Triplets ("One or All") is a logic puzzle invented by Naoki Inaba (Japan). The task consists of a rectangular or square grid divided into regions of exactly three cells. George Orwell's celebrated novella, *Animal Farm*, is a biting, allegorical, political satire on totalitarianism in general and Stalinism in particular. One of the most famous works in modern English literature, it is a telling comment on Soviet Russia under Stalin's brutal dictatorship based on a cult of personality which was enforced through a reign of terror. The book tells a seemingly simple story of farm animals who rebel against their master in the hope of stopping their exploitation at the hand of humans and creating a society where animals would be equal, free and happy. Ultimately, however, the rebellion is betrayed and the farm ends up in a state as bad as it was before. The novel thus demonstrates how easily good intentions can be subverted into tyranny. Orwell has himself said that it was the first book in which he had tried, with full consciousness of what he was doing, 'to fuse political purpose and artistic purpose into one whole.' The book was first published in England in 1945, and has since then remained a favourite with readers all over the world, and has consistently been included in all prestigious bestseller lists for the past many years.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for

writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

What makes a crossword cunning? The 100 puzzles in this collection easily answer that question. First, they use real words--not those, such as "anoa" and "oca," that seem to exist only in crossword puzzle dictionaries. Next, they all have a theme, and at least two answers in each puzzle that relate to each other. And finally, the clues are hard enough to test your crossword savvy, but not so difficult that they leave you screaming in frustration. Of course, answers to all the clues can be found in the back, so that you don't have to wake up nights pondering an 11-letter word for delusions of power--"megalomania"--or a 5-letter word for a Missouri native. So sharpen your pencil--and your mind--and attack these skillfully made, entertaining brain-teasing puzzles. Are you cunning enough to solve them all?
