With that amount of regular passive income, you wouldn't have to worry about where your next paycheck was coming from. At that level, you're on a whole new financial playing field. Let's face it; an extra \$30,000 per month would be life changing. If you aren't selling anything on Amazon or if you are already selling on Amazon haven't been reaching the massive amount of success that you've heard about, seen, read about, etc., this book will be a game changer. The issue that most people face when they are picking products is that they don't do the proper research before they start selling. Too many sellers just put random products on Amazon or their website and hope it sells. That is NOT the way to do it. Picking winner after winner is both an art and a science. You need to know the process of doing it (to be explained in this book), but you also need to take the tools and concepts given to you in this book and apply it creatively to the industry or niche that you want to sell in. Chris and I have been on two separate entrepreneurial paths for a few years now. He has been dominating Amazon FBA, writing books, blogging, and coaching people with the aim of helping them build financial freedom for themselves. I have been building my Social Media Marketing company, writing books, coaching people, and assembling masterminds of entrepreneurs who are far smarter than I am in order to channel their wisdom and help others achieve success in their personal and professional lives. Recently, after interviewing Chris for one of my masterminds, we found common ground in helping others become successful in their professional lives by becoming financially free. With Chris's experience in and unending success with ecommerce (specifically Amazon FBA), and my experience and credentials with Internet marketing (including Amazon), we decided to craft The Amazon Seller for you. In this definitive guide, we are going to lay out a pathway to success through Amazon FBA so that you too can make over \$30,000 per month selling on Amazon FBA.

What is an Amazon FBA Business? I am sure you have heard of Amazon. It is the largest online retailer in the USA, UK and much of Europe. A household name. But what you might not know is that when you purchase something from Amazon, there is a very good chance that you are buying from a third party seller using a service called Amazon FBA. FBA stands for 'fulfillment by Amazon'. What it means is that Amazon looks after all of the seller's stock. When a customer places an order, it by-passes the seller altogether and goes straight to the FBA warehouse. Amazon then picks out the order and delivers it to the customer. Amazon FBA also handles most of the customer service. They process all customer returns and only the most specific queries get forwarded on to the seller. To the customer, there is almost no difference between purchasing from Amazon directly and from a person selling their items on Amazon through Amazon FBA. They get the same delivery options, the same returns policy and the same customer service team. For more information click on BUY BUTTON

INTRODUCTION How Your Products Reach Amazon Prime Customers The number one component to consider when selling with Fulfillment By Amazon is how your products will reach

Amazon Prime customers. When you use Amazon FBA, all of your customers that have an Amazon Prime account will be provided with the opportunity to select two-day shipping for free. Alongside Prime customers, regular Amazon customers will be able to take advantage of the free shipping with orders of \$35.00 or more. One of the largest benefits associated with listing with FBA is that your products will be listed without a shipping cost for Amazon Prime customers, allowing you to increase your sales. What is Amazon FBA Seller Central? Amazon FBA Seller Central is the aspect of the Amazon website that you will be able to use to have full control over what warehouse your items will be stocked in, how you want to list your items, and how you will display the selling features of your products. It is essentially an entire dashboard dedicated to your products and how they will be seen by the public. You will be able to search for your products once they have been added, look at the other prices of competing FBA sellers, and determine what steps you want Amazon to take during the sale such as shipping the products. Seller Central is imperative to the selling process as it will provide the "first impression" that your customers receive when they find your products. What is the Scalability of Amazon FBA? Amazon FBA scalability is another important factor to consider when working with Amazon. As your business grows, you will want to ensure that Amazon will grow with you to make sure that each order is fulfilled efficiently. With scalability offered by the program, you can rest assured that Amazon will be able to assist you during peak seasons and offer more resources when you are selling more products. With the ability to pack and ship either a single unit or thousands of different units, the options are endless. To start out, the Amazon FBA program stands for Fulfillment by Amazon. This is a service Amazon provides to allow online and offline sellers to send their goods to Amazon, and Amazon will pack and dispatch the products to individual customers on your behalf. You may not be aware how big the Amazon marketplace is if you don't visit there regularly. They have come a long way from just selling books, to now selling just about anything. You can also sell products on Amazon and not use their FBA service, so you ship your own products, but there are many advantages of using the FBA system, which will free up your time and provide a more automated business solution. It is really a similar service that other drop shippers provide, but Amazon hold your own goods in one of their fulfillment centres. The service will send your goods anytime and to anywhere on your behalf. This system can be further integrated with your website to create a virtually fully automated system for sending Amazon your goods, and for Amazon shipping them to customers. The costs for the service are very competitive, and you only pay for actual storage and shipments, at discount Amazon rates, they don't charge a fee to use the system. So why should you consider using Amazon's system? Here are some of the key points to the FBA system: You can sell almost anything on Amazon, or through your own website and have them pack and send. By automating your website with Amazon it means the business can run on autopilot, and you can take time away if you choose, and your business still functions. Send all your stock to Amazon and they will handle everything, all you have to do is collect your profits. Amazon is now outranking eBay on Alexa for traffic, they are a major competitor to eBay. Some eBay sellers are using the Amazon FBA to ship goods sold through eBay.

Dropshipping Shopify 2021 Imagine a business where you could sell whatever you wanted without having to handle the product physically and being able to charge whatever price you wanted to charge on it. This is essentially what dropshipping amounts to. It is a wonderful business model; you're going to learn all about it inside and out in this chapter. There are some disadvantages as well that would be remiss of me not to remind you of. I'll cover those as well since it is unrealistic for you to assume that everything will always beat hunkydory. Either way, let's jump in and look at what dropshipping is. Dropshipping is the process where a middleman retails a manufacturer's or wholesaler's product. The middleman, in this case, is you, the store owner. The store owner takes care of all of the marketing aspects and drives traffic to the order pages, and the wholesaler takes care of product fulfillment, such as delivery and packaging. In some cases, you can even have the manufacturer brand the product with your own name and have them ship it to your customers. This business model is of immense help to the manufacturer and wholesaler since they get to focus on investing in what they know best, which is manufacturing the product. You get to focus on what you know best, which is to drive traffic and bring in sales. In effect, you're a one-person marketing team for the wholesaler's products. What's not to like? The customer will order the product via your website or sales channel and will pay you money. In turn, you pay the wholesaler at their quoted price, and you pocket the profits.
