The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Meredith Hall's moving but unsentimental memoir begins in 1965, when she becomes pregnant at sixteen. Shunned by her insular New Hampshire community, she is then kicked out of the house by her mother. Her father and stepmother reluctantly take her in, hiding her before they finally banish her altogether. After giving her baby up for adoption, Hall wanders recklessly through the Middle East, where she survives by selling her possessions and finally her blood. She returns to New England and stitches together a life that encircles her silenced and invisible grief. When he is twenty-one, her lost son finds her. Hall learns that he grew up in gritty poverty with an abusive father—in her own father's hometown. Their reunion is tender, turbulent, and ultimately redemptive. Hall's parents never ask for her forgiveness, yet as they age, she offers them her love. What sets *Without a Map* apart is the way in which loss and betrayal evolve into compassion, and compassion into wisdom.

The hauntings have reached Lake Michigan! The latest in the *Haunted Lake* series, *Haunted Lake Michigan* features the research of maritime historian (and accidental ghost chaser) Frederick Stonehouse. In this volume, Stonehouse relates the tales of lost maritime spirits and cursed ships, sea monsters, UFOs, ghostly echoes of Prohibition-era murders and a deliciously horrible host of other hauntings on, in and around Lake Michigan. This book blends traditional stories with previously unpublished accounts of spookiness and strange occurrences.

The best-selling illustrated desk diary from the RHS.

February issue includes Appendix entitled *Directory of United States Government periodicals and subscription publications*; September issue includes *List of depository libraries*; June and December issues include semiannual index. The *Encyclopaedia* fills a gap in both the history of science and in cultural studies. Reference works on other cultures tend either to omit science completely or pay little attention to it, and those on the history of science almost always start with the Greeks, with perhaps a mention of the Islamic world as a translator of Greek scientific works. The purpose of the *Encyclopaedia* is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures' science. Our aim is not to claim the superiority of other cultures, but to engage in a mutual exchange of ideas. The Western academic divisions of science, technology, and medicine have been united in the *Encyclopaedia* because in ancient cultures these disciplines were connected. This work contributes to redressing the balance in the number of reference works devoted to the study of Western science, and encourages awareness of cultural diversity. The *Encyclopaedia* is the first compilation of this sort, and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today. There is nothing that crosses disciplinary and

geographic boundaries, dealing with both scientific and philosophical issues, to the extent that this work does. xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa.
