Offering serial dieters a healthy and lifelong way to shed pounds--and keep them off-- The Science of Skinny includes: kick-start plans; guidelines for family- and kid-friendly meals; quick and delicious menus and more than 50 recipes; shopping lists and eating-on-the-go tips; easy fitness routines; and more.

There is one disease and one cure. That's it. The rest is a scam. We are ruled by psychopaths and run by idiots. The disease is acidosis and the cure is getting alkaline. That's it. So this should be for you to cure what ails you and get your weight to it's ideal by respecting the delicate pH balance of the body. An Alkaline individual is one with a pH of 7.4 or higher. Most get there by switching to plant-based but limit sugary fruits. A smart Vegan is someone who is plant-based but does overdo the sweet fruits like apples, oranges, and bananas. The real way to stay healthy is to keep the delicate pH balance of their "fish tank" aka body at 7.4 and above. This is done by eating 80% alkaline, mainly dark cruciferous veggies and good fats... and 20% acidic like meat is acceptable if one just doesn't want to quit it altogether. I myself may still have a grass-fed steak on treat day. Just not 3x a day like I used to. It's more like 3 x a month. And my digestion has never been better. Let alone my health in general. You can tell by my picture on my book for a 51-year-old man I'm not doing too bad. It was a myth we needed meat to be strong. We need chlorophyll because that has the sunlight from the plants. God's vibration baby! I spent the last year with Dr. Young interviewing him and getting his complicated science into laymen's terms for the average reader to be able to get why they are fat. It's saving their lives. Their current diet is so acidic the acid has to go somewhere. To your fat cells. Better than death. But now just stop the acid. And watch the fat go away as the acid does. You are not fat you are acidic. NY Times recently recognized the Interstitium as the answer to cancer and rightly so. And all disease. It holds your interstitial fluids which take the acid out of your blood so you don't die. But where does it go? Poop, pee, sweat, and breathing are your elimination areas. And then don't put any more acid in you. This book explains what I learned from my new mentor Dr. Robert O Young author of Sick And Tired and the pH Miracle series of books. It was my extended education after my original pH teacher Dr. Bernardo Majalca who was the star of my first book and movie icurecancer.com. I've been helping folks for decades cure cancer with alkalinity only to find out we could have been curing everything else too including losing weight! There is some misinformation out there. Saying nothing affects your blood pH? Wrong! Your food does affect your acidity. And if your Interstitium is full of the acid it has pulled out of your blood (via the lymphatic system and put it in the Interstitial fluid) so your blood pH doesn't change? Those interstitial fluids now need to get urinated, excreted, sweated, and aspirated out. If they don't you get acidosis which then turns to fat or worse a degenerative disease, usually cancer. So by eating alkaline food and drinking alkaline water you feed neg electrons to your cells which makes you alkaline. Not Acidic. Dr. Young's science just proved why Dr. Bernardo's work of 40 years curing folks of cancer with his pH diet, worked. The pH Miracle is true! Which is all from the "Cancer Cure" forefather Otto Warburg's work.

DR SEBI CURE FOR GENITAL HERPES Dr. Sebi was a Honduran man with a very humble beginning and was known and addressed as an herbalist, pathologist or a naturalist in different regions of the world; he left the biosphere in 2016. Indeed, it is true that he is no longer in our midst today, but his self-invented and established effective traditional therapy for diabetes, hypertension and organ cleansing is still helping millions of people with these conditions around the world. Dr. Sebi said that there were six fundamental food groups: live, raw, dead, hybrid, genetically modified, and drugs, but his diet basically cut out all the food groups except live and raw food, thereby encouraging dieters to eat as closely to a raw vegan diet as possible. These foods include foods like naturally grown fruits and vegetables, along with whole grains. He has believed that raw and live foods were "electric," which fought the acidic food waste in the body. So, with his approach to eating, Dr. Sebi established a list of foods that he deliberated to be the best for his diet. Sticking to Dr Sebi's Diet and Food List to cure these diseases can be challenging if you
