There's something unsettling about the stories in this book, something almost dangerous, while also being delightful. The characters are all unsteady on their feet in one way or another; they all yearn for connection and betterment, though each in very different ways, but they are often tripped up by their own baser impulses and existential insecurities. In this book, the grotesque and the outrageous are approached with tenderness and compassion. The flesh is weak; the timber is crooked; people are cruel to each other, and stupid, and hurtful - but beauty comes from strange sources.--adapted from publisher's description.

It was a simple incident in the life of James Clavell—a talk with his young daughter just home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will...."

NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Time matters to all of us. It dominates everyday discourse: diaries, schedules, clocks, working hours, opening times, appointments, weekdays and weekends, national holidays, religious festivals, birthdays, and anniversaries. But how do we, as unique individuals, subjectively experience time? The slowness of an hour in a boring talk, the swiftness of a summer holiday, the fleetingness of childhood, the endless wait for pivotal news: these are experiences to which we all can relate and of which we commonly speak. How can a writer not only report such experiences but also conjure them up in words so that readers share the frustration, the excitement, the anticipation, are on tenterhooks with a narrator or

character, or in melancholic mourning for a time long-since passed, which we never experienced ourselves? Erica Wickerson suggests that the evocation of subjective temporal experience occurs in every sentence, on every page, at every plot turn, in any narrative. *The Architecture of Narrative Time* offers a new template for understanding narrative time that combines close readings with analysis of the structural overview. It enables new ways of reading Thomas Mann; but also new ways of conceptualising narrative time in any literary work, not only in Mann's fiction and not only in texts that foreground the narration of time. The range of Mann's novels, novellas, and short stories is compared with other nineteenth- and twentieth-century works in German and in English to suggest a comprehensive approach to considering time in narrative.

A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. An instant New York Times bestsellerAn instant IndieBound bestsellerThe #1 Kids' Indie Next PickA Walter Award winner Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Boy was both praised and condemned. Orville Prescott of the New York Times wrote that “if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy.” Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for “obscenity” and “instigating hatred between the races.” Wright’s once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him—whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he made his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to “hurl words into this darkness and wait for an echo.” Seventy-five years later, his words continue to reverberate. “To read *Black Boy* is to stare into the heart of darkness,” John Edgar Wideman writes in his foreword. “Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear.” One of the great American memoirs, Wright’s account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time.
