In *Shah of Shahs* Kapuscinski brings a mythographer's perspective and a novelist's virtuosity to bear on the overthrow of the last Shah of Iran, one of the most infamous of the United States' client-dictators, who resolved to transform his country into "a second America in a generation," only to be toppled virtually overnight. From his vantage point at the break-up of the old regime, Kapuscinski gives us a compelling history of conspiracy, repression, fanaticism, and revolution. Translated from the Polish by William R. Brand and Katarzyna Mroczkowska-Brand.

'Only with the greatest of simplifications, for the sake of convenience, can we say Africa. In reality, except as a geographical term, Africa doesn't exist'. Ryszard Kapuscinski has been writing about the people of Africa throughout his career. In a study that avoids the official routes, palaces and big politics, he sets out to create an account of post-colonial Africa seen at once as a whole and as a location that wholly defies generalised explanations. It is both a sustained meditation on the mosaic of peoples and practises we call 'Africa', and an impassioned attempt to come to terms with humanity itself as it struggles to escape from foreign domination, from the intoxications of freedom, from war and from politics as theft.

Capoeira evolved as a Brazilian martial art developed initially by that country's African slaves. Marked by deft, deceptive movements played on the ground or completely inverted, the form started gaining worldwide popularity in the early 20th century, when this second volume of Gerard Taylor's wide-ranging history begins. The book opens with a study of the capoeira "Bamba," Mestre Bimba, who became renowned as

a fighting champion in Bahia and opened the first legal academy during the dictatorship of Getulio Vargas. Taylor investigates the dramatic development of the schism that resulted in the competing styles of Regional and Angola. Moving into contemporary capoeira, the author provides an overview of new trends, such as international encounters, long distance “mail-order mestres,” mass membership capoeira associations, cyber-capoeira, and grading systems. The book features the wisdom of a number of important mestres recounting their experiences teaching capoeira professionally around the world. In frank, inspiring interviews they talk about the highs and lows of the capoeira life, and how its lessons can enrich people’s lives. Photographs, illustrations, and an extensive glossary of terms illuminate the complex history of this fighting art.

Shows the human face of Angola at a critical juncture in its history. Jonas Savimbi, leader of the rebel movement UNITA, was killed in February 2002. UNITA collapsed, giving Angola its first extended period of peace, since the nationalist uprising against Portuguese rule in the 1960s. This is a story of the extremes of the human condition.

An impressionistic account of the last Shah of Iran by a Polish journalist, this brilliant book captures the irony, force and power of the revolution that toppled the Shah. Kapuscinski has written an equally compelling book on another autocrat, Haile Selassie, the Emperor.

The acclaimed Polish journalist describes his earliest odysseys into the world beyond the Iron Curtain, detailing his journeys of discovery to China, India, Iran, Africa, and beyond, accompanied by a volume of Herodotus, a gift from his first boss. Reprint. 30,000 first printing.

This account of the rise and fall of Ethiopian emperor Haile Selassie is "an unforgettable, fiercely comic, and finally compassionate book" (Salman Rushdie, Man Booker Prize-winning author). After Haile Selassie was deposed in 1974, Ryszard Kapuściński—Poland's top foreign correspondent—went to Ethiopia to piece together a firsthand account of how the emperor governed his country, and why he finally fell from power. At great risk to himself, Kapuściński interviewed members of the imperial circle who had gone into hiding. The result is this remarkable book, in which Selassie's servants and closest associates share accounts—humorous, frightening, sad, grotesque—of a man living amidst nearly unimaginable pomp and luxury while his people teetered between hunger and starvation. It is a classic portrait of authoritarianism, and a fascinating story of a forty-four-year reign that ended with a coup d'état in 1974.

Ryszard Kapuscinski's last book, *The Soccer War* - a revelation of the contemporary experience of war -- prompted John le Carre to call the author "the conjurer extraordinary of modern reportage." Now, in *Imperium*, Kapuscinski gives us a work of equal emotional force and evocative power: a personal, brilliantly detailed exploration of the almost unfathomably complex Soviet empire in our time. He begins with his own childhood memories of the postwar Soviet occupation of Pinsk, in what was then Poland's eastern frontier ("something dreadful and incomprehensible...in this world that I enter at seven years of age"), and takes us up to 1967, when, as a journalist just starting out, he traveled across a snow-covered and desolate Siberia, and through the Soviet Union's seven southern and Central Asian republics, territories whose individual histories, cultures, and religions he found thriving even within the "stiff, rigorous corset of Soviet power." Between 1989 and 1991, Kapuscinski made a series of extended journeys through the disintegrating Soviet empire, and his account of these forms the heart of the book. Bypassing official institutions and itineraries, he traversed the Soviet territory alone, from the border of Poland to the site of the most infamous gulags in far-eastern Siberia (where "nature pals it up with the executioner"), from above the Arctic Circle to the edge of Afghanistan,

visiting dozens of cities and towns and outposts, traveling more than 40,000 miles, venturing into the individual lives of men, women, and children in order to Understand the collapsing but still various larger life of the empire. Bringing the book to a close is a collection of notes which, Kapuscinski writes, "arose in the margins of my journeys" -- reflections on the state of the ex-USSR and on his experience of having watched its fate unfold "on the screen of a television set...as well as on the screen of the country's ordinary, daily reality, which surrounded me during my travels." It is this "schizophrenic perception in two different dimensions" that enabled Kapuscinski to discover and illuminate the most telling features of a society in dire turmoil. Imperium is a remarkable work from one of the most original and sharply perceptive interpreters of our world -- galvanizing narrative deeply informed by Kapuscinski's limitless curiosity and his passion for truth, and suffused with his vivid sense of the overwhelming importance of history as it is lived, and of our constantly shifting places within it.

'Like rotting stakes in a forest clearing' The great journalist of conflict in the Third World finds an even stranger and more exotic society in his own home of post-War Poland Penguin Modern: fifty new books celebrating the pioneering spirit of the iconic Penguin Modern Classics series, with each one offering a concentrated hit of its contemporary, international flavour. Here are authors ranging from Kathy Acker to James Baldwin, Truman Capote to Stanislaw Lem and George Orwell to Shirley Jackson; essays radical and inspiring; poems moving and disturbing; stories surreal and fabulous; taking us from the deep South to modern Japan, New York's underground scene to the farthest reaches of outer space.

This book explores the phenomenon of Independence Days. These rituals had complex meanings both in the territories concerned and in Britain as the imperial metropole, where they were extensively reported in the press. The text is concerned with the political management, associated rhetoric and iconography of these seminal celebrations. The focus is therefore very much on political culture in a broad sense, and changing perceptions and presentations over time. Highlights of the book include an overview by David Cannadine

relating the topic to ornamentalism, invented tradition and transitions in British culture. Although the book is mainly concerned with the British Empire, Martin Shipway – a leading historian and cultural analyst of French decolonization – contributes an acute summary of how the same ‘moment’ was handled differently in the other great European empires. There are detailed and lively studies by noted specialists of the immediate coming of Independence to India/Pakistan, Malaya, Ghana, Zimbabwe, and Guyana. The book includes a thematic focus on the important role of representatives of the British monarchy in legitimating transfers of sovereignty at their point of climax. This book was published as a special issue of *The Round Table*.

One of the most brilliant journalists of the postwar world, Kapuscinski (born 1932) spent decades criss-crossing Africa, witnessing the horrors of a continent ravaged by imperialism and its aftershocks. Humane, evocative and magical, *The Cobra's Heart* makes the case for Kapuscinski as a great writer as well as a great journalist. *Great Journeys* allows readers to travel both around the planet and back through the centuries - but also back into ideas and worlds frightening, ruthless and cruel in different ways from our own. Few reading experiences can begin to match that of engaging with writers who saw astounding things: Great civilisations, walls of ice,

violent and implacable jungles, deserts and mountains, multitudes of birds and flowers new to science. Reading these books is to see the world afresh, to rediscover a time when many cultures were quite strange to each other, where legends and stories were treated as facts and in which so much was still to be discovered.

Since it was founded in 2003, Good African Coffee has helped thousands of farmers earn a decent living, send their children to school and escape a spiral of debt and dependence. Africa has received over \$1 trillion in aid over the last fifty years and yet despite these huge inflows, the continent remains mired in poverty, disease and systemic corruption. In *A Good African Story*, as Andrew Rugasira recounts the very personal story of his company and the challenges that he has faced – and overcome – as an African entrepreneur, he provides a tantalising glimpse of what Africa could be, and argues that trade has achieved what years of aid have failed to deliver. This is a book about Africa taking its destiny in its own hands, and dictating the terms of its future.

Part diary and part reportage, *The Soccer War* is a remarkable chronicle of war in the late twentieth century. Between 1958 and 1980, working primarily for the Polish Press Agency, Kapuscinski covered twenty-seven revolutions and coups in Africa, Latin America, and the Middle East. Here, with characteristic cogency and emotional immediacy, he recounts the stories behind his official press dispatches—searing firsthand accounts of the frightening, grotesque, and comically absurd aspects of life during war. *The Soccer War* is a singular work of journalism.

Though Levithan considers this to be the earlier novel's 'twin,' it has a separate, deeply satisfying identity and can be read on its own." —Booklist, Starred PRAISE FOR EVERY DAY: "A story that is always alluring, oftentimes humorous and much like love itself—splendorous." —Los Angeles Times This book argues that a radical political gesture can be found in Søren Kierkegaard's writings. The chapters navigate an interdisciplinary landscape by placing Kierkegaard's passionate thought in conversation with the writings of Georg Lukács, Carl Schmitt, Walter Benjamin and Theodor Adorno. At the heart of the book's argument is the concept of "indirect politics," which names a negative space between methods, concepts, and intellectual acts in the work of Kierkegaard, as well as marking the dynamic relations between Kierkegaard and the aforementioned thinkers. Kierkegaard's indirect

politics is a set of masks that displaces identities from one field to the next: theology masks politics; law masks theology; political theory masks philosophy; and psychology masks literary approaches to truth. As reflected in Lukács, Schmitt, Benjamin, and Adorno, this book examines how Kierkegaard's indirect politics sets into relief three significant motifs: intellectual non-conformism, indirect communication in and through ambiguous identities, and negative dialectics. A "remarkable memoir" (Nature) of life with an emperor penguin colony, gorgeously illustrated with 32 pages of exclusive photography For 337 days, award-winning wildlife cameraman Lindsay McCrae intimately followed 11,000 emperor penguins amid the singular beauty of Antarctica. This is his masterful chronicle of one penguin colony's astonishing journey of life, death, and rebirth—and of the extraordinary human experience of living amongst them in the planet's harshest environment. A miracle occurs each winter in Antarctica. As temperatures plummet 60° below zero and the sea around the remote southern continent freezes, emperors—the largest of all penguins—begin marching up to 100 miles over solid ice to reach their breeding grounds. They are the only animals to breed in the depths of this, the worst winter on the planet; and in an unusual role reversal, the males incubate the eggs, fasting for over 100 days to ensure they introduce their chicks safely into their new frozen world. My Penguin Year recounts McCrae's

remarkable adventure to the end of the Earth. He observed every aspect of a breeding emperor's life, facing the inevitable sacrifices that came with living his childhood dream, and grappling with the personal obstacles that, being over 15,000km away from the comforts of home, almost proved too much. Out of that experience, he has written an unprecedented portrait of Antarctica's most extraordinary residents. In the global context of the Cold War, the relationship between liberation movements and Eastern European states obviously changed and transformed. Similarly, forms of (material) aid and (ideological) encouragement underwent changes over time. The articles assembled in this volume argue that the traditional Cold War geography of bi-polar competition with the United States is not sufficient to fully grasp these transformations. The question of which side of the ideological divide was more successful (or lucky) in impacting actors and societies in the global south is still relevant, yet the Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that exists until today. Acknowledging the complexities of liberation movements in globalization processes, the papers thus argue that activities need to be understood in their local context, including personal agendas and internal conflicts, rather than relying primarily on the traditional frame of Cold War competition. They point to the agency of individual activists in both "Africa" and "Eastern Europe" and the lessons, practices and languages that were derived from their often contradictory encounters. In Southern African Liberation Movements, authors from South Africa, Portugal, Austria and Germany ask: What role did actors in both Southern Africa and Eastern

Europe play? What can we learn by looking at biographies in a time of increasing racial and international conflict? And which "creative solutions" need to be found, to combine efforts of actors from various ideological camps? Building on archival sources from various regions in different languages, case studies presented in the edition try to encounter the lack of a coherent state of the art. They aim at combining the sometimes scarce sources with qualitative interviews to give answers to the many open questions regarding Southern African liberation movements and their connections to the "East".

'A peculiar genius with no modern equivalent, except possibly Kafka' - Jonathan Miller Regarded as a central part of Kapuscinski's work, these vivid portraits of life in the depths of Poland embody the young writer's mastery of literary reportage When the great Ryszard Kapuscinski was a young journalist in the early 1960s, he was sent to the farthest reaches of his native Poland between foreign assignments. The resulting pieces brought together in this new collection, nearly all of which are translated into English for the first time, reveal a place just as strange as the distant lands he visited. From forgotten villages to collective farms, Kapuscinski explores a Poland that is post-Stalinist but still Communist; a country on the edge of modernity. He encounters those for

Lauren has Autism Spectrum Disorder, and she sees the world a little differently from other kids. What makes her comfortable are her routines and her coping mechanisms for her anxiety, which can get out of control in no time. Famous for being in the wrong places at just the right times, Ryszard Kapuscinski arrived in Africa in 1957, at the beginning of the end of colonial rule - the "sometimes dramatic and painful, sometimes enjoyable and jubilant" rebirth of a continent. *The Shadow of the Sun* sums up the author's experiences ("the record of a 40-year marriage") in this place that became the central obsession of his remarkable career. From the hopeful years of independence through the bloody disintegration of places like Nigeria, Rwanda and Angola, Kapuscinski recounts great social and political changes through the prism of the ordinary African. He examines the rough-and-ready physical world and identifies the true geography of Africa: a little-understood spiritual universe, an African way of being. He looks also at Africa in the wake of two epoch-making changes: the arrival of AIDS and the definitive departure of the white man. Kapuscinski's rare humanity invests his subjects with a grandeur and a dignity unmatched by any other writer on the Third World, and his unique ability to discern the universal in the particular has never been more powerfully displayed than in this work. Exploring travellers' tales of wonder in contemporary literature, this study challenges a sensibility of disenchantment with travel. It reassesses travel writing as an aesthetically and ethically innovative form in contemporary international literature, and demonstrates the crucial role of wonder in the travel narratives of writers such as Bruce Chatwin, V.S. Naipaul, and W.G. Sebald. Their 'travellers' tales of wonder' are read as a challenge to the hubris of thinking the world too well known, and an invitation to encounter the world - including its most troubling histories - with a sense of wonder.

Kapu?ci?ski was one of the most influential eyewitness journalists of the twentieth century. During the Cold War, he was a dauntless investigator as well as a towering literary talent, and books such as *The Emperor* and *Travels with Herodotus* founded the new genre of 'literary reportage'. It was an achievement that brought him global renown, not to mention the uninvited attentions of the CIA. In this definitive biography, Artur Domo?awski shines a new light on the personal relationships of this intensely charismatic, deeply private man, examining the intractable issue at the heart of Kapu?ci?ski's life and work: the relationship and tension between journalism and literature. In researching this book, Domo?awski, himself an award-winning foreign correspondent, enjoyed unprecedented access to Kapu?ci?ski's private papers. The result traces his mentor's footsteps through Africa and Latin America, delves into files and archives that Kapu?ci?ski himself examined, and records conversations with the people that he talked to in the course of his own investigations. Ryszard Kapu?ci?ski is a meticulous, riveting portrait of a complex man of intense curiosity living at the heart of dangerous times.

While Ethiopia collapsed around him in 1975, Kapuscinski travelled throughout the country listening to stories of the recently dead Supreme Emperor Haile Selassie by the servants and associates that had surrounded him. The Polish journalist transforms these interviews into a powerful narrative of high living and unimaginable abuse by the ancient regime. In *Masters of War*, Clara Nieto adeptly presents the parallel histories of the countries of Latin America, histories that are intertwined, each reflecting the United States' "coherent policy of intervention" set into motion by the Monroe Doctrine. As the value of this continued policy comes increasingly into question, Nieto argues for the need to evaluate the alarming precedent set in Latin America: the institution of client dictatorships, the roles played by the interests of U.S. corporations, the enormous tolls taken on civilian populations, and the irreversible disruption of regional stability. Drawing from an impressive array of documents and sources as well as from her unique first-hand insights as a participant in crucial meetings and negotiations in the region from the mid-1960s through the mid-1980s, Nieto chronicles the Cuban Revolution, the CIA-sponsored coup against popularly elected President Allende in Chile, the U.S. invasions of Panama and Grenada, U.S. support for the cultivation and training of paramilitary death squads in Nicaragua, El Salvador, and Colombia, as well as similarly severe but less well-known situations in other countries such as Uruguay, Venezuela, Argentina, Peru, Bolivia, Honduras, and Guatemala. *Masters of War* offers, from an informed perspective, perhaps for the first time, a distanced, objective analysis of recent Latin American history.
