"The Art of Appreciation", by Peggy Halevi uplifts its readers with personal encouragement to create a much better life through responsible positive thinking and thought-heart-emotional connections. The reader is inspired to utilize the procedures described to relax into a growing awareness of their own happiness and self-worth through the simple act of "Appreciating". The book entwines real experiences, stories, feelings and profound wisdom into contributing factors of enlightenment based upon the Law of Attraction.

The New York Times bestseller: "You gotta read this. It is the most exciting book about Pluto you will ever read in your life." —Jon Stewart
When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, "Pluto Not a Planet? Only in New York." Immediately, the public, professionals, and press were choosing sides over Pluto's planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Pluto's demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes the oversized characters of the people who study them, and recounts how America's favorite planet was ousted from the cosmic hub.

The first and most terrifying monster in English literature, from the great early epic Beowulf, tells his own side of the story in this frequently banned book. This classic and much lauded retelling of Beowulf follows the monster Grendel as he learns about humans and fights the war at the center of the Anglo Saxon classic epic. This is the book William Gass called "one of the finest of our contemporary fictions."

PRovides a basic understanding of American crime problems and historical perspectives. Units include the study of crime, types of crimes, criminology, and the criminal justice system.

In the summer of 1900, bands of peasant youths from the villages of north China streamed into Beijing to besiege the foreign legations, attracting the attention of the entire world. Joseph Esherick reconstructs the early history of the Boxers, challenging the traditional view that they grew from earlier anti-dynastic sects, and stressing instead the impact of social ecology and popular culture.

Understanding Corporate Law is designed to assist students by offering a clear and comprehensive treatment of key concepts in corporate law. It is a popular study guide for students and has been used by professors to supplement their casebook or as recommended reading. Significant business, economic, and policy issues are highlighted in connection with a thorough analysis of the important cases and statutory provisions used in the study of corporations. It includes the major theoretical approaches used in current corporate law literature. In each chapter, the authors identify important policies and discuss the relationship of the law as it has developed to those policies. Statutory issues are covered under both the General Corporation Law of the State of Delaware and the Revised Model Business Corporation Act.

Understanding Corporate Law discusses developing case law including the Delaware courts' use of good faith in fiduciary duty cases. The book also reflects the corporate governance issues raised by the corporate scandals and the passage of the Sarbanes-Oxley Act of 2002. A section of Chapter 5 deals generally with that Act, but its impact is also covered in relevant sections throughout the book. This Understanding treatise is designed to be used in conjunction with all of the major corporate law casebooks.

In the Words of Desmond Tutu is a collection of some of Nobel Peace Prize laureate Archbishop Desmond Mpilo Tutu's most famous and inspiring quotes and it conveys the intelligence, dignity, steadfastness and much admired wit with which he goes about his work. In doing so it shows how he has come to symbolise and indeed mould a growing movement for global justice. The words collected here promise to provide inspiration in confronting challenges of discrimination and moral uncertainty which we all face, individually or collectively.

Book Excerpt: ...ing so heavily upon millions of our people. Our next step in seeking immediate relief is a grant of half a billion dollars to help the states, counties and municipalities in their duty to care for those who need direct and immediate relief. The Congress also passed legislation authorizing the sale of beer in such states as desired it. This has already resulted in considerable reemployment and incidentally has provided much needed tax revenue. We are planning to ask the Congress for legislation to enable the government to undertake public works, thus stimulating directly and indirectly the employment of many others in well-considered projects. Further legislation has been taken up which goes much more fundamentally into our economic problems. The Farm Relief Bill seeks by the use of several methods, alone or together, to bring about an increased return to farmers for their major farm products, seeking at the same time to prevent in the days to come disastrous overproduction which so often in the..

Poetry. In Noel Sloboda's second book of poems, he delves beneath the surface of suburban life, weaving together ancient myths, childhood nightmares, and historical reveries. OUR RARER MONSTERS explores intersections between real and imagined geographies: a residential block where Grendel lives next door and Prospero is parked out in the street. These poems—and the accompanying linocuts by Marc Snyder—plumb the depths of memory to unearth roots that bind us to the literary, cultural, and mythological traditions of yesterday as we hurtle irresistibly through the twenty-first century. "Noel Sloboda's OUR RARER MONSTERS is an imaginative book full of wonder and charm."—Jeannine Hall Gailey "I kept coming back to Sloboda's poems and to Marc Snyder's exquisite linocuts included in this utterly winning book. Here is a poetry collection not to be missed for its audacity and verve."—Kristin Ong Muslim

This book contains the solutions to the exercises in the Intermediate Financial Accounting Volume 2 textbook.

This college level trigonometry text may be different than most other trigonometry textbooks. In this book, the reader is expected to do more than read the book but is expected to study the material in the book by working out examples rather than just reading about them. So the book is not just about mathematical content (although it does contain important topics in trigonometry needed for further study in mathematics), but it is also about the process of learning and doing mathematics and is designed not to be just casually read but rather to be engaged. Recognizing that actively studying a mathematics book is often not easy, several features of the textbook have been designed to help students become more engaged as they study the material. Some of the features are: Beginning activities in each section that engage students with the material to be introduced, focus questions that help students stay focused on what is important in the section, progress checks that are short exercises or activities that replace the standard examples in most textbooks, a section

summary, and appendices with answers for the progress checks and selected exercises.

As a Cookbook, this book enables you to create APEX web applications and to implement features with immediately usable recipes that unleash the powerful functionality of Oracle APEX 4.2. Each recipe is presented as a separate, standalone entity and the reading of other, prior recipes is not required. It can be seen as a reference and a practical guide to APEX development. This book is aimed both at developers new to the APEX environment and at intermediate developers. More advanced developers will also gain from the information at hand. If you are new to APEX you will find recipes to start development and if you are an experienced user you will find ways to improve your productivity and efficiency and make the most of APEX to enhance your applications. The Apex Book of World SF, edited by Lavie Tidhar, features award-winning science fiction and fantasy short stories from Asia, Eastern Europe and around the world. The world of speculative fiction is expansive; it covers more than one country, one continent, one culture. Collected here are sixteen stories penned by authors from Thailand, the Philippines, China, Israel, Pakistan, Serbia, Croatia, Malaysia, and other countries across the globe. Each one tells a tale breathtakingly vast and varied, whether caught in the ghosts of the past or entangled in a postmodern age. Among the spirits, technology, and deep recesses of the human mind, stories abound. Kites sail to the stars, technology transcends physics, and wheels cry out in the night. Memories come and go like fading echoes and a train carries its passengers through more than simple space and time. Dark and bright, beautiful and haunting, the stories herein represent speculative fiction from a sampling of the finest authors from around the world. Table of Contents: S.P. Somtow (Thailand) — "The Bird Catcher" Jetse de Vries (Netherlands) — "Transcendence Express" Guy Hasson (Israel) — "The Levantine Experiments" Han Song (China) — "The Wheel of Samsara" Kaaron Warren (Australia/Fiji) — "Ghost Jail" Yang Ping (China) — "Wizard World" Dean Francis Alfar (Philippines) — "L'Aquilone du Estrellas (The Kite of Stars)" Nir Yaniv (Israel) — "Cinderers" Jamil Nasir (Palestine) — "The Allah Stairs" Tunku Halim (Malaysia) — "Biggest Baddest Bomoh" Alette de Bodard (France) — "The Lost Xuyan Bride" Kristin Mandigma (Philippines) — "Excerpt from a Letter by a Social-realist Aswang" Aleksandar Žiljak (Croatia) — "An Evening in the City Coffehouse, With Lydia on My Mind" Anil Menon (India) — "Into the Night" Mélanie Fazi (France, translated by Christopher Priest) — "Elegy" Zoran Živkovi? (Serbia, translated by Alice Copple-Toši?) — "Compartments" Cover art and design by Sarah Anne Langton. Reviews: "From S.P. Somtow's World Fantasy Award-winning "The Bird Catcher," a restrained horror tale of a young boy's friendship with Thailand's most infamous human "monster," to "Wizard World," Galaxy Award winner Yang Ping's story of high-tech gamers, this extraordinary anthology of 16 tales introduces English-speaking readers to some of the world's best writers of sf, horror, fantasy, and metafiction. Contributors include Jamil Nasir (Palestine), Aleksandar Ziljak (Croatia), Guy Hasson (Israel), Kaaron Warren (Australia/Fiji), and Jetse de Vries (Netherlands). VERDICT This literary window into the international world of imaginative fiction, the first in a new series, is sure to appeal to adventurous sf fans and readers of fiction in translation." —Library Journal "The great thing about Tidhar's collection is that it is full of such masterpieces. You do have to get used to having your mind warped as if by some powerful psychedelic. You'll definitely feel that way after Zoran Zivkovic and his Godot-like explorations. Or after Guy Hassan's thought experiment about the nature of mind and thought. But once you get used to the idea, you can settle in and enjoy the ride." —42SciFi-Fantasy.com, Randy Lazarus "These stories deserve to be heard!" —Frederik Pohl

The Pluto Files: The Rise and Fall of America's Favorite Planet W. W. Norton & Company

LIAISONS is an innovative beginning-level French program firmly grounded in principles of communicative language teaching and research in second language acquisition. Components of the program are carefully linked together, showing students how they can make connections with their classmates, their instructor, their community, and the French-speaking world. With an engaging mystery film shot on location in Montreal, Quebec, and Paris, the program provides a rich array of communicative activities designed to stimulate interaction inside and outside the classroom. The underlying pedagogical framework in LIAISONS asks students to first discover new vocabulary and grammar through different mediums, then connect form and meaning through a set of confidence-building activities, and finally, actively create language. In this wise and lyrical book about landscapes of the desert and the mind, Edward Abbey guides us beyond the wall of the city and asphalt belting of superhighways to special pockets of wilderness that stretch from the interior of Alaska to the dry lands of Mexico.

First published in paperback by UNM Press in 1976, *The Way to Rainy Mountain* has sold over 200,000 copies. "The paperback edition of *The Way to Rainy Mountain* was first published twenty-five years ago. One should not be surprised, I suppose, that it has remained vital, and immediate, for that is the nature of story. And this is particularly true of the oral tradition, which exists in a dimension of timelessness. I was first told these stories by my father when I was a child. I do not know how long they had existed before I heard them. They seem to proceed from a place of origin as old as the earth. "The stories in *The Way to Rainy Mountain* are told in three voices. The first voice is the voice of my father, the ancestral voice, and the voice of the Kiowa oral tradition. The second is the voice of historical commentary. And the third is that of personal reminiscence, my own voice. There is a turning and

returning of myth, history, and memoir throughout, a narrative wheel that is as sacred as language itself."--from the new Preface
Spring and All (1923) is a book of poems by William Carlos Williams. Predominately known as a poet, Williams frequently pushed the limits of prose style throughout his works, often comprised of a seamless blend of both forms of writing. In Spring and All, the closest thing to a manifesto he wrote, Williams addresses the nature of his modern poetics which not only pursues a particularly American idiom, but attempts to capture the relationship between language and the world it describes. Part essay, part poem, Spring and All is a landmark of American literature from a poet whose daring search for the outer limits of life both redefined and expanded the meaning of language itself. "There is a constant barrier between the reader and his consciousness of immediate contact with the world. If there is an ocean it is here." In Spring and All, Williams identifies the incomprehensible nature of consciousness as the single most important subject of poetry. Accused of being "heartless" and "cruel," of producing "positively repellent" works of art in order to "make fun of humanity," Williams doesn't so much defend himself as dig in his heels. His poetry is addressed "[t]o the imagination" itself; it seeks to break down the "the barrier between sense and the vaporous fringe which distracts the attention from its agonized approaches to the moment." When he states that "so much depends / upon // a red wheel / barrow," he refers to the need to understand the nature of language, which keeps us in touch with the world. With a beautifully designed cover and professionally typeset manuscript, this edition of William Carlos Williams' Spring and All is a classic of American literature reimagined for modern readers.

This book has two primary objectives: It teaches students fundamental concepts in discrete mathematics (from counting to basic cryptography to graph theory), and it teaches students proof-writing skills. With a wealth of learning aids and a clear presentation, the book teaches students not only how to write proofs, but how to think clearly and present cases logically beyond this course. Overall, this book is an introduction to mathematics. In particular, it is an introduction to discrete mathematics. All of the material is directly applicable to computer science and engineering, but it is presented from a mathematician's perspective. While algorithms and analysis appear throughout, the emphasis is on mathematics. Students will learn that discrete mathematics is very useful, especially those whose interests lie in computer science and engineering, as well as those who plan to study probability, statistics, operations research, and other areas of applied mathematics.

The Enduring Democracy by Kenneth Dautrich, David A. Yalof, and Christina Bejarano examines the current state of American politics through the lenses of American history and the nation's changing demographics. This two-pronged approach encourages students to place current issues and controversies into historical perspective, and to think critically about how those issues and controversies are impacted by America's increasingly diverse population. By analyzing and understanding the influences of historical context and demographics, students can debate effectively with references, use historical outcomes to predict for the future, and create strong arguments based on what they know about fundamental changes in the political landscape. The highly anticipated Sixth Edition frames the 2016 general election and 2018 midterm elections from the perspective of what they mean to college students, so that they can see the relevance of American government in their daily lives. Also available as a digital option (courseware). Learn more about The Enduring Democracy, Sixth Edition - Vantage Digital Option.

The Philosophy of Composition Edgar Allan Poe "The Philosophy of Composition" is an essay by Edgar Allan Poe. Edgar Allan Poe (born Edgar Poe; January 19, 1809 - October 7, 1849) was an American author, poet, editor, and literary critic, considered part of the American Romantic Movement. Best known for his tales of mystery and the macabre, Poe was one of the earliest American practitioners of the short story, and is generally considered the inventor of the detective fiction genre. He is further credited with contributing to the emerging genre of science fiction. He was the first well-known American writer to try to earn a living through writing alone, resulting in a financially difficult life and career. Born in Boston, he was the second child of two actors. His father abandoned the family in 1810, and his mother died the following year. Thus orphaned, the child was taken in by John and Frances Allan, of Richmond, Virginia. Although they never formally adopted him, Poe was with them well into young adulthood. Tension developed later as John Allan and Edgar repeatedly clashed over debts, including those incurred by gambling, and the cost of secondary education for the young man. Poe attended the University of Virginia for one semester but left due to lack of money. Poe quarreled with Allan over the funds for his education and enlisted in the Army in 1827 under an assumed name. It was at this time his publishing career began, albeit humbly, with an anonymous collection of poems, Tamerlane and Other Poems (1827), credited only to "a Bostonian." With the death of Frances Allan in 1829, Poe and Allan reached a temporary rapprochement. Later failing as an officer's cadet at West Point and declaring a firm wish to be a poet and writer, Poe parted ways with John Allan. Poe switched his focus to prose and spent the next several years working for literary journals and periodicals, becoming known for his own style of literary criticism. His work forced him to move among several cities, including Baltimore, Philadelphia, and New York City. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access

to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.
