HUMANITY: AN INTRODUCTION TO CULTURAL ANTHROPOLOGY, Eleventh Edition, offers a solid framework centered on globalization and culture change.

The text's engaging narrative provides new ways of looking at many of the challenges facing the world in this century, as students examine ethnic conflicts, globalization of culture and language, recent debates about gay marriage, increasing inequalities, population growth, hunger, and the survival of indigenous cultures. Throughout this highly acclaimed work, Peoples and Bailey explore the diversity of humanity and clearly demonstrate why an appreciation and tolerance of cultural differences is critical today. Understanding and addressing linguistic disadvantage must be a central facet of the social justice agenda of our time. This book explores the ways in which linguistic diversity mediates social justice in liberal democracies undergoing rapid change due to high levels of migration and economic globalization. Focusing on the linguistic dimensions of economic inequality, cultural domination and imparity of political participation, *Linguistic Diversity and Social Justice* employs a case-study approach to real-world instances of linguistic injustice. Linguistic diversity is a universal characteristic of human language but linguistic diversity is rarely neutral; rather it is accompanied by linguistic stratification and linguistic subordination. Domains critical to social justice include employment, education, and community participation. The book offers a detailed examination of the connection between linguistic diversity and inequality in these specific contexts within nation states that are organized as liberal democracies. Inequalities exist not only between individuals and groups within a state but also between states. Therefore, the book also explores the role of linguistic diversity in global injustice with a particular focus on the spread of English as a global language. While much of the analysis in this book focuses on language as a means of exclusion, discrimination and disadvantage, the concluding chapter asks what the content of linguistic justice might be.

Tourism is an activity that can have a truly major impact on sustainable development. In this book, similarities and differences between international tourists from China, France and the USA are investigated. Moreover, the significant role that culture holds in affecting travellers' buying behaviour has led growing number of researchers to study differences, particularly between Western and Asian countries. This book undertakes a critical review of these and relevant issues affecting the reliability and validity of cross-cultural research (CCR). In addition, small countries' exceptional natural beauty and unique cultural resources often look towards tourism development as an economic growth strategy. However, communities often disagree on the nature of development strategies. The authors of this book propose a standard methodology on sustainable

tourism for application in tourism destinations and enterprises in all the business cycle of tourism activity. Furthermore, due to the affect of globalisation and the rapid changes that occur in global higher education during the past decade, the concept of internationalisation in higher education institutions has been widely discussed. This book reviews various aspects of internationalisation and discusses its applications/implications in relation to the hospitality higher education. Other chapters provide an exploratory analysis of gender differences in perceptions of managerial work, investigate destination benchmarking in the context of measuring customer satisfaction as an output of performance improvement, and provides a theoretical framework that investigates the fundamentals of discounting and empirically assesses the efficacy of the discounting process in the lodging industry.

As part of a long series of Vietnam's policy objectives, English education has been identified as key to improving the quality of its rapidly expanding tertiary institutions and is crucial to the larger aim of modernising and internationalising its economy. Bringing together a wide range of Vietnamese and foreign English education scholars, and tertiary educational practitioners, this book documents the significant progress and challenges in the realisation of Vietnam's English language policies as they are enacted in the higher education sector. Changes to Vietnam's higher education system remain unstable, unsystematic, and insubstantial. This book provides insights into how recent Vietnamese government policy is providing for a substantial and comprehensive renewal of Vietnam's tertiary education as part of their 2020 plan. Academics and students of English education, language policy, and nation building within the context of increased globalisation and marketisation in developing nations and Vietnam, in particular, should find this book valuable.

"A finalist for the Pulitzer Prize, Duong Van Mai Elliott's *The Sacred Willow* illuminates recent Vietnamese history by weaving together the stories of the lives of four generations of her family. Beginning with her great-grandfather, who rose from rural poverty to become an influential landowner, and continuing to the present, Mai Elliott traces her family's journey through an era of tumultuous change. She tells us of childhood hours in her grandmother's silk shop, and of hiding while French troops torched her village, watching while blossoms torn by fire from the trees flutter "like hundreds of butterflies" overhead. She makes clear the agonizing choices that split Vietnamese families: her eldest sister left her staunchly anti-communist home to join the Viet Minh, and spent months sleeping in jungle camps with her infant son, fearing air raids by day and tigers by night. And she follows several family members through the last, desperate hours of the fall of Saigon--including one nephew who tried to escape by grabbing the skid of a departing American helicopter. Based on family papers, dozens of interviews, and a wealth of other research, this is not only a memorable family saga but a record of how the Vietnamese themselves have experienced their times"--

A groundbreaking survey of the Buddhist architecture of Southeast Asia, abundantly illustrated with new color photography and 3-D renderings Over the course of its 2,500-year history, Buddhism has found expression in countless architectural forms, from the great monastic complexes of ancient India to the fortified dzongs of Bhutan, the rock-carved temple grottoes of China, the wooden shrines of Japan, and the colorful wats of Cambodia, Laos, and Thailand. *Architecture of the Buddhist World*, a projected six-volume series by the noted architect and scholar Vikram Lall, represents a new

multidisciplinary approach to this fascinating subject, showing how Buddhist thought and ritual have interacted with local traditions across the Asian continent to produce masterpieces of religious architecture. The first volume in the series, *The Golden Lands*, is devoted to Southeast Asia, home to many of the most spectacular Buddhist monuments. Following a general introduction to the early history of Buddhism and its most characteristic architectural forms (the stupa, the temple, and the monastery), Lall examines the Buddhist architecture of Myanmar, Vietnam, Indonesia, Cambodia, Thailand, and Laos in turn. For each country, he provides both a historical overview and case studies of noteworthy structures. Lall's concise and accessible text is illustrated throughout with new color photography, as well as 3-D architectural renderings that make even the most complex structures easily comprehensible. The monuments that Lall considers in *The Golden Lands* range from the modest Bupaya stupa, constructed in Bagan, Myanmar, in the third century AD, to the vast complex of Borobudur in Central Java, the world's largest Buddhist monument; his achievement is to place them all within a single panorama of history, religion, and artistic innovation. Learn Vietnamese - Level 1: Introduction to Vietnamese  
Volume 1: Lessons 1-25  
Innovative Language Learning  
Vietnam  
A Global Studies Handbook  
ABC-CLIO  
This open access book approaches the anxieties inherent in food consumption and production in Vietnam. The country's rapid and recent economic integration into global agro-food systems and consumer markets spurred a new quality of food safety concerns, health issues and distrust in food distribution networks that have become increasingly obscured. This edited volume further puts the eating body centre stage by following how gendered body norms, food taboos, power structures and social differentiation shape people's ambivalent relations with food. It uncovers Vietnam's trajectories of agricultural modernisation against which consumers and producers manoeuvre amongst food self-sufficiency, security and abundance. *Food Anxiety in Globalising Vietnam* is explicitly about 'dangerous' food – regarding its materiality and meaning. It provides social science perspectives on anxieties related to food and surrounding discourses that travel between the local and the global, the individual and society and into the body. Therefore, the book's lens of food anxiety matters for social theory and for understanding the embeddedness and discontinuities of food globalizations in Vietnam and beyond. Due to its rich empirical base, methodological approaches and thematic foci, it will appeal to scholars, practitioners and students alike.--

We use politeness every day when interacting with other people. Yet politeness is an impressively complex linguistic process, and studying it can tell us a lot about the social and cultural values of social groups or even a whole society, helping us to understand how humans 'encode' states of mind in their words. The traditional, stereotypical view is that people in East Asian cultures are indirect, deferential and extremely polite - sometimes more polite than seems necessary. This revealing book takes a fresh look at the phenomenon, showing that the situation is far more complex than these stereotypes would suggest. Taking examples from Japanese, Korean, Chinese, Vietnamese and Singaporean Chinese, it shows how politeness differs across countries, but also across social groups and subgroups. This book is essential reading for those interested in intercultural communication, linguistics and East Asian languages.

In the second half of the twentieth century war raged in Vietnam. It was hard to know if it would ever end, and harder still to understand fully the rights and wrongs of the various protagonists. At last, the North Vietnamese turned out to be tough, resilient, and ultimately victorious. Patience in adversity sums up the Vietnamese character. After reunification in 1975 the Vietnamese experienced many difficulties. The immediate postwar years were harsh. Some fled into exile; others underwent "rehabilitation" to make them fit to live in a Communist state. To this were added economic hardships and even starvation. Since then, however, life has been transformed. The decision to abandon the centrally planned economy in favor of a "socialist market economy" was a bold step, as was the decision to throw open the doors and invite the world to invest in the new Vietnam. Visitors today will find a confident, independent people, nursing few if any grudges about the war. They are open and friendly, with a sense of humor and irony, and frankly curious about the outside world. Kind and generally helpful toward strangers, they are industrious, shrewd, and determined to improve their lot. Culture Smart! Vietnam outlines the history, culture, traditions, sensibilities, and modern way of life of the Vietnamese. It explains certain deep-seated attitudes, describes some of the social and cultural changes now under way, and gives practical advice on what to expect and how to behave in unfamiliar situations. It aims to help you discover for yourself the warmth and vast potential of this fascinating country and its delightful people.

Here are practice poems, novice precepts, and "Mindful Manners" on how to be a Buddhist monk and nun in the Plum Village tradition. With inspiration for every step in the monastic timetable from "Waking Up" and "Taking the First Steps of the Day" to "Lighting a Candle" in the evening, this book was originally compiled for novices who are still learning how to practice mindfulness in daily life. Thus it is perfect for beginners in mindfulness who wish to make progress in their practice at home, for young people considering a life in a spiritual community, and especially for followers of Thich Nhat Hanh who wish to deepen their understanding of the monastic way of life today.

An Introduction to Language introduces students to the fascinating study of human language. Engagingly and clearly written, it provides an overview of the key areas of linguistics from an Australian perspective. The International Phonetic Alphabet is represented by both HCE and MD versions, allowing lecturers to use whichever IPA system they prefer. The text is divided into four sections, and chapters take students through the nature of human language, the grammatical aspects and psychology of language, finishing with language and its relation to society. Chapters have also been reworked and revised to keep all syntax up-to-date and accurate. Popular features have been retained for this ninth edition including learning objectives and margin definitions in each chapter, along with summary tables inside the covers, assisting readers to learn core concepts and terminology. To supplement student learning, An Introduction to Language continues to offer the strongest resources package in the market, giving students access to CourseMate Express with interactive audio phonemes, as well as offering a new Test Bank for instructors.
