L'etnometodologia descrive il modo in cui le persone organizzano continuamente la loro interazione sociale. Questi studi criticano l'essenzialismo basandosi sullo studio delle pratiche reali. Informate da fenomenologia, postmodernismo e dialettica negativa (Husserl, Heidegger, Saussure, Merleau-Ponty, Sartre, Derrida, Lévinas, Hegel e Adorno), queste analisi perseguono questioni filosofiche vitali come si rivelano nelle pratiche di tutti i giorni: cos'è l'oggettività viene esaminato studiando il lavoro di assaggiatori di caffè professionisti che descrivono i sapori; ciò che è razzismo viene scoperto studiando la dialettica del dominio nei rapporti faccia a faccia; quali sono "le regole" è ri-specificato dalle etnografie dell'instaurazione degli ordini locali nel flusso del traffico pedonale e del modo in cui i surfisti sulle onde organizzano il loro turno. Basati sulla ricerca dell'autore in una dozzina di paesi, questi capitoli nascono inizialmente come lezioni tenute presso l'Università della Calabria.

This contributed volume is a collection of international writings on dance, human rights, and social justice in the 20th and 21st centuries. The book illuminates and analyzes dance in contexts of oppression and its subversion, as well as in situations promoting access to dance, and those encouraging healing from human rights abuses through movement.

Studie over het werk van de Italiaanse architect (1888-1916).

The intellectual scope and cultural impact of British writers cannot be assessed without reference to their European 'fortunes'. These essays, prepared by an international team of scholars, critics and translators, record the ways in which David Hume has been translated, evaluated and emulated in different national and linguistic areas of Europe. This is the first collection of essays to consider how and where Hume's works were initially understood throughout Europe. They reflect on how early European responses to Hume relied on available French translations, and concentrated on his Political Discourses and his History, and how later German translations enabled professional philosophers to discuss his more abstract ideas. Also explored is the idea that continental readers were not able to judge the accuracy of the translations they read, nor did many consider the contexts in which Hume was writing: rather, they were intent on using what they read for their own purposes.

Dealing with the interconnections between music and the written word, this volume brings into focus an updated range of analytical and interpretative approaches which transcend the domain of formalist paradigms and the purist assumption of music's non-referentiality. Grouped into three thematic sections, these fifteen essays by Italian, British and American scholars shed light on a phenomenological network embracing different historical, socio-cultural and genre contexts and a variety of theoretical concepts, such as intermediality, the soundscape notion, and musicalisation. At one end of the spectrum, music emerges as a driving cultural force, an agent cooperating with signifying and communication processes and an element functionally woven into the discursive fabric of the literary work. The authors also provide case studies of the fruitful musico-literary dialogue by taking into account the seminal role of composers, singer-songwriters, and performers. From another standpoint, the music-in-literature and literature-in-music dynamics are explored through the syntax of hybridisations, transcoding experiments, and iconic analogies.

«Ripetere in eco» la Parola nei linguaggi più diversi: gestuali, musicali, teatrali, grafici, pittorici, plastici... per meditarla e farla scendere nel cuore: questo è il motto che sta dietro le esperienze presentate in questo libro e ne ha decretato...

"Ogni lettore, quando legge, è il lettore di se stesso. L'opera è solo una sorta di strumento ottico che lo scrittore offre al lettore per consentirgli di scoprire ciò che forse, senza il libro, non avrebbe visto in se stesso. Il riconoscimento dentro di sé, da parte del lettore, di ciò che il libro dice, è la prova della sua verità." Ben presto il lettore scoprirà che quest'opera è pura verità. La nostra adolescenza, la trama e l'ordito dei nostri amori e delle nostre frustrazioni, i fantasmi delle persone e gli abbagli di felicità e tristezza, sono nelle mani di quanti abbiamo incontrato, travisato, ricordato e dimenticato, rievocato e poi reincontrato, sempre diversi, nel cammino verso un chiarimento disperato della realtà; nelle mani di Gilberte e Albertine, personaggi che, una volta letti, non potremo mai dimenticare. Servirà a tante cose la lettura di questo libro, ma anche a guarire delle angosce adolescenziali ancora dentro di noi.

Aquila, a series planned for biennial publication, is presented to scholars with a broad interest in modern languages and literatures. Each volume contains original material contributed by specialists within this general area, with minimal limitations as to language or length of the studies, the criteria being significance of the content and clear, interesting presentation. Aquila II includes four important monographs concerning Luther, literary criticism, Dante, and a French avant-garde salon featuring Mallarmé, Verlaine, Charles Cros, Villiers de l'Isle-Adam, etc ... There are excellent articles on a French poetic form in the late Middle Ages, the concept of "Encyclopedia" and general education during the Renaissance, Voltaire's *Candide*, Gide's *Faux-Monnayeurs*, and hidden satire in *Don Quixote*. To the Administration of Boston College, we acknowledge a debt of gratitude for the generous subsidy which has given wings to Aquila, for the advancement of knowledge in modern languages and literatures. Taking a philological and feminist approach, and drawing on the Bakhtinian concept of the grotesque body and on the poetics of transgression, *The Ugly Woman* is a unique look at the essential counterdiscourse of the celebrated Italian poetic canon and a valuable contribution to the study of women in literature.

Over the last fifty years the life and work of Edmund Burke (1729-1797) has received sustained scholarly attention and debate. The publication of the complete correspondence in ten volumes and the nine volume edition of *Burke's Writings and Speeches* have provided material for the scholarly reassessment of his life and works. Attention has focused in particular on locating his ideas in the history of eighteenth-century theory and practice and the contexts of late eighteenth-century conservative thought. This book broadens the focus to examine the many sided
