

## Americanism Essay Paper

A one-of-a-kind anthology of American essays on a wide range of subjects by a dazzling array of mid-century writers at the top of their form. The three decades that followed World War II were an exceptionally fertile period for American essays. The explosion of journals and magazines, the rise of public intellectuals, and breakthroughs in the arts inspired a flowering of literary culture. At the same time, the many problems that confronted mid-century America--racism, sexism, nuclear threat, war, poverty, and environmental degradation among them--proved fruitful topics for America's best minds. In *The Golden Age of the American Essay*, Phillip Lopate assembles a dazzling array of famous writers, critics, sociologists, theologians, historians, activists, theorists, humorists, poets, and novelists. Here are writers like James Agee, E. B. White, A. J. Liebling, Randall Jarrell, and Mary McCarthy, pivoting from the comic indignities of daily life to world peace, consumerism, and restaurants in Paris. Here is Norman Mailer on Jackie Kennedy, Vladimir Nabokov on *Lolita*, Martin Luther King, Jr.'s Letter from Birmingham Jail, and Richard Hofstadter's *The Paranoid Style in American Politics*. Here are Gore Vidal, Rachel Carson, James Baldwin, Susan Sontag, John Updike, Joan Didion, and many more, in a treasury of brilliant writing that has stood the test of time.

The incredible true story of a boy living in war-torn Somalia who escapes to America--first by way of the movies; years later, through a miraculous green card. Abdi Nor Iftin first fell in love with America from afar. As a child, he learned English by listening to American pop artists like Michael Jackson and watching films starring action heroes like Arnold Schwarzenegger. Sporting American clothes and dance moves, he became known around Mogadishu as Abdi American, but when the radical Islamist group al-Shabaab rose to power in 2006, it suddenly became dangerous to celebrate Western culture. Desperate to make a living, Abdi used his language skills to post secret dispatches online, which found an audience of worldwide listeners. But as life in Somalia grew more dangerous, Abdi was left with no choice but to flee to Kenya as a refugee. In an amazing stroke of luck, Abdi won entrance to the U.S. in the annual visa lottery, though his route to America--filled with twists and turns and a harrowing sequence of events that nearly stranded him in Nairobi--did not come easily. Now a proud resident of Maine, on the path to citizenship, Abdi Nor Iftin's dramatic, deeply stirring memoir is truly a story for our time- a vivid reminder of why western democracies still beckon to those looking to make a better life.

This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic (such as sermons, aphorisms), individual major works, notable writers, and periodicals that created a market for essays, and particularly famous or significant essays. The preface details the historical

development of the essay, and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings list, additional readings, and anthologies

Organized primarily in terms of genre, this handbook includes original research on key concepts, as well as analysis of interesting texts from throughout colonial America. Separate chapters are devoted to literary genres of great importance at the time of their composition that have been neglected in recent decades.

Alphabetically arranged entries include discussions of individual authors, literary movements, institutions, notable texts, literary developments, themes, ethnic literatures, and "topic" essays.

A monumental, canon-defining anthology of three centuries of American essays, from Cotton Mather and Benjamin Franklin to David Foster Wallace and Zadie Smith--selected by acclaimed essayist Phillip Lopate. Not only an education but a joy. This is a book for the ages. --Rivka Galchen, author of *Atmospheric Disturbances* The essay form is an especially democratic one, and many of the essays Phillip Lopate has gathered here address themselves--sometimes critically--to American values. We see the Puritans, the Founding Fathers and Mothers, and the stars of the American Renaissance struggle to establish a national culture. A grand tradition of nature writing runs from Audubon, Thoreau, and John Muir to Rachel Carson and Annie Dillard. Marginalized groups use the essay to assert or to complicate notions of identity. Lopate has cast his net wide, embracing critical, personal, political, philosophical, literary, polemical, autobiographical, and humorous essays. Americans by birth as well as immigrants appear here, famous essayists alongside writers more celebrated for fiction or poetry. The result is a dazzling overview of the riches of the American essay.

Imparting an invaluable perspective on contemporary domestic affairs, a classic work of political theory examines the competing forces in American political discourse and how fringe groups can influence--and derail--the larger agendas of a political party. Reprint. 12,500 first printing.

Presents the life of Benjamin Franklin, including how the climate of the time influenced his philosophies and works, his extremely active work life, and his role in the development of the United States.

"With extensive research and a cultural context, Stuckey-French describes the many reasons essays grew in appeal and importance for Americans. He also explores the rise of E.B. White, considered by many the greatest American essayist of the first half of the twentieth century... This book is one of the first to consider and reflect on the contributions of E.B. White to the personal essay tradition and American culture more generally"--Book jacket.

"The essays are clearly chosen to be different in style and content from the 'malestream' canon, and the book as a whole is full of old friends and welcome new surprises.... It will be of interest not only to Latin Americanists, but also to the wider community interested in non-European gender studies and cultural studies." —Debra A. Castillo, Cornell University Latin American intellectual history is largely founded on essayistic writing. Women's essays have always formed a part of this rich tradition, yet they have seldom received the respect they merit and are often omitted entirely from anthologies. This volume and its earlier companion, *Reinterpreting the Spanish American Essay: Women Writers of the 19th and 20th Centuries*, seek to remedy that neglect. This book collects thirty-six notable essays by twenty-two women writers,

including Flora Tristan, Gertrudis Gómez de Avellaneda, Clorinda Matto de Turner, Victoria Ocampo, Alfonsina Storni, Rosario Ferré, Christina Peri Rossi, and Elena Poniatowska. All of the essays are here translated into English for the first time, many by the same scholars who wrote critical studies of the authors in the first volume. Each author's work is also prefaced by a brief biographical sketch.

Vols. 277-230, no. 2 include Stuff and nonsense, v. 5-6, no. 8, Jan. 1929-Aug. 1930. A monthly register of the most important works published in North and South America, in India, China, and the British colonies: with occasional notes on German, Dutch, Danish, French, Italian, Spanish, Portuguese, and Russian books.

The United States is an exceptional place to call home thanks to the character of the American people. With conviction and urgency, Ed Feulner and Brian Tracy affirm our core tenets—from patriotism and optimism to faith and generosity—and challenge all of us to live out the timeless principles of citizenship. Packed with engaging stories, insightful profiles, and eye-opening statistics, *The American Spirit* serves as an indispensable primer on the bedrock belief that an indomitable spirit does exist, that it defines us as a people, and that it must be preserved for the nation to flourish.

The idea that American education has been steered by progressivism is accepted as fact by liberals and conservatives alike. Adam Laats shows that this belief is wrong. Calling to center stage conservatives who shaped America's classrooms, he shows that in the long march of American public education, progressive reform has been a beleaguered dream.

Vols. 227-230, no. 2 include: Stuff and nonsense, v. 5-6, no. 8, Jan. 1929-Aug. 1930. A collection of the year's best essays, selected by award-winning journalist and New Yorker staff writer Kathryn Schulz "The world is abundant even in bad times," guest editor Kathryn Schulz writes in her introduction, "it is lush with interestingness, and always, somewhere, offering up consolation or beauty or humor or happiness, or at least the hope of future happiness." The essays Schulz selected are a powerful time capsule of 2020, showcasing that even if our lives as we knew them stopped, the beauty to be found in them flourished. From an intimate account of nursing a loved one in the early days of the pandemic, to a masterful portrait of grieving the loss of a husband as the country grieved the loss of George Floyd, this collection brilliantly shapes the grief, hardship, and hope of a singular year. The Best American Essays 2021 includes ELIZABETH ALEXANDER - HILTON ALS - GABRIELLE HAMILTON - RUCHIR JOSHI - PATRICIA LOCKWOOD- CLAIRE MESSUD - WESLEY MORRIS - BETH NGUYEN - JESMYN WARD and others

"The first decades of the twenty-first century have witnessed a blossoming of creative nonfiction. In this extraordinary collection, Phillip Lopate gathers essays by forty-seven of America's best contemporary writers, mingling long-established eminences with newer voices and making room for a wide variety of perspectives and styles. *The Contemporary American Essay* is a monument to a remarkably adaptable form and a treat for anyone who loves fantastic writing"--

Latin American women have long written essays on topics ranging from gender identity and the female experience to social injustice, political oppression, lack of educational opportunities, and the need for female solidarity in a patriarchal environment. But this rich vein of writing has often been ignored and is rarely studied. This volume of twenty-one original studies by noted experts in Latin American literature seeks to recover and

celebrate the accomplishments of Latin American women essayists. Taking a variety of critical approaches, the authors look at the way women writers have interpreted the essay genre, molded it to their expression, and created an intellectual tradition of their own. Some of the writers they treat are Flora Tristan, Gertrudis Gómez de Avellaneda, Clorinda Matto de Turner, Victoria Ocampo, Alfonsina Storni, Rosario Ferré, Christina Peri Rossi, and Elena Poniatowska. This book is the first of a two-volume project that will reexamine the Latin American essay from a feminist perspective. The second volume, also edited by Doris Meyer, contains thirty-six essays in translation by twenty-two women authors.

Across the span of more than forty years, Raphael Dorman O'Leary, a professor of English rhetoric and English literature, taught his students at the University of Kansas to think straight, to put sinew into their sentences, and to embrace the magnificent literary treasures of their mother tongue. The English Professor, by authors Margaret R. O'Leary and Dennis S. O'Leary, offers a narrative of the life, work, and times of a revered Midwestern university English teacher. This memoir narrates how the professor, born in 1866, was raised on a Kansas farm in the post-bellum era. Like his father before him, he was committed to a life of learning and teaching. His colleagues knew him for his unpretentious exterior, honesty, and integrity, and his flashing anger at cheapness, vulgarity, pretense, and, above all, charlatanism. When Professor O'Leary died after a short illness in 1936, his personal effects passed through two generations to his grandson, Dennis S. O'Leary, who, with his wife, Margaret, discovered his papers while restoring a family house. The trove of material served as the core resource for the compilation of The English Professor. It provides insights into the histories of Kansas and the University of Kansas and of Harvard University, as well as perspectives on higher education, including the teaching of English rhetoric, language, literature, journalism, and oratory in the United States.

In his new introduction, Whitfield sets the scene of the early twentieth century to show what inspired Horace Kallen to write this book. He delves deeply into his background, discussing the influences on Kallen's life and work. Whitfield also examines the many changes that have occurred since Culture and Democracy in the United States was first written, and reveals that many of the ideas espoused by Kallen have become reality.

In 1773 John Adams observed that one source of tension in the debate between England and the colonies could be traced to the different conceptions each side had of the terms "legally" and "constitutionally"--different conceptions that were, as Shannon Stimson here demonstrates, symptomatic of deeper jurisprudential, political, and even epistemological differences between the two governmental outlooks. This study of the political and legal thought of the American revolution and founding period explores the differences between late eighteenth-century British and American perceptions of the judicial and jural power. In Stimson's book, which will interest both historians and theorists of law and politics, the study of colonial juries provides an incisive tool for organizing, interpreting, and evaluating various strands of American political theory, and for challenging the common assumption of a basic unity of vision of the roots of Anglo-American jurisprudence. The author introduces an original concept, that of "judicial space," to account for the development of the highly political role of the Supreme Court,

a judicial body that has no clear counterpart in English jurisprudence. Originally published in 1990.
