WINNER of the 2013 Printz Award. In darkness I count my blessings like Manman taught me. One: I am alive. Two: there is no two. In the aftermath of the Haitian earthquake a boy is trapped beneath the rubble of a ruined hospital: thirsty, terrified and alone. 'Shorty' is a child of the slums, a teenage boy who has seen enough violence to last a lifetime, and who has been inexorably drawn into the world of the gangsters who rule Site Soleil: men who dole out money with one hand and death with the other. But Shorty has a secret: a flame of revenge that blazes inside him and a burning wish to find the twin sister he lost five years ago. And he is marked. Marked in a way that links him with Toussaint L'Ouverture, the Haitian rebel who two-hundred years ago led the slave revolt and faced down Napoleon to force the French out of Haiti. As he grows weaker, Shorty relives the journey that took him to the hospital, a bullet wound in his arm. In his visions and memories he hopes to find the strength to survive, and perhaps then Toussaint can find a way to be free . . .

A family relocates to a small house on Ash Tree Lane and discovers that the inside of their new home seems to be without boundaries

In Seattle's upscale Blueridge neighborhood, James Sinclair, his wife Anne, and their two small boys are found brutally murdered in their home. Their bodies are carefully laid out: blindfolded, hands tied, and crosses drawn in blood across their foreheads. Above the bedroom door, the words "thirteen days" are scratched into the frame. At the same time, a card with the words "thirteen days" written on it is delivered to the office of powerful lawyer Nathan Quinn, a partner at Sinclair's law firm. From the evidence found at the scene, rookie homicide detective Alice Madison and her seasoned partner Detective Sergeant Brown determine that the prime suspect is John Cameron, a fugitive long wanted for the infamous Nostromo killings. But only Cameron's attorney knows his whereabouts, and though the clock is ticking, he seems more interested in protecting his client than preventing another murder. That attorney is none other than Nathan Quinn. Madison and Brown discover the three men are linked in other ways, too. Years ago, when they were just boys, Sinclair, Cameron, and Quinn's younger brother David were abducted. Blindfolded and taken to the woods near the Hoh River, on the picturesque Olympic Peninsula, the three boys endured a night of terror. Only Sinclair and Cameron survived. With no other witnesses, the case went unsolved and David's body was never found. After a savage attack that leaves Brown in the hospital and Madison working alone, she discovers a flaw in the investigation that puts her at odds with the department brass. To stop the killer, Madison must go back into the woods and confront the unsolved mystery of the Hoh River Boys. She must forget her training and follow her instincts to the terrifying end, even as enemies become allies in the fight against the terrible darkness descending over them all.

Hornfischer, author of *The Last Stand of the Tin Can Sailors* "I shall return" is General Douglas MacArthur's promise to the Filipinos. It will take 165,000 troops and 700 ships in the bloody battle of Leyte Gulf to do it. But Donovan faces something even deadlier than Kurita's battleships: Explosives secretly slipped on board American ships by saboteurs are set to detonate at any time. In our darkest moments poetry has the ability to comfort and support us, whether it is through reading, writing or reciting it. I have spent a lifetime doing all three. Poetry can bring colour into our lives even when it feels like magic has vanished from the world forever. Written over a number of decades, these poems are a snapshot of my life; they are my truth - my colours in the darkness.

When the villagers hear of a huge and mysterious creature that has come all the way from India, they steal into the dark barn to find out what it is. "It's like a snake!" says one. "It's like a tree trunk," says another. "No, it's like a fan!" argues the third. Who is right? Which of them knows the creature's true shape? Mina Javaherbin's charming and witty retelling combined with Eugene Yelchin's refreshingly brilliant illustrations bring this enlightened classic, inspired by Rumi's poem, vividly to life.

"From Darkness to Light explores from a variety of angles the subject of museum lighting in exhibition spaces in America, Japan, and Western Europe throughout the nineteenth and twentieth centuries. Written by an array of international experts, these collected essays gather perspectives from a diverse range of cultural sensibilities. From sensitive discussions of Tintoretto's unique approach to the play of light and darkness as exhibited in the Scuola Grande di San Rocco in Venice, to the development of museum lighting as part of Japanese artistic self-fashioning, via the story of an epic American painting on tour, museum illumination in the work of Henry James, and lighting alterations at Chatsworth (to name only a few topics) this book is a treasure trove of illuminating contributions. The collection is at once a refreshing insight for the enthusiastic museum-goer, who is brought to an awareness of the exhibit in its

immediate environment, and a wide-ranging scholarly compendium for the professional who seeks to proceed in their academic or curatorial work with a more enlightened sense of the lighted space."--Publisher's website.

"Guy Deutscher is that rare beast, an academic who talks good sense about linguisticsa he argues in a playful and provocative way, that our mother tongue does indeed affect how we think and, just as important, how we perceive the world."

Observer *Does language reflect the culture of a society? *Is our mother-tongue a lens through which we perceive the world? *Can different languages lead their speakers to different thoughts? In *Through the Language Glass*, acclaimed author Guy Deutscher will convince you that, contrary to the fashionable academic consensus of today, the answer to all these questions is - yes. A delightful amalgam of cultural history and popular science, this book explores some of the most fascinating and controversial questions about language, culture and the human mind.

The eagerly awaited new novel from Canada's top crime-fiction writer. It's the May half-term school holiday, and the first warm day of the year has drawn a few children to the River Swain for a swim. When one boy chases another off the path that runs alongside Hindswell Woods, a glimpse of orange through the trees tempts them into the shadows. Moments later, their high spirits vanish in an instant, for there, to their shock (and ghoulish fascination), they find a man in a brightly coloured shirt hanging from a branch by a rope around his neck. Alan Banks is in London with his new girlfriend when news of the kids' ghastly discovery reaches the police in Eastvale, so the case falls to Annie Cabbot. And she's mystified. Why would a successful set and costume designer, with a well-reviewed production of *Othello* currently playing, be in such despair that he would take his own life? In *All the Colours of Darkness*, Peter Robinson has written an exceptionally gripping and intricately plotted story that delivers hard truths about jealousy and betrayal — and of the insidious, corrosive power of secrets. Once more, Robinson proves that he is one of the finest crime-fiction writers in the world.

Colours in Darkness is the third collection of short works by this author and draws together a new selection of flash fiction and short stories, with some that bridge the two genres. They reflect many aspects of life - past, present and future - in a variety of writing styles. Stories range from the emotionally dark and spiritually macabre to fond memories and pure humour. Put simply, this book is a reader's pic'n'mix collection, intended to add colour to the dark days or thoughtful reflections and simple entertainment to enliven brighter moments. The light, the dark and the sheer sinister, all cheek by jowl in serendipitous order.

How can we use the experience of darkness to lift our spirits, challenge our hearts and minds and draw us closer into the heart of God?

Blue in Old English represents the first thorough investigation of an area of the colour semantics of Old English, and the methodology developed for this study is believed to be appropriate for researching the colour semantics of any language which survives only in recorded texts. By means of a collection of in-depth word-studies, which suggest new interpretations of many well-known passages, an understanding of how blueness was described in Old English is developed. The approach is interdisciplinary, using evidence from subjects such as botany, manuscript illustration, etymology, early technologies, and others. The conclusion contradicts certain previously held views on Old English colour, and presents a hitherto obscured sociolinguistic picture of differing

language use among various groups of Old English speakers.

Why is the sky blue? Why is snow white and darkness black? How do our eyes and brain create a world of colour? This book covers key STEAM subjects.

Journey through lush green forests, splash into a watery blue ocean, be dazzled by a glowing jungle and see the world through a kaleidoscope of colour.

Explained in an accessible way and combined with gorgeous illustrations, this is a perfect book for young readers and budding scientists.

Volume one of a four volume collection of the works of Samuel Beckett.

On a cliff edge overlooking the North Sea, a quadriplegic woman in a wheelchair stares unseeingly at the waves. She had been murdered. And, miles away, in a storeroom in the Maze, a medieval warren of yards and alleys at the heart of Eastvale, Yorkshire, a young woman lies sprawled on a heap of leather scraps. She too has been murdered. Their bodies are discovered at about the same time that DI Annie Cabbot, on secondment to the Eastern Area force, wakes with a severe hangover in the bed of a young man she barely recognizes. From these three strands, Peter Robinson weaves his latest complex and compelling story. While DCI Alan Banks tries to figure out how anyone was able to murder Hayley Daniels, when the closed-circuit cameras trained on the entrances to the Maze show that no one preceded or followed her into its shadows, Cabbot learns two things that make her blood run cold: the real intentions of her one-night stand and the true identity of the quadriplegic woman. A ghost from the past is back to haunt both her and Banks. Peter Robinson's Inspector Banks novels are among the best detective fiction in the world, and their multi-layered stories continue to surprise, engross, thrill, and delight readers. Friend of the Devil is a superb showcase of how deftly he balances horror with humour, police procedures with the nuances of all-too-human emotions, and endings with the promise of new starts. Once again, Robinson transcends the usual limits of the genre in this dazzling novel about the obsessive power of vengeance.

Prussia has been overrun by Napoleon's forces, and the Emperor's troops have discovered a new source of funds there: enough amber to finance France's wars. But their plans stall when the girls who collect the stones begin to disappear, only to be found gruesomely disfigured by an unknown killer. The French call upon Prussian investigator Hanno Stiffeniis, who must seek out the culprit knowing that his own success may doom his country's future. Dark, intelligent, and vividly written, *A Visible Darkness* continues a masterful series of historical mysteries that portray a past torn between nationalism and humanism, superstition and science.

Discusses the colors of the natural world, the mechanism of color vision, uses of color in technology, and the psychological effects of color

This sweet children's book is about a little girl, Mia who is afraid of the dark. This all changes when her mum helps her discover that she has powers to fight the shadows and bring colour to her world. The story also explores Mia's relationship with her brother, and finally ends in their relationship growing and developing into a close and loving one. Educational content such as the days of the week, colours of the rainbow and names of the planets, are just a few of the topics that make this story fun but didactic too. The message of forgiveness and love resonates, leaving readers satisfied and comforted and the main character, Mia, empowered to achieve anything.

Winter is an Earth-like planet with two major differences: conditions are semi arctic even at the warmest time of the year, and the inhabitants are all of the same sex. Tucked away in a remote corner of the universe, they have no knowledge of space travel or of life beyond their own world. And when a strange envoy from space brings news of a vast coalition of planets which they are invited to join, he is met with fear, mistrust and disbelief . . . 'The Left Hand of Darkness' is a groundbreaking work of feminist science fiction, an imaginative masterpiece which poses challenging questions about sexuality, sexism and the organisation of society.

A beautiful June day in the Yorkshire Dales, and a group of children are spending the last of their half-term freedom swimming in the river near Hindswell Woods. But the idyll is shattered by their discovery of a man's body, hanging from a tree. DI Annie Cabott soon discovers he is Mark Hardcastle, the well-liked and successful set designer for the Eastvale Theatre's current production of *Othello*. Everything points to suicide, and Annie is mystified. Why would such a man want to take his own life? Then Annie's investigation leads to another shattering discovery, and DCI Alan Banks is called back from the idyllic weekend he had planned with his new girlfriend. Banks soon finds himself plunged into a shadow-world where nothing is what it seems, where secrets and deceit are the norm, and where murder is seen as the solution to a problem. The deeper he digs the more he discovers that the monster he has awakened will extend its deadly reach to his friends and family. Nobody is safe.
