the best-selling author of *The Trinity Six*. 100,000 first printing.

For around a hundred years up to the Stonewall riots, the word for gay men was queers. From screaming queens to sensitive vampires and from pulp novels to pornography, *The Culture of Queers* explores the history of queer arts and artists. On the tenth anniversary of the date that UN peacekeepers landed in Rwanda, Random House Canada is proud to publish the unforgettable first-hand account of the genocide by the man who led the UN mission. Digging deep into shattering memories, General Dallaire has written a powerful story of betrayal, naïveté, racism and international politics. His message is simple and undeniable: "Never again." When Lt-Gen. Roméo Dallaire received the call to serve as force commander of the UN intervention in Rwanda in 1993, he thought he was heading off on a modest and straightforward peacekeeping mission. Thirteen months later he flew home from Africa, broken, disillusioned and suicidal, having witnessed the slaughter of 800,000 Rwandans in only a hundred days. In *Shake Hands with the Devil*, he takes the reader with him on a return voyage into the hell of Rwanda, vividly recreating the events the international community turned its back on. This book is an unsparing eyewitness account of the failure by humanity to stop the genocide, despite timely warnings. Woven through the story of this disastrous mission is Dallaire's own journey from confident Cold Warrior, to devastated UN commander, to retired general engaged in a painful struggle to find a measure of peace, reconciliation and hope. This book is General Dallaire's personal account of his conversion from a man certain of his worth and secure in his assumptions to a man conscious of his own weaknesses and failures and critical of the institutions he'd relied on. It might not sit easily with standard ideas of military leadership, but understanding what happened to General Dallaire and his mission to Rwanda is crucial to understanding the moral minefields our peacekeepers are forced to negotiate when we ask them to step into the world's dirty wars. Excerpt from *Shake Hands with the Devil* My story is not a strictly military account nor a clinical, academic study of the breakdown of Rwanda. It is not a simplistic indictment of the many failures of the UN as a force for peace in the world. It is not a story of heroes and villains, although such a work could easily be written. This book is a *cri de coeur* for the slaughtered thousands, a tribute to the souls hacked apart by machetes because of their supposed difference from those who sought to hang on to power. . . . This book is the account of a few humans who were entrusted with the role of helping others taste the fruits of peace. Instead, we watched as the devil took control of paradise on earth and fed on the blood of the people we were supposed to protect.

In this fascinating autobiography Eric's son, Gary Morecambe, describes what it's like to grow up in the presence of one of the best-loved and most fondly remembered of all British comedy greats. Eric and Ernie brought sunshine and laughter to the people of Britain for an amazing 22 years. Includes photos from the Morecambe family archive and unseen extracts from his father's personal diaries. Frank and outspoken, this book provides a compelling insight into the man behind the laughter, a man who was constantly worried that one day he would be found out, who never lost his love of Long John Silver impressions, and who continued to work until heart disease finally killed him at only 58 years of age.

The Resonance of Unseen Things offers an ethnographic meditation on the “uncanny” persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. “We really don't have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author's semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history.” —Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University “Lepselter relates a weave of intimate alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood.” —Debbora Battaglia, Mount Holyoke College “An original and beautifully written study of

contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the narrative continuities that bond them to histories of violence and expansion in the American West.” —Deirdre de la Cruz, University of Michigan

'The Clash' brings together for the first time remarkable, previously unseen personal and professional photos of the band at home, on stage, in the studio and on the road. As seen in military documents, medical journals, novels, films, television shows, and memoirs, soldiers' invisible wounds are not innate cracks in individual psyches that break under the stress of war. Instead, the generation of weary warriors is caught up in wider social and political networks and institutions—families, activist groups, government bureaucracies, welfare state programs—mediated through a military hierarchy, psychiatry rooted in mind-body sciences, and various cultural constructs of masculinity. This book offers a history of military psychiatry from the American Civil War to the latest Afghanistan conflict. The authors trace the effects of power and knowledge in relation to the emotional and psychological trauma that shapes soldiers' bodies, minds, and souls, developing an extensive account of the emergence, diagnosis, and treatment of soldiers' invisible wounds.

The lives of the talented Aubrey children have long been clouded by their father's genius for instability, but his new job in the London suburbs promises, for a time at least, reprieve from scandal and the threat of ruin. Mrs. Aubrey, a former concert pianist, struggles to keep the family afloat, but then she is something of a high-strung eccentric herself, as is all too clear to her daughter Rose, through whose loving but sometimes cruel eyes events are seen. Still, living on the edge holds the promise of the unexpected, and the Aubreys, who encounter furious poltergeists, turn up hidden masterpieces, and come to the aid of a murderess, will find that they have adventure to spare. In *The Fountain Overflows*, a 1957 best seller, Rebecca West transmuted her own volatile childhood into enduring art. This is an unvarnished but affectionate picture of an extraordinary family, in which a remarkable stylist and powerful intelligence surveys the elusive boundaries of childhood and adulthood, freedom and dependency, the ordinary and the occult.

A character-driven study of some of the darkest moments in our national history, when America failed to prevent or stop 20th-century campaigns to exterminate Armenians, Jews, Cambodians, Iraqi Kurds, Bosnians, and Rwandans.

The result is an honest and unforgettable novel of love, sacrifice, and devotion, a major literary achievement from the acclaimed author of *Black Narcissus* and *The River*. leading historians and seven policy advisors around the central development issues of social protection, public health, public education and natural resource management. How did certain ideas, and not others, gain traction in shaping particular policy responses? How did the content and effectiveness of these responses vary across different countries, and indeed within them? Achieving this is not merely a matter of seeking to 'know more' about specific times, places and issues, but recognising the distinctive ways in which historians rigorously assemble, analyse and interpret diverse forms of evidence. This book will appeal to students and scholars in development studies, history, international relations, politics and geography as well as policy makers and those working for or studying NGOs.

This book surveys the entire range of crime films, including important subgenres such as the gangster film, the private eye film, film noir, as well as the victim film, the erotic thriller, and the crime comedy. Focusing on ten films that span the range of the twentieth century, Thomas Leitch traces the transformation of the three leading figures that are common to all crime films: the criminal, the victim and the avenger. Analyzing how each of the subgenres establishes oppositions among its ritual antagonists, he shows how the distinctions among them become blurred throughout the course of the century. This blurring, Leitch maintains, reflects and fosters a deep social ambivalence towards crime and criminals, while the criminal, victim and avenger characters effectively map the shifting relations between subgenres, such as the erotic thriller and the police film, within the larger genre of crime film that informs them all.
