De tout temps, le loup a été chassé, mal-aimé par la population, surtout par les éleveurs qui le considèrent uniquement en prédateur. Il est temps de le réhabiliter dans notre monde qui lui appartient autant qu'aux humains. Mieux le connaître passe par la découverte de cet être au perfectionnisme évident. Découverte régie par les règles d'une société hiérarchisée qui nous font parfois défaut. N'est-il pas un exemple à suivre ? Il ne tue que pour se nourrir et ne se nourrit que s'il a faim ! While Mac OS X garners all the praise from pundits, and Windows XP attracts all the viruses, Linux is quietly being installed on millions of desktops every year. For programmers and system administrators, business users, and educators, desktop Linux is a breath of fresh air and a needed alternative to other operating systems. The Linux Desktop Pocket Guide is your introduction to using Linux on five of the most popular distributions: Fedora, Gentoo, Mandriva, SUSE, and Ubuntu. Despite what you may have heard, using Linux is not all that hard. Firefox and Konqueror can handle all your web browsing needs; GAIM and Kopete allow you to chat with your friends on the AOL, MSN, and Yahoo! networks; and the email programs Evolution and Kontact provide the same functionality as Microsoft Outlook, with none of the cost. All of these programs run within the beautiful, feature-packed, and easy-to-use GNOME or KDE desktop environments. No operating system truly "just works," and Linux is no exception. Although Linux is capable of running on most any computing hardware that Microsoft Windows can use, you sometimes need to tweak it just a little to make it work the way you really want. To help you with this task, Linux Desktop Pocket Guide covers essential topics, such as configuring your video card, screen resolution, sound, and wireless networking. And laptop users are not left out--an entire section is devoted to the laptop issues of battery life, sleep, and hibernate modes.

fantasy follows the story of Kat Chanter, who discovers that the world she knows is controlled  
by ancient creatures who feed on blood. And she might just be one of them ... Despite all the  
people surrounding them she still couldn't help feeling Alek was . . . dangerous. There was so  
much pent-up savagery in him. She let out a shaky breath as his dark blue eyes caught hers  
and held. Then his hands slid around her wrists, alive with energy, and she forgot to be afraid.  
It wasn't just a touch, but a caress that left melting warmth in its wake. She'd heard the words  
before, but not spoken like this. His voice was liquid honey, lingering where others like Miklós  
had hurried, and imbuing each word with textured layers of additional meaning, as what had  
been stock phrases took on erotic promise. "Whatever you desire, you need only ask," he  
added softly at the end, as he lifted her wrist and brushed it with his lips. When her breath  
caught, he gave a slow smile, displaying sharp white teeth. Kat's unalil protectors are on high  
alert in their mountain stronghold. The remote location has delayed the Directorate finding Kat,

Bernard Clavel est de la race des grands conteurs du Nord, celle des Jack London et James Oliver Curwood. Il nous donne avec *Amarok* un des grands romans de ce pays perdu. Il écrit avec l'ardeur des hommes de ces forêts profondes, de ces lacs et de ces plaines infinies. Il sait l'urgence de cogner sur l'injustice et le malheur. Il traverse les déserts la tête pleine à craquer d'espérances et de rêves. Il nous porte dans l'aventure avec cette intégrité de bête sauvage qui habite ses personnages et qu'illustre si bien *Amarok*, chien au sang de loup dont nous n'oublierons plus le regard déchirant, animal fabuleux d'intelligence, de générosité et de dévouement qui fera tout pour sauver son maître et le jeune trappeur qu'il protège de poursuivants impitoyables. *Amarok* c'est l'histoire bouleversante d'une fuite, d'une traque dans les terres gelées, les neiges et les glaces d'Abitibi jusqu'aux limites du Grand Nord, jusqu'à la banquise.

So she's established a revolutionary new medical health center in the remote town of Hilltop, Alaska, where she studies the worst of the worst. But not everyone in Hilltop is excited to have Hanover House and its many serial killers in the area. Alaskan State Trooper, Sergeant Amarok, is one of them.
