Death of a Naturalist (1966) marked the auspicious debut of Seamus Heaney, a universally acclaimed master of modern literature. As a first book of poems, it is remarkable for its accurate perceptions and rich linguistic gifts.

Do men and women laugh at the same things? Is laughter contagious? Has anyone ever really died laughing? Is laughing good for your health? Drawing upon ten years of research into this most common-yet complex and often puzzling-human phenomenon, Dr. Robert Provine, the world's leading scientific expert on laughter, investigates such aspects of his subject as its evolution, its role in social relationships, its contagiousness, its neural mechanisms, and its health benefits. This is an erudite, wide-ranging, witty, and long-overdue exploration of a frequently surprising subject.

Though some critics have dismissed *The Excursion* as one of Wordsworth's weaker works, Wordsworth himself thought of it as one of his best. Like Peter Bell, *The Excursion* deals with a Wanderer who gathers stories throughout his travels.

Exploring Ancient Skies brings together the methods of archaeology and the insights of modern astronomy to explore the science of astronomy as it was practiced in various cultures prior to the invention of the telescope. The book reviews an enormous and growing body of literature on the cultures of the ancient Mediterranean, the Far East, and the New World (particularly Mesoamerica), putting the ancient astronomical materials into their archaeological and cultural contexts. The authors begin with an overview of the field and proceed to essential aspects of naked-eye astronomy, followed by an examination of specific cultures. The book concludes by taking into account the purposes of ancient astronomy: astrology, navigation, calendar regulation, and (not least) the understanding of our place and role in the universe. Skies are recreated to display critical events as they would have appeared to ancient observers - events such as the supernova of 1054, the 'lion horoscope' or the 'Star of Bethlehem.' Exploring Ancient Skies provides a comprehensive overview of the relationships between astronomy and other areas of human investigation. It will be useful as a reference for scholars and students in both astronomy and archaeology, and will be of compelling interest to readers who seek a broad understanding of our collective intellectual history.

"The range of Manas performance traditions captured here is immense. What is wonderful and remarkable is that each is presented vividly, with careful ethnographic detail, so that they become living traditions to the reader."--Susan Wadley, Syracuse University

Although *The Tin Drum* has often been called one of the great novels of the 20th century, most critics have been baffled in attempting to draw its apparent chaos into a single literary framework. Here is the full-length study to penetrate the brilliance of Gunter Grass's style and uncover the novel's mythopoetic core. In *A Mythic Journey: Gunter Grass's Tin Drum*, author Edward Diller convincingly demonstrates the still valid relationship between modern and classical literary criticism. By reading *The Tin Drum* as both modern myth and historical epic, he provides a profound and sensitive interpretation of one of the masterpieces of 20th century literature.

This book will be of interest to a wide range of readers, from students of Ancient History and early Christianity, to Qabalists and modern magicians. A cult modern classic, *Tropic of Capricorn* is as daring, frank and influential as Henry Miller first novel, *Tropic of Cancer*. A story of sexual and spiritual awakening, *Tropic of Capricorn* shocked readers when it was published in 1939. A mixture of fiction and autobiography, it is the story of Henry V. Miller who works for the Cosmodemonic telegraph company in New York in the 1920s and tries to write the most important work of literature that was ever published. *Tropic of Capricorn* paints a dazzling picture of the life of the writer and of New York City between the wars: the skyscrapers and the sewers, the lust and the dejection, the smells and the sounds of a city that is perpetually in motion, threatening to swallow everyone and everything. 'Literature

begins and ends with the meaning of what Miller has done' Lawrence Durrell 'The only imaginative prose-writer of the slightest value who has appeared among the English-speaking races for some years past' George Orwell 'The greatest American writer' Bob Dylan Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include *Tropic of Cancer* (1934), *Tropic of Capricorn* (1939), and the *Rosy Crucifixion* trilogy (*Sexus*, 1949, *Plexus*, 1953, and *Nexus*, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.

Stephen Alexander Hunter's '*Studies in the Book of Revelation*' provides clear and accurate results of the investigation of modern scholars, in language which is comprehensible to the intelligent reader of the English Bible. The Revelation of St. John has been an enigma from the earliest Christian centuries. On the one hand, it has been shunned because of its mysteriousness; on the other, it has been discredited for sober-minded, intelligent Christians by the absurd vagaries of its interpreters.

Anyone deeply interested in converts seeks an exposition of the Catholic Faith which not only defines each article of the Creed and each doctrine of the Church, but which also gives an explanation and a reason for the doctrine," writes Fulton J. Sheen in the Foreword to this classic of religious instruction. "Such an ideal is beautifully satisfied in a Catechism written by one of our zealous missionary Bishops, Most Reverend Louis L. R. Morrow, S.T.D., Bishop of Krishnagar. The presentation is such as to satisfy the mentality of both children and adults, and is even not beyond an excellent review for those who have studied both Dogmatic and Moral Theology." "In 1968, a young Black man, Henry Dumas, went through a turnstile at a New York City subway station. A transit cop shot him in the chest and killed him. Circumstances surrounding his death remain unclear. Before that happened, however, he had written some of the most beautiful, moving, and profound poetry and fiction that I have ever in my life read. He was thirty-three years old when he was killed, but in those thirty-three years, he had completed work, the quality and quantity of which are almost never achieved in several lifetimes. He was brilliant. He was magnetic, and he was an incredible artist." Toni Morrison

He was captured and hanged later that year. Benet's poem covers the history of the American Civil War. It won the Pulitzer Prize in 1929.
