Composing a Community Susan H. McLeod,Margot Iris Soven,2006-03-28 Composing a Community is not only a history of early WAC programs but also of how the people developing those programs were in touch with one another, exchanging ideas and information, forming first a network and then a community. Composing a Community captures the stories of pioneers like Elaine Maimon, Toby Fulwiler, and others, giving readers first-hand accounts from those who were present at the creation of this new movement. David Russell's introduction sets this emergent narrative into relief. Susan H. McLeod and Margot Iris Soven, themselves pioneers in WAC history, have assembled some of its most eloquent voices in this collection: Charles Bazerman, John C. Bean, Toby Fulwiler, Anne Herrington, Carol Holder, Peshe C. Kuriloff, Linda Peterson, David R. Russell, Christopher Thaiss, Barbara E. Walvoord, and Sam Watson. Their style is personal, lively, and informal as the authors succeed in putting their personal memories in the larger context of WAC studies.

Critical Thinking Through Reading and Writing' 2007 Ed. (dela Salle) ,

Approaches to Teaching the Works of Anton Chekhov Michael C. Finke, Michael Holquist, 2016-02-01 Chekhov's works are unflinching in the face of human frailty. With their emphasis on the dignity and value of individuals during unique moments, they help us better understand how to exist with others when we are fundamentally alone. Written in Russia at the end of the nineteenth century, when the country began to move fitfully toward industrialization and grappled with the influence of Western liberalism even as it remained an autocracy, Chekhov's plays and stories continue to influence contemporary writers. The essays in this volume provide classroom strategies for teaching Chekhov's stories and plays, discuss how his medical training and practice related to his literary work, and compare Chekhov with writers both Russian and American. The volume also aims to help instructors with the daunting array of new editions in English, as well as with the ever-growing list of titles in visual media: filmed theater productions of his plays, adaptations of the plays and stories scripted for film, and amateur performances freely available online.

Creating Young Writers Vicki Spandel, 2012 From highly acclaimed author Vicki Spandel comes the most comprehensive exploration of six-trait writing from the inside out, in terms teachers and their students can understand. In response to primary teachers' requests for ways to use the six-trait approach to writing with K-3 students, this book is the result of years of analysing primary writing, watching primary writers at work, and talking with teachers and students to see just how the traits show themselves in the work of our youngest writers. Unlike other books on the six traits, this one shows teachers exactly how to teach traits in context, as an integral part of writing process and writing workshop. Together, these three elements—traits, process, and workshop—combine to place young writers on a path of unprecedented success. Designed to give practicing and new teachers a more in-depth understanding of the writing process and how it connects to the six traits, while encouraging them to write continuously with students and model their own personal writing process, the book is a goldmine of activities, strategies, and lesson ideas ideal for use in the K-3 classroom or as part of a study group.

tradition of starting by asking, How do students learn best? The Columbia Guide to Social Work Writing Warren J. Green,Barbara Levy Simon,2012 Social work practitioners write for a variety of publications, and they are expected to show fluency in a number of related fields. Whether the target is a course instructor, scholarly journal, fellowship organization, or general news outlet, social workers must be clear, persuasive, and comprehensive in their writing, especially on provocative subjects. This first-of-its-kind guide features top scholars and educators providing a much-needed introduction to social work writing and scholarship. Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present, and then follows with ideal strategies for academic paper writing, social work journal writing, and social work research writing. A section on applied professional writing addresses student composition in field education, writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy, and administrative writing. The concluding section focuses on specific fields of practice, including writing on child and family welfare, contemporary social issues, aging, and intervention in global contexts. Grounding their essays in systematic observations, induction and deduction, and a wealth of real-world examples, the contributors describe the conceptualization, development, and presentation of social work writing in ways that better secure its power and relevance.
