Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

One Summer Solstice long ago, tribes gathered to create a sacred pact. The tribes were attacked and the pact was broken. Thousands of years later, Karan Coleman was driving on a St. Louis highway. For the marketing executive, reality consisted of the world she could touch and see. That is, until the screech of brakes and a jarring vision of ancient events altered reality forever--and beckoned her to "remember what you are." Original.

It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. In its heyday, Lake Ronkonkoma was a popular tourist spot with slides and boat rides. But by the '90s, most people deemed it a washed-up, litter-ridden mess. Except for Kevin. And Nora. They saw something more. They saw something special. One summer morning, the timid teens see their lives collide in fateful fashion along the shore of Long Island's largest lake. At first, silence abounds. But within hours, the metaphorical-minded twosome turns a dreary day into one of great realization. Through the cascading tide, they explore life, love and their truly meaningless existence. Bit by bit, the day disappears. And the young couple returns to their stale suburb. But throughout life's ebb and flow of moments, they'll always have that day on the lake.

A unique tribute to art films as seen through the eyes of master cinematographer Vittorio Storaro, the winner of three Academy Awards. The volume is a compendium of Storaro's extraordinary fifty-year career and a tribute to the creative sources of his work, as celebrated through more than 500 illustrations that reflect his singular style. In cinematography, there is not just one kind of light, but an infinite range of variants: not only the day and night specified in the screenplays, but also the daylight and artificial light, the darkness and the twilight, the sunrise and the sunset, the sun and the moon. And each one tells a story, expresses an idea or an emotion, and digs down into the subconscious. "The Muses" are the female figures of Greek mythology who have inspired the cinematography of Storaro in terms of aesthetics, light, color, and value.

The Brahmajala, one of the Buddha's most important discourses, weaves a net of sixty-two cases capturing all the speculative views on the self and the world. The massive commentary and subcommentary allow for a close in-depth study of the work. The book contains a lengthy treatise on the Theravada conception of the Bodhisattva ideal. The long introduction is itself a modern philosophical commentary on the sutta.
