Diploma Thesis from the year 2016 in the subject English Language and Literature Studies - Literature, grade: 5.00, New Bulgarian University, language: English, abstract: The question posed in this thesis concerns the usage of idioms in the everyday language, as well as in the book "The Monogram Murders". This paper, therefore, argues that in the non-literal language, some differences are obvious, and thus we can recognize an idiom quite easily. However, there are differences and divisibilities in the idioms themselves - some of them bear the meaning of their compounds while others are simply composed of words that cannot be used with their literal meaning, especially in the context of the idiom itself. The language as a system of communication has both literal and often figurative meanings. However, in the historical grammaticism such a meaning was often used in order to give notions like metaphors, similes, proverbs and idioms. Most of them often carry a metaphorical sense that makes their comprehension difficult, as in fact their meaning cannot be inferred/guessed from the meaning of their constituent parts. Taking all of the abovementioned into account, in the present thesis I will present the results of the research I have made based on the idiomatic usage in the novel of Agatha Christie "The Monogram Murders". Due to the extensive length of my research, I will focus on the idioms that have made their impression on me and on their translation into Bulgarian. The aim of this graduate thesis is to evaluate and describe the idiomatic expressions used in the novel "The Monogram Murders" by Agatha Christie. That kind of analysis is particularly interesting as it concerns the work of art of a famous writer that from a semantic point of view describes the ideas composing the whole book.

Phrases, idioms, and clichés—why do we say the things we say? *Watch Your Tongue* explores weird and wonderful everyday sayings and what they reveal about us. Do you ever wonder why you shouldn't have a cow but you should seize a bull by its horns? Who has the better reputation in language—cats or dogs? Do you sometimes feel that our speech is all smoke and mirrors or that our expressions simply make no sense? In *Watch Your Tongue*, award-winning author Mark Abley explores the phrases, idioms, and clichés of our everyday language. With wit and subtle wisdom, he unravels the mysteries of these expressions, illuminating the history, tradition and stories behind everything we say. Pulling examples from Shakespeare's plays to sports team names, ancient Rome to Twitter, Abley shares samples and anecdotes of the eccentric ways that we play with, parse, and pattern language. Why do so many companies use fruit for their brand names? What do politicians mean when they say they're going to "drain the swamp"? Why does English use chickens to signify cowardice? Abley dives into the history and psychology behind these examples and countless others, unpacking their significance (and sheer absurdity) to show how our language developed, where it is headed, and what we can learn about ourselves from it. Whimsically illustrated, easily browsable, and full of catchy sidebars, *Watch Your Tongue* celebrates how we amuse ourselves with words and what our sayings reveal about the way we see the world.

About phrasal verbs Phrasal verbs, or multi - word verbs as they are often referred to, can be rather daunting for non natives of the English language. A mistake in using the wrong particle or the wrong word order can completely change the intended meaning. This can lead to misunderstandings which can either be horrific or hilarious. Students of the English language are not expected to be able to remember all the phrasal verbs - they are too numerous - but they should be familiar with the most common ones and they should also be able to recognise their meanings in context. Phrasal verbs play an important role in the English language. There is no getting away from them. Every time natives speak they use them. Take a look at the ones below. Did you know that the following two sentences have different meanings? Peter hung up after a few minutes = he ended the telephone call. Peter hung up on me after a few minutes = he ended the call by interrupting the conversation abruptly, angrily and rudely. Now look at these two examples: Pretty flabbergasting! I've gone off cheese = I no longer like cheese. The cheese has gone off = the cheese is not fresh anymore. It is not good to eat. If you eat it you could become sick. The alarm clock has just gone off = Can you turn it off please? I want to sleep for another few minutes. Does this mean that the alarm clock is not fresh anymore? NOOOO!!!! Does it mean the alarm clock doesn't like someone or something anymore? NOOOO!!! Well what does it mean you may be asking yourself. You should be able to understand from the context. Out of context 'to go off' is devoid of any meaning whatsoever. In the case of the alarm clock, it means, it didn't ring. Another example is: He turned on me = he either attacked me physically or verbally. He turned me on = he caused me to become excited. Now can you see why the wrong use can lead to numerous misunderstandings? Phrasal verbs can be separable, that is, as seen in the example 'he turned me on', and inseparable as in the example 'he turned on me'. There are also phrasal verbs which are both separable and inseparable Example: She took off her jacket/she took her jacket off = she removed her jacket. In this book you will learn and become familiar with each phrasal verb type. Good clear examples are set out to illustrate the meanings.
