Burro's Tortillas Terri Fields,2007-06-20 In a Southwestern retelling of The Little Red Hen, Burro finds it difficult to get any help from his friends as he diligently works to turn corn into tortillas, in a text that includes a Spanish/English glossary and a simple recipe for making tortillas.

The Inclusion of Environmental Education in Science Teacher Education Alec Bodzin,Beth Shiner Klein,Starlin Weaver,2010-08-13 In the coming decades, the general public will be required ever more often to understand complex environmental issues, evaluate proposed environmental plans, and understand how individual decisions affect the environment at local to global scales. Thus it is of fundamental importance to ensure that higher quality education about these ecological issues raises the environmental literacy of the general public. In order to achieve this, teachers need to be trained as well as classroom practice enhanced. This volume focuses on the integration of environmental education into science teacher education. The book begins by providing readers with foundational knowledge of environmental education as it applies to the discipline of science education. It relates the historical and philosophical underpinnings of EE, as well as current trends in the subject that relate to science teacher education. Later chapters examine the pedagogical practices of environmental education in the context of science teacher education. Case studies of environmental education teaching and learning strategies in science teacher education, and instructional practices in K-12 science classrooms, are included. This book shares knowledge and ideas about environmental education pedagogy and serves as a reliable guide for both science teacher educators and K-12 science educators who wish to insert environmental education into science teacher education. Coverage includes everything from the methods employed in summer camps to the use of podcasting as a pedagogical aid. Studies have shown that schools that do manage to incorporate EE into their teaching programs demonstrate significant growth in student achievement as well as improved student behavior. This text argues that the multidisciplinary nature of environmental education itself requires problem-solving, critical thinking and literacy skills that benefit students' work right across the curriculum.

African American Historic Places National Register of Historic Places,1995-07-13 Culled from the records of the National Register of Historic Places, a roster of all types of significant properties across the United States, African American Historic Places includes over 800 places in 42 states and two U.S. territories that have played a role in black American history. Banks, cemeteries, clubs, colleges, forts, homes, hospitals, schools, and shops are but a few of the types of sites explored in this volume, which is an invaluable reference guide for researchers, historians, preservationists, and anyone interested in African American culture. Also included are eight insightful essays on the African American experience, from migration to the role of women, from the Harlem Renaissance to the Civil Rights Movement. The authors represent academia, museums, historic preservation, and politics, and utilize the listed properties to vividly illustrate the role of communities and women, the forces of migration, the influence of the arts and heritage preservation, and the struggles for freedom and civil rights. Together they lead to a better understanding of the contributions of African Americans to American history. They illustrate the events and people, the designs and achievements that define African American history. And they pay powerful tribute to the spirit of black America.

Disruptive Classroom Technologies Sonny Magana, 2017-05-04 Ensure your technological integration is leading to deeper learning! Have we developed, at considerable cost and effort, classrooms that are digitally rich but innovation poor? Timely and powerful, this book offers a new framework to elevate instructional practices with technology and maximize student learning. The T3 Framework helps categorize students' learning as translational, transformational, or transcendent, sorting through the low-impact applications to reach high-impact usage. Teachers and leaders will find: Examples of technology use at the translational, transformational, and transcendent levels Activities, guides, and prompts for deeper learning Evaluative rubrics to self-assess current technology use, establish meaningful goals, and track progress This guide helps teachers and

leaders realize the potential of modern teaching and learning tools to unleash students' passion for limitless learning. We need to build collaborative communities of students using the social media aspects of technology to change classroom conversations from monologue to dialogue, increasing student impact questions, and allowing errors. This is the core of Magana's claims, and how we'll see technology really make the difference we're after! —John Hattie, Laureate Professor, Deputy Dean of MGSE, Director of the Melbourne Education Research Institute Fresh, innovative, and revolutionary, Magana's T3 Framework promises to challenge the status quo and invite disruptive practices in educational technology. —Yong Zhao Author, *World Class Learners* The T3 Framework is a brilliant breakthrough in our understanding and use of technology for learning. —Michael Fullan, Professor Emeritus OISE/University of Toronto, Canada

A Companion to François Truffaut Dudley Andrew, Anne Gillain, 2013-02-11 A Companion to François Truffaut “An unprecedented critical tribute to the director who, in France, wound up becoming the most controversial figure of the New Wave he helped found.” Raymond Bellour, Centre National de la Recherche Scientifique “This exciting collection breaks through the widely held critical view that Truffaut abandoned the iconoclasm of his early work for an academicism he had consistently railed against in his own film criticism. Indeed, if ‘fever’ and ‘fire’ were Truffaut’s most consistent motifs, the essays in this collection live up to his lifelong, burning passion for the cinema. Written by world-famous scholars, the essays exhaustively explore the themes and styles of the films, as well as Truffaut’s relationships to André Bazin, Alfred Hitchcock, and the directors of the New Wave, his ground-breaking and controversial film criticism, and his position in the complex politics of French cultural life from the Popular Front to 1968 and after.” Angelo Restivo, Georgia State University Although the New Wave, one of the most influential aesthetic revolutions in the history of cinema, might not have existed without him, François Truffaut has largely been ignored by film scholars since his death almost thirty years ago. As an innovative theoretician, an influential critic, and a celebrated filmmaker, Truffaut formulated, disseminated, and illustrated the ideals of the New Wave with exceptional energy and distinction. Yet no book in recent years has focused on Truffaut’s value, and his overall contribution to cinema deserves to be redefined not only to reinstate him in his proper place but to let us rethink how cinema developed during his lifetime. In this new Companion, thirty-four original essays by leading film scholars offer new readings of individual films and original perspectives on the filmmaker’s background, influences, and consequence. Hugely influential around the globe, Truffaut is assessed by international contributors who delve into the unique quality of his narratives and establish the depth of his distinctively styled work. An extended interview with French filmmaker Arnaud Desplechin tracks Truffaut’s controversial stature within French cinema and vividly identifies how he thinks and works as a director, adding an irreplaceable perspective to this essential volume.
