Since it was first published in 1993, the Sourcebook for Research in Music has become an invaluable resource in musical scholarship. The balance between depth of content and brevity of format makes it ideal for use as a textbook for students, a reference work for faculty and professional musicians, and as an aid for librarians. The introductory chapter includes a comprehensive list of bibliographical terms with definitions; bibliographic terms in German, French, and Italian; and the plan of the Library of Congress and the Dewey Decimal music classification systems. Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items, this updated and expanded edition accounts for the rapid growth in new editions of standard works, in fields such as ethnomusicology, performance practice, women in music, popular music, education, business, and music technology. These enhancements to its already extensive bibliographies ensures that the Sourcebook will continue to be an indispensable reference for years to come.

This best-selling survey text describes American music as a collection of distinct strains of music--including popular, folk, sacred, classical, blues, jazz, and rock music - that have evolved into a musical panorama reflecting the nation's unique character. By comparing and contrasting America's musical styles across regions and time periods, Kingman delivers a clear vision of American music that encompasses the historical sources of all American music, the ways in which diverse styles have influenced each other, and the cultural contributions of America's innovative and original composers.

A Companion to the Literature and Culture of the American West presents a series of essays that explore the historic and contemporary cultural expressions rooted in America's western states. Offers a comprehensive approach to the wide range of cultural expressions originating in the west Focuses on the intersections, complexities, and challenges found within and between the different historical and cultural groups that define the west's various distinctive regions Addresses traditionally familiar icons and ideas about the west (such as cowboys, wide-open spaces, and violence) and their

intersections with urbanization and other regional complexities Features essays written by many of the leading scholars in western American cultural studies

Prev. ed. published under title: Introducing American folk music.

For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as *Land of Hope* brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of *Land of Hope* will find both in its pages. All school children know the story of the fatal duel between Hamilton and Burr - but do they really? In this remarkable retelling, Thomas Fleming takes the reader into the post-revolutionary world of 1804, a chaotic and fragile time in the young country as well as a time of tremendous global instability. The success of the French Revolution and the proclamation of Napoleon as First Consul for Life had enormous impact on men like Hamilton and Burr, feeding their own political fantasies at a time of perceived Federal government weakness and corrosion. Their hunger for fame spawned antagonisms that wreaked havoc on themselves and their families and threatened to destabilize the fragile young American republic. From that poisonous brew came the tangle of regret and anger and ambition that drove the two to their murderous confrontation in Weehawken, New Jersey. Readers will find this is popular narrative history at its most authoritative, and authoritative history at its most readable.

Nasher catalog for an exhibit on art that involves records, which will open in October 2009.

Filled with fresh interpretations and information, puncturing old myths and challenging new ones, *Battle Cry of Freedom* will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative

fully integrates the political, social, and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War--the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry--and then moves into a masterful chronicle of the war itself--the battles, the strategic maneuvering on both sides, the politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war--slavery--and adopt a policy of emancipation as a second war aim. This "new birth of freedom," as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing "second American Revolution" we call the Civil War, a war that transformed a nation and expanded our heritage of liberty.

Before one can seriously study, analyze, or theorize about a subject, one needs to understand its foundation and be comfortable with its basic premises. Music in North America and the West Indies from the Discovery to 1850, in conjunction with the author's first Scarecrow Press book, Music in Ibero-America to 1850, intends to lay the groundwork for the musical and cultural history of North America. Music in North America is a survey of the people, events, and institutions that helped shape music in the early centuries of North America. Collecting information from various historical data, author Daniel Mendoza de Arce presents straightforward descriptions of both religious and secular early music. Basic historical information about the Renaissance and Baroque periods in North America and the Caribbean are presented chronologically through 1850 along musical, geographic, and cultural lines. A valuable study for researchers, students, and interested readers alike, this treatise helps readers achieve a sense of perspective and a broader understanding of their place in world culture.

An illuminating, entertaining tour of the physical imperfections that make us human We humans like to think of ourselves as highly evolved creatures. But if we are supposedly evolution's greatest creation, why do we have such bad knees? Why do we catch head colds so often—two hundred times more often than a dog does? How come our wrists have so many useless bones? Why is the vast majority of our genetic code pointless? And are we really supposed to swallow and breathe through the same narrow tube? Surely there's been some kind of mistake. As professor of biology Nathan H.

Lents explains in *Human Errors*, our evolutionary history is nothing if not a litany of mistakes, each more entertaining and enlightening than the last. The human body is one big pile of compromises. But that is also a testament to our greatness: as Lents shows, humans have so many design flaws precisely because we are very, very good at getting around them. A rollicking, deeply informative tour of humans' four billion year long evolutionary saga, *Human Errors* both celebrates our imperfections and offers an unconventional accounting of the cost of our success.

This volume presents a global narrative of the origins of the modern world. Unlike most studies, which assume that the rise of the West is the story of the coming of the modern world, this history accords importance to the 'underdeveloped world'.

(Meredith Music Resource). This new publication is an extension of *The Winds of Change*, that traced the development of the American wind band/ensemble in the twentieth century. This book covers all the important conferences, concerts, events, initiatives, and compositions created for wind bands/ensembles during the first decade of the twenty-first century. In gathering information for this book, the author examined hundreds of scores, listened to dozens of recordings, attended conferences, interviewed wind band/ensemble director-conductors, and surveyed numerous professional journals and magazines. The result is a book that provides a panorama view of the American wind band/ensemble scene from 2000-2010.

This concise, accessible book describes American music as a panorama of distinct yet parallel streams--hip-hop and Latin; folk and country; gospel and classical; jazz, blues, and rock--that reflect the uniquely diverse character of the United States. Comparing and contrasting musical styles across regions and time, the author delivers a vision of American music both exuberant and inventive--a music that arises out of the history and musical traditions of the many immigrants to America's shores. Music Cultures in the United States is a basic textbook for an Introduction to American Music course. Taking a new, fresh approach to the study of American music, it is divided into three parts. In the first part, historical, social, and cultural issues are discussed, including how music history is studied; issues of musical and social identity; and institutions and processes affecting music in the U.S. The heart of the book is devoted to American musical cultures: American Indian; European; African American; Latin American; and Asian American. Each cultural section has a basic introductory article, followed by case studies of specific musical cultures. Finally, global musics are addressed, including Classical Musics and Popular Musics, as they have been performed in the U.S.. Each article is written by an expert in the field, offering in-depth, knowledgeable, yet accessible writing for the student. The accompanying CD offers musical examples tied to each article. Pedagogic material includes chapter overviews,

questions for study, and a chronology of key musical events in American music and definitions in the margins.

Writing the Nation: A Concise Introduction to American Literature 1865 to Present, is designed to continue the preservation of famous American literary works in the minds of college students.

This volume makes available the full range of the American/Canadian musical experience, covering-for the first time in print-all major regions, ethnic groups, and traditional and popular contexts. From musical comedy to world beat, from the songs of the Arctic to rap and house music, from Hispanic Texas to the Chinese communities of Vancouver, the coverage captures the rich diversity and continuities of the vibrant music we hear around us. Special attention is paid to recent immigrant groups, to Native American traditions, and to such socio-musical topics as class, race, gender, religion, government policy, media, and technology. An exhaustive reference detailing the mirth and music of country music humorists and comedians

This fully updated second edition is a selective annotated bibliography of all relevant published resources relating to church and worship music in the United States. Over the past decade, there has been a growth of literature covering everything from traditional subject matter such as the organ works of J.S. Bach to newer areas of inquiry including folk hymnology, women and African-American composers, music as a spiritual healer, to the music of Mormon, Shaker, Moravian, and other smaller sects. With multiple indices, this book will serve as an excellent tool for librarians, researchers, and scholars sorting through the massive amount of material in the field.

During his senior year at an elite New England prep school, a young man who had struggled to find it with his contemporaries finds his life unraveling thanks to the school's obsession with literary figures and their work during a visit from an author for whose blessing a young writer would do almost anything. By the author of *This Boy's Life*. A first novel. Reprint. 75,000 first printing. Thirty full-page black-and-white drawings on British, French, German, and American uniforms from the American revolution, with brief description of the regiment and full instructions for accurate coloring of the uniform. Includes full color illustrations of each uniform on the covers.

During one month in the autumn of election year 2000, scores of movie-business strivers are focused on one goal: getting a piece of an elusive, but surely huge, television saga, the one that opens with Huns sweeping through Mongolia and closes with a Mormon diviner in the Las Vegas desert; the sure-to-please-everyone multigenerational TV miniseries about diviners, those miracle workers who bring water to perpetually thirsty (and hungry and love-starved) humankind. Among the wannabes: Vanessa Meandro, hot-tempered head of Means of Production, an indie film company; her harried and varied staff; a Sikh cab driver, promoted to the office of -theory and practice of TV; a bipolar bicycle messenger, who makes a fateful mis-delivery; two celebrity publicists, the Vanderbilt girls; a thriller writer who gives Botox parties; the daughter of an L.A. big-shot, who is hired to fetch Vanessa's Krispy Kremes and more; a word man who coined the phrase -- inspired by a true story; and a supreme court justice who wants to write the script. A few true artists surface in the course of Moody's rollicking but intricately woven novel, and real emotion eventually blossoms for most of Vanessa's staff at Means of Production, even herself. *The Diviners* is a cautionary tale

about pointless ambition; a richly detailed look at the interlocking worlds of money, politics, addiction, sex, work, and family in modern America; and a masterpiece of comedy that will bring Rick Moody to a still higher level of appreciation.

This groundbreaking introductory textbook explores the emergence and development of the Bible, placing it in the broader context of world history. It particularly focuses on the role of a number of empires in the formation of the Biblical canon. Explores the historical role the Bible has played in subsequent empires, and its enduring influence in the contemporary world, resulting in a balanced overview of the historical forces that shaped the canon Explores topics including: the formation of the Pentateuch, the development of the earliest Old Testament stories, the historical study of the Gospel traditions surrounding Jesus; the influence of Roman rule in the provinces where Paul spent much of his ministry; and the interpretation of the Biblical texts and their use by different faith communities Incorporates numerous student-friendly features throughout, including study questions, review sections, bibliographies, timelines, and illustrations and photos

American Music: A Panorama, Concise Cengage Learning

This best-selling survey text describes American music as a panorama of distinct yet parallel streams-popular, folk, sacred, and classical-that reflect the uniquely diverse character of the United States. Comparing and contrasting musical styles across regions and time, Candelaria and Kingman deliver a vision of American music both exuberant and inventive, a music that arises out of the history and musical traditions of the many immigrants to America's shores.

Beginning at the threshold of the modern era, with the late Romanticism of Debussy and Mahler, the author traces the new directions of music through composers such as Alban Berg and Anton Webern, Charles Ives, Edgard Varese and Olivier Messiaen, Karlheinz Stockhausen, Pierre Boulez, Philip Glass and Elliott Carter. The various paths are made clear by a concentration on the major works and turningpoints in the music of our time: the new rhythmic force that came in with *The Rite of Spring*, the unbounded universe of Schoenberg's atonality, the undreamed-of possibilities opened up by electronics, the role of chance in the music of John Cage and the astonishing diversity of minimalism.

Provides a detailed critical and musical analysis of nearly 150 songs related to and inspired by the Vietnam War and a selected discography of both original releases and reissues.

Presents a history of popular music during the 1960s and 1970s and weighs its influence on the art, politics, and culture of the era. This briefer, more accessible edition of our best-selling survey text describes American music as a panorama of distinct yet parallel streams - vernacular, sacred, and classical - that reflect the diverse character of the United States. Comparing and contrasting musical styles across regions and time, Candelaria and Kingman deliver a vision of American music both exuberant and inventive, a music that arises out of the history and musical traditions of the many immigrants to America's shores. Prepare future managers to face the differences in business communication across cultures. With the globalization of the world economy, it is imperative for current and future managers to be sensitive to the differences they will encounter in intercultural communication. To help make readers aware of these differences, *Intercultural Business Communication* contains practical guidelines and information on how to conduct negotiations across countries, write business letters in different societies, and includes the general “dos” and “don'ts” in international business. The fifth edition contains new cases, updated examples, and information from ten newly published books and journal articles. Written for Introductory Sociology and Sociology of Popular Music courses, the second edition of *Understanding Society through Popular Music* uses popular music to illustrate fundamental social institutions, theories, sociological concepts, and processes. The authors use music, a social phenomenon of great interest, to draw students in and bring life to their study of sociology. The new edition has been updated with cutting edge thinking on and current examples of subcultures, politics, and technology.
