Are ETs healing humans?The answer, of course, is yes! In this landmark book, The Healing Power of UFOs, leading UFO researcher, Preston Dennett, presents a fascinating compilation of more than 300 cases of people who have been healed by extraterrestrials. Supported by firsthand eyewitness testimonies, stretching back more than 100 years to the present day, coming from across the United States and the world, this book proves that healing humans is one of the primary alien agendas on our planet. Verified by doctors and leading UFO researchers, the UFO healing cases represent incontrovertible evidence of UFO reality. Preston Dennett began his research into UFO healings in the early 1990s. His first book, UFO Healings (1996, Wild Flower Press) was the first book published on the subject, and presented more than 100 cases. This new volume presents the original cases (with new information) plus 200 more, many of which have never been published before. Preston Dennett has been documenting and researching healing cases for more than 25 years and is the world's leading

expert on UFO healing accounts. This landmark book is the culmination of his research and settles the question once and for all that medical healings as the result of a UFO encounter do actually happen. Inside you will find: -More than 70 healings of injuries.-More than 50 healings of colds, minor illnesses and ailments.-More than 120 healings of serious illnesses and chronic diseases.-More than 40 healings of cancer.-Cases involving "health upgrades."-Cases involving healings of animals and even plants.-A study of the connection between UFO abductions and psychic healing.-Accounts in which people have been "rescued" by ETs.-A study of miraculous cures from angels, NDEs, OBEs, lightning strikes, past life therapy, Native American ceremonial healings and more.-Evidence that our governments have obtained UFO healing technology and are using it for themselves. Who is being healed and why? What types of ETs are doing the healing? How are these healings being done? Are ETs our friends or foes? This massive 500-page book dives into the heart of the phenomenon and answers all these questions and more. Ignored for far too long, the UFO healing cases show a positive aspect to a phenomenon that has been saturated with disinformation for decades. The truth can no longer be denied.

What if UFO secrecy ended tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate “what if?” scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world’s most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn’t afraid to make mind-blowing, specific predictions, such as: Congress will hold Watergate-style hearings and ask secret-keepers, “What did you know and when did you know it?” The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. Originally published in 1979 - The Uninvited is the true story of an ordinary family living in South Wales who found themselves entangled in a series of unearthly encounters in 1977. At first the manifestations were minor. UFOs were sighted in the area, huge burnt patches were found in the fields, television sets and cars blew all of their wiring...but before long the Coombs family was visited by weird lights, huge white figures and a glowing disembodied hand. Their lives were disrupted and they were terrified by something unidentifiable and unimaginable.

They were a focus for The Uninvited. The story you are about to read is true, though you will doubt it. With good reason. This is the story of an ordinary family caught up in the extraordinary, for whom the impossible became possible, the unbelievable became believable, and science fiction became science fact. You will find no explanations for the events reconstructed here, for there are none. What took place was as beyond explanation as it may seem unbelievable. It still is...THE UNINVITED is the story of an ordinary family living in South Wales who found themselves entangled in a series of unearthly encounters in 1977. Dubbed "The British Roswell" and "The Welsh Triangle" by many publications, the story of the events surrounding the Coombs family and Ripperston Farmhouse live on to this very day.

secret for decades. Their conclusion is inescapable and shocking: this is a secret that the insiders themselves struggle to understand and contain. "Government agencies, at various times, perceive a need to release some UFO information to the public. Some, definitely not all. How do they do it? Always via avenues that leave no one at risk. That means ensuring there is no direct connection between the agency and whomever is doing the actual releasing. It also means the necessity of mixing in some false information. It means, ultimately, to tell the truth, but tell it with a slant. Until there is a full disclosure of the UFO/ET reality, deniability will remain paramount to those in possession of this great secret." - By the authors, from the book's Introduction.

From a noted Cambridge zoologist, a wildly fun and scientifically sound exploration of what alien life must be like, using universal laws that govern life on Earth and in space. Scientists are confident that life exists elsewhere in the universe. Yet rather than taking a realistic approach to what aliens might be like, we imagine that life on other planets is the stuff of science fiction. The time has come to abandon our fantasies of space invaders and movie monsters and place our expectations on solid scientific footing. But short of aliens landing in

New York City, how do we know what they are like? Using his own expert understanding of life on Earth and Darwin's theory of evolution--which applies throughout the universe--Cambridge zoologist Dr. Arik Kershenbaum explains what alien life must be like: how these creatures will move, socialize, and communicate. For example, by observing fish whose electrical pulses indicate social status, we can see that other planets might allow for communication by electricity. As there was evolutionary pressure to wriggle along a sea floor, Earthling animals tend to have left/right symmetry; on planets where creatures evolved in midair or in soupy tar, they might be lacking any symmetry at all. Might there be an alien planet with supersonic animals? A moon where creatures have a language composed of smells? Will aliens scream with fear, act honestly, or have technology? The Zoologist's Guide to the Galaxy answers these questions using the latest science to tell the story of how life really works, on Earth and in space.

Could "UFOs" and "Aliens" simply be us, but from the future? This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants, using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past. Dr. Michael P. Masters, a professor of biological anthropology specializing in human evolutionary anatomy, archaeology, and biomedicine, explores how the persistence of long-term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc-shaped craft, which are likely the very devices that allow our future progeny to venture backward across the landscape of time. Moreover, these extraterrestrials are ubiquitously described as bipedal, large-brained, hairless, human-like beings, who communicate with us in our own languages, and who possess technology

answering that question. In *The Aliens are Coming!*, comedian and bestselling science writer Ben Miller takes us on a fantastic voyage of discovery, from the beginnings of life on earth to the very latest search for alien intelligence. What soon becomes clear is that the hunt for extra-terrestrials is also an exploration of what we actually mean by life. What do you need to kickstart life? How did the teeming energy of the Big Bang end up as frogs, trees and quantity surveyors? How can evolution provide clues about alien life? What might it look like? (Probably not green and sexy, sadly.) As our probes and manned missions venture out into the solar system, and our telescopes image Earth-like planets with ever-increasing accuracy, our search for alien life has never been more exciting - or better funded. *The Aliens are Coming!* is a comprehensive, accessible and hugely entertaining guide to that search, and our quest to understand the very nature of life itself.

Impeccably researched, this riveting journalistic investigation separates fact from fiction, and documents the existence of-and government reactions to-actual UFOs.

INSTANT NEW YORK TIMES BESTSELLER “Provocative and thrilling ... Loeb asks us to think big and to expect the unexpected.” —Alan Lightman, New York Times bestselling author of *Einstein’s Dreams* and *Searching for Stars on an Island in Maine* Harvard’s top astronomer lays out his controversial theory that our solar system was recently visited by advanced alien technology from a distant star. In late 2017, scientists at a Hawaiian observatory glimpsed an object soaring through our inner solar system, moving so quickly that it could only have come from another star. Avi Loeb, Harvard’s top astronomer, showed it was not an asteroid; it was moving too fast along a strange orbit, and left no trail of gas or debris in its wake. There was only one conceivable explanation: the object was a piece of advanced technology created by a

distant alien civilization. In *Extraterrestrial*, Loeb takes readers inside the thrilling story of the first interstellar visitor to be spotted in our solar system. He outlines his controversial theory and its profound implications: for science, for religion, and for the future of our species and our planet. A mind-bending journey through the furthest reaches of science, space-time, and the human imagination, *Extraterrestrial* challenges readers to aim for the stars—and to think critically about what's out there, no matter how strange it seems.

Shows that Earth was visited by an extraterrestrial race who bioengineered modern man in its image and taught man how to construct the pyramids • Examines the flaws in Darwin's theory of evolution and presents startling new evidence of intelligent intervention • Reveals the messages coded in the pyramids left by the ancients concerning impending Earth changes at the end of the Mayan calendar For millennia the development of humanity showed a consistent homogenous pattern. Then suddenly, around 3000 B.C.E., great civilizations sprang up around the globe. All the creation myths of these civilizations tell of gods who came down to Earth and fashioned man in their own image, teaching them the arts of agriculture and civilized life. In addition, the dominant architectural design in Egypt, Sumeria, Peru, Mexico, and China was the pyramid, though science has never been able to explain why or where these peoples obtained the advanced technological knowledge to construct such edifices. The abruptness and similarities of these evolutionary leaps calls into question the Darwinian theory of evolution, given that there are no traces of any intermediate evolutionary forms. Now, using the most current research on DNA, Will Hart shows that these gods were actually visitors from other worlds who genetically engineered modern humanity from the beings that then inhabited the planet. He also suggests that the Bible and other creation stories have been interpreted

falsely as myth when they should have been read as history. The structures left by our ancestors were designed in accordance with precise astronomical and geodetic alignments to make them visible from outer space and to survive for thousands of years with the intent of communicating information relating to physical and temporal events. Humanity's current stage of development has finally reached the point where the secret messages of these structures can be decoded to reveal the fate of humanity in the coming Earth changes.

Exposes the agenda behind the bio-robotic grey aliens' genetic manipulation of certain human races • Reveals the Grey's nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization • Explains how their quest to capture human souls appears in the historical record from biblical times • Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his disciples about the threat posed by these alien

interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp.

This book represents the cutting edge of UFO research, with ten new and original firsthand accounts of very close contact with UFOs and aliens. The majority of these cases come from fully conscious recall, rather than memories retrieved through hypnosis. Several of the stories present new information that is highly controversial and not commonly reported in UFO literature, from healings and benevolent encounters, to praying mantis-type aliens and military presence during an abduction. "They went in the top of my head"-An Excerpt One night, I was lying in bed, and I had my back to the wall, when I saw these two aliens off towards the back of my head. I saw them come through the wall. And they came up to me. I didn't try to move. I don't know if there was any sensation. I remember just lying there. And they came over and they went in the top of my head. And it felt very good, so I allowed it. I perceived that I allowed it. And they were slender. They were iridescent, like a whitish color. And that was that. -Pat Brown UFO abductee Pat Brown assumed her experience with extraterrestrials had come to an end. She didn't know that her ordeal had only just begun. . . The reluctant hero from *Alien Invasion and Other Inconveniences* is back in all his droll glory — and this time the fate of humankind is on the line. Jesse has had the worst year of his life. First a race of homicidal (but very polite) aliens invaded Earth, killing pretty much everyone and enslaving the few people left behind, including Jesse; his best friend, Michael; his sort-of girlfriend, Lauren; and the girl of his dreams, Catlin. Now Jesse is revered as some sort of Chosen One all because he managed to kill one of the alien lords and escape — even though he’s not really sure how he did it. But it’s hard to argue with the multitude of new talents he is developing, including (somehow) killing aliens with his mind and grasping glimpses of alternate futures. With thousands of aliens already on Earth and thirty million more about to arrive, Jesse has to decide whether to embrace his maybe-destiny before the world is completely destroyed. No pressure.

Unmasking the mysteries of alien life on earth! Make mention of the word “alien” and it conjures images of black-eyed, large-headed, dwarfish beings that have come to be known as the Greys. Indeed, Greys have become a staple part of pop-culture, never mind just the field of UFO research. They’ve appeared in Steven Spielberg’s classic 1977 movie, *Close Encounters of the Third Kind*. They regularly popped up in *The X-Files*. And, of course, there are numerous people – all across the world – who claim to have been abducted by the Greys and subjected to intrusive medical experiments. Yet, before the 1950s, the Greys were nowhere in sight. *The Alien Book: A Guide to Extraterrestrial Beings on Earth* shows that extraterrestrial life comes in all kinds, appearances, sizes, and bodies. They all have one thing in common, however: the human race has encountered them, and we continue to do so today.

More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. American Cosmic examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in

UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. American Cosmic explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

This is the mysterious manuscript authored by a U.S. Government insider. It describes, in amazing detail, the inter relationship between the U.S. Government and several extraterrestrials societies with whom we have working agreements. I've been told this information was once classified as "Above Top Secret" and that this information was never intended to be released to the public! The Blue Planet Project Book contains all the amazing notes and drawings made by the scientist. The scientist visited various UFO crash sites, and the notes and drawings were allegedly made from those visits. It is believed that this anonymous scientist (more info revealed in book) was contracted by the government over several years to visit all crash sites, interrogate captured Alien Life Forms and analyze all data gathered from that endeavor. This book compiled from what is believed to be the original and complete information. In keeping with the format of the original information that was in a binder format, this book has been published in a full size 8.5 x 11 page size and bound in a comb binding format. This makes it easier to lay flat and open pages fully for easier reading and studying. We believe this to be the most complete, accurate and highest quality version of this book available.
