

America Past And Present Volume 2 10th Edition And

In *White Trash*, Nancy Isenberg upends assumptions about America's supposedly class-free society and shows how poor whites have been deeply ingrained in the country's history for the past 400 years. They were central to the both the Civil War itself and the rise of the Republican Party, and still today feature in reality TV as entertainment. White trash have always been an integral part of the American identity, and here their history in both culture and politics is explored in depth. A fascinating work that's timely to today's public debate about rich and poor. "Building the American Republic tells the story of United States with remarkable grace and skill, its fast moving narrative making the nation's struggles and accomplishments new and compelling. Weaving together stories of a broad range of Americans. Volume 1 starts at sea and ends on the field. Beginning with the earliest Americans and the arrival of strangers on the eastern shore, it then moves through colonial society to the fight for independence and the construction of a federal republic. Vol 2 opens as America struggles to regain its footing, reeling from a presidential assassination and facing massive economic growth, rapid demographic change, and combusive politics.

"America: Past and Present integrates the social and political dimensions of American history into one chronological narrative, providing students with a full picture of the scope and complexity of the American past. Written by award-winning historians, it tells the story of all Americans—elite and ordinary, women and men, rich and poor, white majority and minorities."--publisher website.

THE CLASSIC NATIONAL BESTSELLER "A wonderful, splendid book—a book that should be

Online Library America Past And Present Volume 2 10th Edition And

read by every American, student or otherwise, who wants to understand his country, its true history, and its hope for the future." —Howard Fast Historian Howard Zinn's *A People's History of the United States* chronicles American history from the bottom up, throwing out the official narrative taught in schools—with its emphasis on great men in high places—to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, it is the only volume to tell America's story from the point of view of—and in the words of—America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As Zinn shows, many of our country's greatest battles—the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality—were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States* features insightful analysis of the most important events in our history. This edition also includes an introduction by Anthony Arnove, who wrote, directed, and produced *The People Speak* with Zinn and who coauthored, with Zinn, *Voices of a People's History of the United States*.

A History of US is the story of the history of the United States written especially for all ages to enjoy. From the hunting and fishing tribes that first crossed the Bering Strait to the civil rights movement and 20th-century attempts to define America, the 10 books in the series make history an exciting adventure story.

Intellectual history has never been more relevant and more important to public life in the United States. In complicated and confounding times, people look for the principles that drive action and the foundations that support national ideals. *American Labyrinth* demonstrates the power

Online Library America Past And Present Volume 2 10th Edition And

of intellectual history to illuminate our public life and examine our ideological assumptions. This volume of essays brings together 19 influential intellectual historians to contribute original thoughts on topics of widespread interest. Raymond Haberski Jr. and Andrew Hartman asked a group of nimble, sharp scholars to respond to a simple question: How might the resources of intellectual history help shed light on contemporary issues with historical resonance? The answers—all rigorous, original, and challenging—are as eclectic in approach and temperament as the authors are different in their interests and methods. Taken together, the essays of *American Labyrinth* illustrate how intellectual historians, operating in many different registers at once and ranging from the theoretical to the political, can provide telling insights for understanding a public sphere fraught with conflict. In order to understand why people are ready to fight over cultural symbols and political positions we must have insight into how ideas organize, enliven, and define our lives. Ultimately, as Haberski and Hartman show in this volume, the best route through our contemporary American labyrinth is the path that traces our practical and lived ideas.

America may not be at war, but it is not at peace. Recent public and political rhetoric have revealed the escalation of a pervasive and dangerous “us versus them” ideology in the United States. This powerful book is motivated by the contributors’ recognition of continuing structural violence and injustice, which are linked to long-standing systems of racism, social marginalization, xenophobia, poverty, and inequality in all forms. Calls to restore America’s greatness are just the most recent iteration of dehumanizing language against minority communities. The violation of the civil and human rights of vulnerable groups presents a serious threat to American democracy. These deeply rooted and systemic inequities have no

easy solutions, and the destructive nature of today's conflicts in America threaten to impede efforts to build peace, promote justice, and inspire constructive social change. Acknowledging the complexity of building peace in the United States, this volume represents the first step in envisioning a more just, peaceful country—from the grassroots to the highest levels of leadership. The editors have brought together a diverse group of scholars, conflict resolution practitioners, civil society leaders, community peacebuilders, and faith leaders who are committed to pro-social change. Collectively, they examine how best to understand the current issues, deescalate destructive public rhetoric, undermine the “us versus them” polarity, and support those currently working for positive change. Together, the contributors share experiences and perspectives on the past, present, and future of peacebuilding; develop a vision for how we can collectively respond in our communities, campuses, and congregations; and catalyze action during this pivotal moment in America.

When a loved one is sick, you want to help. When the illness is clinical depression, and the loved one is a man, it can be hard to know what exactly that help should be. Enter Dr. Douglas Bey. In *Loving a Depressed Man*, he writes directly to the caregiving wife or girlfriend in a down-to-earth manner, with true stories and specific advice from his decades as a front-line psychiatrist. *Loving a Depressed Man* not only sheds light on what a depressed man is going through; it also offers specific, expert advice on how to help—and ways to persuade him to seek professional aid. Included are suggestions on what to say and not to say, as well as activities that may allieviate some of the pain. Dr. Bey also clearly explains the benefits and possible side effects of the medications most often prescribed. And, throughout, he shows the reader how to maintain her own morale.

Online Library America Past And Present Volume 2 10th Edition And

A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Marie Claire In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation’s highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune’s Spear, which leads to the death of Osama bin Laden. A Promised Land

Online Library America Past And Present Volume 2 10th Edition And

is extraordinarily intimate and introspective—the story of one man’s bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of “hope and change,” and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama’s conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

American History volume 2 gives a wide overview of America’s history from the end of the Civil War era, to the political and cultural struggles of contemporary times. Thomas S. Kidd employs lessons learned from his own scholarly expertise and history classes to weave together a compelling narrative of the defeats and triumphs that have defined the American national experience. Unlike many textbooks of modern American history, religion and faith remain central aspects of the book’s coverage, through present-day America. It gives detailed treatment of episodes such as America’s military conflicts, the Civil Rights movement, and the culture wars of the past half-century. Professor Kidd also considers the development of America’s obsession with entertainment, from the rise of the first movies, to the social media age. American History volume 2 will help students wrestle with the political and cultural changes that have dramatically transformed contemporary American life

Brief one- or two-page biographies of important Negroes from ancient to modern times and

Online Library America Past And Present Volume 2 10th Edition And

from many professions including science, education, art, music, and religion.

One of the finest historians of her generation, Jan Ellen Lewis transformed our understanding of the early U.S. Republic. Her groundbreaking essays defined the emerging fields of gender and emotions history and reframed traditional understandings of the founding fathers and the U.S. Constitution. As significant as her work was within each of these subfields, her most remarkable insights came from the connections she drew among them. Gender and race, slavery and freedom, feelings and politics ran together in the hearts, minds, and lives of the men and women she studied. Lewis's brilliant research revealed these long-buried connections and illuminated their importance for America's past and present. *Family, Slavery, and Love in the Early American Republic* collects thirteen of Lewis's most important essays. Distinguished scholars shed light on the historical and historiographical contexts in which Lewis and her peers researched, wrote, and argued. But the real star of this volume is Lewis herself: confident, unconventional, erudite, and deeply imaginative.

Explore America's rich and complex past in this accessible presentation of American history. Using a streamlined and powerful narrative, the authors take readers beyond an assortment of facts to tell the story of our nation. *American Stories* covers the essential elements and events in American history and uses significant incidents and episodes to reflect the dilemmas, choices, and decisions made by the American people as well as by their leaders. #1 NEW YORK TIMES BESTSELLER • A dramatic expansion of a groundbreaking work of journalism, *The 1619 Project: A New Origin Story* offers a profoundly revealing vision of the American past and present. **NAMED ONE OF THE BEST BOOKS OF THE YEAR** BY *The Washington Post* • *NPR* • *Esquire* • *Marie Claire* • *Kirkus Reviews* In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. *The New York Times Magazine's* award-winning "1619 Project" issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This new book substantially expands on that work, weaving together eighteen

Online Library America Past And Present Volume 2 10th Edition And

essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This is a book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. The Companion to Latin American History collects the work of leading experts in the field to create a single-source overview of the diverse history and current trends in the study of Latin

Online Library America Past And Present Volume 2 10th Edition And

America. Presents a state-of-the-art overview of the history of Latin America Written by the top international experts in the field 28 chapters come together as a superlative single source of information for scholars and students Recognizes the breadth and diversity of Latin American history by providing systematic chronological and geographical coverage Covers both historical trends and new areas of interest

This book provides a comprehensive analysis of female terrorism in America, both past and present. The volume takes a fresh look at women's actions of left-wing political violence, right-wing political violence, and religious extremist violence (among others). It also examines the multitude of roles that women have played over the past few decades in such organizations (including leadership positions and more passive roles)—not to mention the diverse methods of recruitment, radicalization, and propaganda. The objective of this book is to examine—using a wide range of case studies, facts, statistics, and theoretical methodologies—how collective or personal factors have influenced or reinforced the actions that these women take. Government agencies continue to underestimate the ability of women to support and perpetrate terrorism. As such, the United States is facing a wholly inaccurate and incomplete picture of the complexities of domestic terrorism, and this is contributing to a serious neglect of the issue at the national level. This volume ultimately aims to offer policy-relevant solutions to decrease the threat of domestic female political violence in the United States. Female Terrorism in America will be of much interest to students of

Online Library America Past And Present Volume 2 10th Edition And

terrorism and political violence, American politics, gender studies, and sociology. Designed for introductory-level survey courses in American History. The American Story presents a balanced and manageable overview of the United States as an unfolding story of national development, integrating social and political history into a coherent and compelling narrative. Acknowledging the nation's rich diversity of class, race, gender, and ethnicity, this edition tells the story of the people who, through their collective and individual endeavors, have shaped the past through the demands historical events placed on them. This text, based on the bestselling America Past and Present, is presented in a highly affordable Penguin Academic format.

In a period characterized by expanding markets, national consolidation, and social upheaval, print culture picked up momentum as the nineteenth century turned into the twentieth. Books, magazines, and newspapers were produced more quickly and more cheaply, reaching ever-increasing numbers of readers. Volume 4 of *A History of the Book in America* traces the complex, even contradictory consequences of these changes in the production, circulation, and use of print. Contributors to this volume explain that although mass production encouraged consolidation and standardization, readers increasingly adapted print to serve their own purposes, allowing for increased diversity in the midst of concentration and integration. Considering the book in larger social and cultural networks, essays address the rise of consumer culture, the extension of literacy and reading through schooling, the expansion of secondary and

Online Library America Past And Present Volume 2 10th Edition And

postsecondary education and the growth of the textbook industry, the growing influence of the professions and their dependence on print culture, and the history of relevant technology. As the essays here attest, the expansion of print culture between 1880 and 1940 enabled it to become part of Americans' everyday business, social, political, and religious lives. The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this

Online Library America Past And Present Volume 2 10th Edition And

period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading--in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies--receive imaginative scrutiny as well. The *Enduring Book* demonstrates that the corporate consolidations of the last half-century have left space for the independent publisher, that multiplicity continues to define American print culture, and that even in the digital age, the book endures. Get inspired by a new compilation of crave-worthy spaces and places curated by HGTV star and award-winning designer Sarah Richardson, following on the bestselling success of *Sarah Style* and *At Home: Sarah Style*. Collected by Sarah Richardson is a series of books that contains an ever-changing mood board of soulful design—from interior and exterior spaces, to products, places, and creative people. Filled with striking photos from Sarah and her team, along with top designers from the global scene, each volume is filled with diverse looks and perspectives, ensuring there's something for everyone. In the second volume, *Past + Present*, Sarah explores the relationship between old and new—from historic houses with sleek, contemporary interiors, to modern houses filled with beloved antiques. “Whether you’re tackling a ground-up build or simply looking to make your spaces sing, these pages and the insight from our experts will excite and inform your design adventures,” says Sarah. With *Collected*, Sarah’s done all the work for you, pulling together fresh ideas from the world’s best

Online Library America Past And Present Volume 2 10th Edition And

sources and making each issue a keepsake well worth collecting.

Each chapter in this unique compilation, designed to be informative and thought-provoking, offers an examination of incidents from The Civil War through the 20th Century, important to the development of the American Nation. It features a mix of primary and secondary source materials on approximately 30 selected "moments" in American history. Designed for use in introductory courses in American history, the incidents it covers were chosen both for their historical significance and to present a wide variety of human endeavors. Given the range of topics presented, there should be subjects of special interest to every student, regardless of major.

American History volume 1 surveys the broad sweep of American history from the first Native American societies to the end of the Reconstruction period, following the Civil War. Drawing on a deep range of research and years of classroom teaching experience, Thomas S. Kidd offers students an engaging overview of the first half of American history. The volume features illuminating stories of people from well-known presidents and generals, to lesser-known men and women who struggled under slavery and other forms of oppression to make their place in American life. The role of Christianity in America is central in this book. Americans' faith sometimes inspired awakenings and the search for an equitable society, but at other times it justified violence and inequality. Students will come away from American History volume 1 better prepared to grapple with the challenges presented by the history of America's

founding, the problem of slavery, and our nation's political tradition.

America has gone Hamilton crazy. Lin-Manuel Miranda's Tony-winning musical has spawned sold-out performances, a triple platinum cast album, and a score so catchy that it is being used to teach U.S. history in classrooms across the country. But just how historically accurate is Hamilton? And how is the show itself making history? Historians on Hamilton brings together a collection of top scholars to explain the Hamilton phenomenon and explore what it might mean for our understanding of America's history. The contributors examine what the musical got right, what it got wrong, and why it matters. Does Hamilton's hip-hop take on the Founding Fathers misrepresent our nation's past, or does it offer a bold positive vision for our nation's future? Can a musical so unabashedly contemporary and deliberately anachronistic still communicate historical truths about American culture and politics? And is Hamilton as revolutionary as its creators and many commentators claim? Perfect for students, teachers, theatre fans, hip-hop heads, and history buffs alike, these short and lively essays examine why Hamilton became an Obama-era sensation and consider its continued relevance in the age of Trump. Whether you are a fan or a skeptic, you will come away from this collection with a new appreciation for the meaning and importance of the Hamilton phenomenon.

"One of the world's great karstic aquifer systems, the Edwards aquifer system supplies water for more than 2 million people and for agricultural, municipal,

industrial, and recreational uses. This volume reviews the current state of knowledge, current and emerging challenges to wise use of the aquifer system, and some technologies that must be adopted to address these challenges"-- "I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American

Online Library America Past And Present Volume 2 10th Edition And

Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

New York Times Bestseller In the most ambitious one-volume American history in decades, award-winning historian and New Yorker writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends

on it. But has the nation, and democracy itself, delivered on that promise? These Truths tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden,"

These Truths observes. "It can't be shirked. There's nothing for it but to get to know it."

Each chapter in this unique compilation, designed to be informative and thought-provoking, offers an examination of incidents from the pre-colonial period through the Civil War, important to the development of the American Nation. It features a mix of primary and secondary source materials on approximately 30 selected "moments" in American history. Designed for use in introductory courses in American history, the incidents it covers were chosen both for their historical significance and to present a wide variety of human endeavors. Given the range of topics presented, there should be subjects of special interest to every student, regardless of major.

This collection of primary sources includes both classic and lesser-known documents describing the rich mosaic of American life from the pre-contact era to the present day. The sources, both public and private documents-ranging from letters, diary excerpts, stories, novels, to speeches, court cases, and government reports-tell the story of American history in the words of those who lived it. This two-volume comprehensive anthology of primary sources expertly balances social and political history and includes up-to-date narrative material

"This book offers a tour of a collection of paintings of the American West still in private hands. The Anschutz Collection covers all the ground expected in a wide-ranging, major survey, yet still has plenty of room for surprises. Every phase in the history of American art since the 1820s is included. There are pictures of impressive quality by lesser-known artists and examples from all the major painters who have depicted the West. You'll discover works by artists such as Marsden Hartley, Childe Hassam, Jan Matulka, and John Henry Twachtman, who painted western subjects only rarely, and pictures by those whose subjects were predominantly western. The collection is particularly rich in paintings made in Taos and Santa Fe during the first half of the twentieth century, when major American artists often found inspiration and stylistic renewal in the Southwest. Among the American masters represented here are George Bellows, Albert Bierstadt, George Caleb Bingham, Ernest Blumenschein, George Catlin, Stuart Davis, Asher B. Durand, George Inness, John Marin, Alfred Jacob Miller, Thomas Moran, Georgia O'Keeffe, Frederic Remington, Charles Marion Russell, and Walter Ufer."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Science and religion represent two powerful forces that continue to influence the American cultural landscape. Negotiating Science and Religion in America sketches an

Online Library America Past And Present Volume 2 10th Edition And

intellectual-cultural history from the Puritans to the twenty-first century, focusing on the sometimes turbulent relationship between the two. Using the past as a guide for what is happening today, this volume engages research from key scholars and the author's work on emerging adults' attitudes in order to map out the contours of the future for this exciting, and sometimes controversial, field. The book discusses the relationship between religion and science in the following important historical periods: from 1687 to the American Revolution the revolutionary period to 1859 after Darwin's 1859 *On the Origin of Species* 1870–1925: the rise of religious modernism and pluralism to the Scopes Trial from Scopes to 1966 the present: 1966 to 2000 the third millennium: the voices of Stephen Jay Gould, Richard Dawkins, and Francis Collins the future and its contours. This is the ideal volume for any student or scholar seeking to understand the relationship between religion and science in society today.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

With its careful balance of the social and political dimensions of the American past, America Past and Present, Sixth Edition, Volume B helps readers grasp the scope and the complexity of American history from 1848 to 1920. This book integrates political,

Online Library America Past And Present Volume 2 10th Edition And

diplomatic, social, cultural and economic history into one rich narrative that tells the story of all Americans-whites, blacks, Native Americans, Hispanics, women, politicians, business leaders, and the everyday person on the street. For anyone interested in American history from 1848 to 1920.

The history of Jehovah's Witnesses in Europe has always been one of persecution. This third volume documents this history, turning eastward. For the first time, the circumstances of a religious minority under different political systems can be compared across the continent. The studies gathered here provide insight into the methods of repression used by governments and mainstream churches, the survival strategies of Jehovah's Witnesses, and their various experiences under Eastern European dictatorships. The initially cordial relationship with Jehovah's Witnesses that developed after 1990 has steadily reverted to religious discrimination, culminating in Russia's renewed ban of Jehovah's Witnesses in 2017 and the confiscation of their properties. By violating the universal human right of religious freedom, the same conditions that prevailed in the Soviet era have now returned to "modern" Russia: With severest discrimination and abusing jurisdictional procedures to reach their political aspirations, the State tries to crush a religious community. Against this background, it is all the more important not to turn a blind eye to the situation of religious minorities in Eastern Europe, but instead to take an honest public stance against it.

What was America? The question resounds today more than ever. While countless

contemporary textbooks have sought to relate this country's history, most have done so in fragmented, diluted, or unapproachable ways. These two volumes break down all the barriers to a full understanding of America: it has just two authors, each with a strong point of view; it is told in pure narrative form, befitting its riveting story; and it is as low-cost a textbook as there has ever been. Unlike other open access textbooks, *Building the Republic* is authoritative and coherent. Throughout, Harry Watson and Jane Dailey emphasize the enduring and multifarious influence of religion, the evolution of law and legal norms, and the distinctive history and influence of the South. And they take a capacious view of the role of politics in US history, beyond simple "political history." These two volumes sweep the reader up in the inimitable history of a country forever remaking itself.
