A significant and detailed contribution to the ethnological literature on traditional life in the Caribbean, this book analyzes peasant subsistence strategies in contemporary rural Haiti, ultimately showing how intensive work regimes make children necessary; how this necessity conditions sexual behavior, gender relations, and kinship; and why, despite massive contraceptive campaigns, birth rates in rural Haiti continue to be among the highest in the world. Schwartz offers a solution to a demographic paradox that some of the most prominent sociologists and demographers of the 20th century noted but were never able to explain: among impoverished small farmers, when more men are absent due to male wage migration, the women remaining behind give birth to more, not fewer, babies.

This monograph provides the first cross-linguistic study of repair strategies in verbal fronting, verb doubling and do-support, addressing both typological properties and theoretical aspects. First, it brings together data hitherto scattered across the empirical and theoretical literature and adds newly collected data from two African languages. For each of the 47 languages, the properties of verbal fronting are documented in detail. Based on this sample, the empirical part establishes two novel typological generalizations regarding the interaction between the size of the fronted category and the type of repair strategy used. The first of these identifies a systematic typological gap: No language that allows both verb and verb phrase fronting has do-support with the former and verb doubling with the latter. In the theoretical part, it is shown that previous theories of verb doubling/do-support are unable to account for both generalizations. A new approach within the Copy Theory of the Minimalist Framework is developed, that rests on the interaction of head movement, copy deletion, and the properties of different movement types. The book thus provides the first comprehensive empirical and theoretical overview of repair patterns in verbal fronting.

La Biblia para niños – Historias de Jesús edición especial bilingüe cuenta la historia que subyace detrás de todas las otras historias de la Biblia. En el centro de la misma se encuentra un niño, el niño del cual dependería todo. Cada relato susurra su nombre. Desde los tiempos de Noé, Moisés y el gran rey David, toda historia apunta hacia él. Es como la pieza que falta en un rompecabezas... la pieza que hace que todas las demás encajen en su lugar. Desde el Antiguo Testamento hasta el Nuevo Testamento, conforme la historia se desenvuelve, los niños recogerán los indicios y armarán el rompecabezas. Siendo una Biblia como ninguna otra, la Biblia para niños – Historias de Jesús invita a los niños a unirse en la mayor de todas las aventuras para descubrir por sí mismos que Jesús está en el centro de la gran historia divina de la salvación... y en el centro de la historia de ellos también.

"[A] masterpiece . . . an astonishing book that will leave you questioning your own life and political views . . . Kidder opens a window into Farmer's soul, letting the reader peek in and see what truly

makes the good doctor tick.”—Nicholas Thomas, USA Today In medical school, Paul Farmer found his life’s calling: to cure infectious diseases and to bring the lifesaving tools of modern medicine to those who need them most. Tracy Kidder’s magnificent account shows how one person can make a difference in solving global health problems through a clear-eyed understanding of the interaction of politics, wealth, social systems, and disease. Profound and powerful, *Mountains Beyond Mountains* takes us from Harvard to Haiti, Peru, Cuba, and Russia as Farmer changes people’s minds through his dedication to the philosophy that “the only real nation is humanity.” Praise for *Mountains Beyond Mountains* “A true-to-life fairy tale, one that inspires you to believe in happy endings . . . Its stark sense of reality comes as much from the grit between the pages as from the pure gold those pages spin.”—Laura Claridge, Boston Sunday Globe “Stunning . . . *Mountains Beyond Mountains* will move you, restore your faith in the ability of one person to make a difference in these increasingly maddening, dispiriting times.”—John Wilkens, The San Diego Union-Tribune “Easily the most fascinating, most entertaining and, yes, most inspiring work of nonfiction I’ve read this year.”—Charles Matthews, San Jose Mercury News “It’ll fill you equally with wonder and hope.”—Cathy Burke, People “In this excellent work, Pulitzer Prize-

winner Kidder immerses himself in and beautifully explores the rich drama that exists in the life of Dr. Paul Farmer. . . . Throughout, Kidder captures the almost saintly effect Farmer has on those whom he treats.”—Publisher’s Weekly (starred review) “[A] skilled and graceful exploration of the soul of an astonishing human being.”—Kirkus Reviews (starred review)

Multiword expressions (MWEs) are a challenge for both
the natural language applications and the linguistic
theory because they often defy the application of the
machinery developed for free combinations where the
default is that the meaning of an utterance can be
predicted from its structure. There is a rich body of
primarily descriptive work on MWEs for many European
languages but comparative work is little. The volume
brings together MWE experts to explore the benefits of a
multilingual perspective on MWEs. The ten contributions
in this volume look at MWEs in Bulgarian, English,
French, German, Maori, Modern Greek, Romanian,
Serbian, and Spanish. They discuss prominent issues in
MWE research such as classification of MWEs, their
formal grammatical modeling, and the description of
individual MWE types from the point of view of different
theoretical frameworks, such as Dependency Grammar,
Generative Grammar, Head-driven Phrase Structure
Grammar, Lexical Functional Grammar, Lexicon
Grammar.

Haitian Creole (HC) is spoken by approximately 11,000,000 persons in Haiti and in diaspora communities in the United States and throughout the Caribbean.

Thus, it is of great utility to Anglophone professionals engaged in various activities—medical, social, educational, welfare in these regions. As the most widely spoken and best described creole language, a knowledge of its vocabulary is of interest and utility to scholars in a variety of disciplines. The English-Haitian Creole Bilingual Dictionary (EHCBD) aims to assist anglophone users in constructing written and oral discourse in HC; it also will aid HC speakers to translate from English to their language. As the most elaborate and extensive linguistic tool available, it contains about 30 000 individual entries, many of which have multiple senses and include subentries, multiword phrases or idioms. The distinguishing feature of the EHCBD is the inclusion of translated sentence-length illustrative examples that provide important information on usage.

Vodou songs constitute the living memory of Haitian Vodou communities, and song texts are key elements to understanding Haitian culture. Vodou songs form a profound religious and cultural heritage that traverses the past and refreshes the present. Offering a one-of-a-kind research tool on Vodou and its cultural roots in Haiti and pre-Haitian regions, *Vodou Songs in Haitian Creole and English* provides a substantial selection of hard to find or unpublished sacred Vodou songs in a side-by-side bilingual format. Esteemed scholar Benjamin Hebblethwaite introduces the language, mythology, philosophy, origins, and culture of Vodou through several chapters of source songs plus separate analytical chapters. He guides readers through songs, chants, poems, magical formulae, invocations, prayers, historical texts and interviews, as well as Haitian Creole grammar and original sacred literature.
