (Juan Pablo Escobar Henao) en la que el hijo de Pablo Escobar comparte su visión sobre Narcos como serie de ficción, sobre el problema de las drogas en Colombia y sobre su lucha constante en contra de la heroización de su padre. Es el cierre perfecto para un libro crítico sobre el fenómeno de la narcoficción en el siglo XXI.
