"This open access book explains why a democratic reckoning will start when European societies win the fight against COVID-19. Have democracies successfully mastered the challenges of the pandemic? How has the coronavirus impacted democratic principles, processes and values? At the heels of the worst public health crisis in living memory, this book shines an unforgiving light on the side-lining of parliaments, the ruling by governmental decrees and the disenfranchisement of the people in the name of fighting COVID-19. Pandemocracy in Europe situates the dramatic impact of COVID-19, and the fight against the virus, on Europe's democracies. Throughout its 17 contributions the book sets the theoretical stage and answers the democratic questions engaged by health emergencies. Seven national case studies - UK, Germany, Italy, Sweden, Hungary, Switzerland, and France - show, each time with a pronounced focus on a particular element of democracy, how different states reacted to the pandemic. The book also shifts the analytical gaze beyond the nation state towards international settings, looking at the effects on the European Union and considering the impact on populist movements. Bridging disciplines and uniting a stellar cast of scholars on democracy, rule of law and

constitutionalism, the book provides contours and nuances to a year of debates in political science, international relations and law on the impact of the virus on democracies. In times of uncertainty, Pandemocracy in Europe provides analysis and answers to the democratic challenges of the coronavirus. The Bilingual Aphasia Test is a comprehensive language test designed to assess the differential loss or sparing of various language functions in previously bilingual individuals. The individual is tested, separately, in each language he or she previously used, and then in the two languages simultaneously. The testing is multimodal -- sampling hearing, speaking, reading, and writing; and multidimensional -- testing various linguistic levels (phonological, morphological, syntactic, lexical, and semantic), tasks (comprehension, repetition, judgment, lexical access and propositionizing), and units (words, sentences, and paragraphs). The BAT is structured as follows: * To test a bilingual aphasic, you will need the following testing elements: the stimulus books for each of the languages in which the individual was formerly fluent, the single-language tests for each of these languages, as well as the bilingual test that links them. For example, if you are testing an English-French bilingual aphasic, you will need an English stimulus book, a French stimulus book, an English single-language test, a French single-language test, and an English-French bilingual test. * The BAT can also be used to test monolingual

aphasics. To test for monolingual aphasia, you will need the stimulus book and the single-language test in the language in which the individual was formerly fluent. * Professor Paradis' book, *The Assessment of Bilingual Aphasia*, provides the background material and serves as the manual for the test. The BAT is available in dozens of languages and language pairs. There are now 106 bilingual pairs available. Additional single-language and bilingual tests are being prepared continuously. If the language (or language pair) you need is not listed, please call LEA to find out if and when it will be available. Single-language materials are now available in: Amharic Arabic (Jordanian) Arabic (Maghrebian) Armenian (Eastern) Armenian (Western) Azari Basque Berber Bulgarian Catalán Chinese (Cantonese) Chinese (Mandarin) Croatian Czech Danish Dutch English Farsi Finnish French Friulian Galician German Greek Hebrew Hindi Hungarian Icelandic Inuktitut Italian Japanese Kannada Korean Kurdish Latvian Lithuanian Luganda Malagasy Norwegian Oryia Polish Portuguese (Brazilian) Portuguese (European) Rumanian Russian Somali Spanish (American) Spanish (European) Swahili Swedish Tagalog Tamil Turkish Ukrainian Urdu Vietnamese Yiddish Bilingual pairs are now available in: Amharic/English Amharic/French Arabic/Armenian Arabic/English Arabic/French Arabic/Somali Arabic/Swahili Armenian/English Armenian/Farsi Armenian/French Armenian/Russian Basque/English Basque/French Basque/Spanish Berber/English Berber/French Bulgarian/English Bulgarian/French Bulgarian/German Bulgarian/Russian Catalán/Spanish

Challenging the conventional view that engineering
design has its roots in "theory" and consists in the

application of theory in "practice", this book aims to increase awareness of the philosophy of engineering amongst practising engineers, students and academics. Never underestimate the power of friendship. When Colie goes to spend the summer at the beach, she doesn't expect much. But Colie didn't count on meeting Morgan and Isabel. Through them, she learns what true friendship is all about, and finally starts to realize her potential. And that just might open the door to her first chance at love. . . . "A down-to-earth Cinderella story. . . captures that special feeling." —The New York Post Also by Sarah Dessen: *Along for the Ride* *Dreamland* *Just Listen* *Lock and Key* *The Moon and More* *Someone Like You* *That Summer* *This Lullaby* *The Truth About Forever* *What Happened to Goodbye*

This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all

the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist. This substantially revised second edition takes into account the provisions of the revised Indian Code of practice for Plain and Reinforced Concrete IS 456 : 2000. It also provides additional data on detailing of steel to make the book more useful to practicing engineers. The chapter on Limit State of Durability for Environment has been completely revised and the new provisions of the code such as those for design for shear in reinforced concrete, rules for shearing main steel in slabs, lateral steel in columns, and stirrups in beams have been explained in detail in the new edition. This comprehensive and systematically organized book is intended for undergraduate students of Civil Engineering, covering the first course on Reinforced Concrete Design and as a reference for the practicing engineers. Besides covering IS 456 : 2000, the book also deals with the British and US Codes. Advanced topics of IS 456 : 2000 have been discussed in the companion volume Advanced Reinforced Concrete Design (also published by Prentice-Hall of India). The two books together cover all the topics in IS 456 : 2000 and many other topics which are so important in modern methods of design of reinforced concrete.

Vroom! Vroom! From the backseat, what do you see? Whether on a cross-country road trip or a quick jaunt across town, there's no end to what a child can see from the backseat of a car. Using familiar road signs, this striking book introduces little ones not just to the alphabet but also to the world around them. Equally perfect for transportation-obsessed children and those just learning to read, this fresh and dynamic picture book will entertain and educate at home, in the classroom, and on the go.

Taoist masters only talk about the Way. Tao means the Way - they don't talk about the goal at all. They say: The goal will take care of itself; you need not worry about the goal. If you know the Way, then you know the goal, because the goal is not at the very end of the Way, the goal is all along the Way - each moment, wherever you are, you are at the goal if you are on the Way. To be on the Way is to be at the goal. Hence, Taoists don't talk about the goal, they don't talk about God, they don't talk about moksha, nirvana, enlightenment - no, not at all. Very simple is their message: You have to find the way.

The Material Subject emphasises how bodily and material cultures combine to make and transform subjects dynamically. The book is based on the French Matière à Penser (MaP) school of thought, which draws upon the ideas of Mauss, Schilder, Foucault and Bourdieu, among others, to enhance the anthropological study of embodiment, practices, techniques, materiality and power. Through theoretical sophistication and empirical field research, case studies from Europe, Africa and Asia bring MaP's ideas into dialogue with other strands of material culture studies in the English-speaking world. These studies mediate different scales of engagement through a sensori-motor, affective and cognitive focus on practices of making and doing. Examples range from the precarity of professional divers in French public works to the gendered subjectivity of female carpet weavers in Morocco, from the ways Swiss watchmakers transmit craft knowledge to how Hindu devotees in India make efficacious use of altars, and from the enskilment of Paiwan indigenous people in Taiwan to the prestige of women's wild silk wrappers in Burkina Faso. The chapters are organised according to domains of

practice, defined as 'matter of' work and technology, heritage, politics, religion and knowledge. Scholars and students with an interest in material culture will gain valuable access to global research, rooted in a specific intellectual tradition.

A tale as old as time is made new in Ashley Poston's fresh, geeky retelling of *Beauty and the Beast*—now with a bonus *Starfield* story! In this third book of the *Once Upon a Con* series, Rosie Thorne is feeling stuck—on her college application essays, in her small town, and on that mysterious General Sond cosplayer she met at *ExcelsiCon*. Most of all, she's stuck in her grief over her mother's death. Her only solace was her late mother's library of rare *Starfield* novels, but even that disappeared when they sold it to pay off hospital bills. On the other hand, Vance Reigns has been Hollywood royalty for as long as he can remember—with all the privilege and scrutiny that entails. When a tabloid scandal catches up to him, he's forced to hide out somewhere the paparazzi would never expect to find him: *Small Town USA*. At least there's a library in the house. Too bad he doesn't read. When Vance's and Rosie's paths collide, sparks do not fly. But as they begrudgingly get to know each other, their careful masks come off—and they may just find that there's more risk in shutting each other out than in opening their hearts. The nineteenth edition of *Modern Microeconomics* continues to provide a detailed understanding of the

foundations of microeconomics. While it provides a solid foundation for economic analysis, it also lucidly explains the mathematical derivations of various microeconomic concepts. This textbook would be extremely useful for the students of economics.

Founder of the Ancient and Mystic Order Rosae Crucis (AMORC), a modern revival Rosicrucian order headquartered at San Jose, California. Lewis was born in Frenchtown, New Jersey, November 25, 1883, of Welsh ancestry. In 1904 Lewis founded and served as president of the New York Institute for Psychical Research. The institute specialized in occult studies with emphasis on Rosicrucian teachings. The AMORC was organized in several stages over the next years, and by 1917 held its first national convention in Pittsburgh, at which Lewis established his plan to develop correspondence courses. AMORC taught philosophical and mystical practices in order to develop the latent faculties of man, and it sold literature by mail order. Lewis himself authored the basic set of correspondence lessons and a number of the books published by AMORC. This is the authors and the orders view on the subject of the soul and reincarnation

More than personal memoir, Donald Kennedy's story is not only a chronicle of watershed years in the history of Stanford University, but also a reflection on academia's perennial concerns. The story builds from his childhood and family in New England through mentors at Harvard to reflections on his early years at Stanford. What is the scope of a teacher's responsibilities? What is the proper balance between research and teaching? How far can a professor of literature stretch activism and free speech before losing tenure? How can the University look so rich and feel so poor? While biology department head, Kennedy founded Human Biology, Stanford's first interdisciplinary program. As president, issues of ethnic diversity, student activism, multicultural curricula, patent

rights, divestment in South Africa, a student hostage crisis, and a major earthquake colored his pivotal years at Stanford. At the heart of Kennedy's journey has been the belief that one must give back to society as mentor, inspiring his students; as commissioner of the FDA, wrestling with issues of freedom and regulation; as editor of *Science*, confronting the clash of science and politics. Throughout the book, sidebar recollections from students, friends, and colleagues reflect on his caring encouragement and core humanity, his love of teaching, and a life profoundly committed to science and public service.

When Rainclouds Gather: Escaping South Africa and his troubled past, Makehaya crosses the border to Botswana, in the hope of leading a peaceful, purposeful life. In the village of Golema Mmidi he meets Gilbert, a charismatic Englishman who is trying to modernise farming methods to benefit the community. The two outsiders join forces, but their task is fraught with hazards: opposition from the corrupt chief, the pressures of tradition, and the unrelenting climate ever threaten to bring tragedy. *Maru: Margaret*, an orphan from a despised tribe, has lived her life under the loving protection of a missionary's wife. She has only to open her mouth to cause confusion, for her education and English accent do not fit her looks. When she accepts her first teaching post, in a remote village, Margaret is befriended by Dikeledi, sister of Maru the chief-in-waiting. Despite making influential friends, Margaret faces prejudice even from the children she teaches, and her presence causes Maru and his best friend - also

Dikeledi's lover - to become sworn enemies.

Living the Truth in Love grew out of the desire to provide answers to the questions posed for the Synod on Marriage called by Pope Francis: How can the Christian community give pastoral attention to families with persons with same-sex attraction? While avoiding any unjust discrimination, how can the Church give such persons pastoral care in light of the Gospel? How can God's will be proposed to them in their situation? People who want to be instruments of Christ's love to those who experience same-sex attraction (SSA) seek guidance on how best to do so. They need to listen to the stories of those who experience SSA and the stories of those who have accompanied them on their journeys. They also need to ground their responses in a genuine Christian understanding of the human person and of human sexuality. This volume includes essays that lay out the Christian view of the human person and of human sexuality, essays that challenge the bifurcation of sexualities into "heterosexual" and "homosexual". Topics include an explanation of the meaning of the word "disorder", a discussion of the therapeutic power of friendship, and an application of Saint John Paul II's personalism to the question of same-sex attraction. Psychologists and counselors explain various ways of affirming those who experience SSA and of leading them to experience the power of Christ's healing love. Several of those who experience SSA tell their touching and inspiring stories.
