Each year, millions of teens are cited for various offenses, ranging from traffic violations to criminal trespassing. Regardless of the offense, the majority of these young people arrive in court for the first time, usually unfamiliar with the judicial process and unprepared to stand before a judge. In this no-holds-barred guide, Leora Krygier, a judge for almost 20 years, provides teens with important information about how to prepare for a court appearance. Krygier addresses the most common types of offenses committed by young people and helps decipher their citations. This instructive guide gives teens and their parents an overview of the juvenile court justice system, then takes the reader through the entire process—from the moment a citation is written, to arraignment, possible trial, and disposition of their case. Drawing on examples, stories, and excerpts from actual letters and essays written by teens, *Juvenile Court: A Judge's Guide for Young Adults and Their Parents* de-mystifies the judicial process and help teens get back on the right track. The book also offers no-nonsense tips aimed to help teens avoid future citations.

Award-winning teacher and respected author of several volumes, Professor Laura Little has written a new book on the First Amendment. Following the proven Examples and Explanations format, the book covers all of the amendment's major topics – with emphasis on speech and religion. Professor Little presents hypothetical examples that range from simple and straightforward to complex and rich. As a result, students using the book can acquire both basic and advanced knowledge of First Amendment doctrine. Equally important, this approach allows students the opportunity to practice their skill of marshalling arguments on many sides of contested legal issues. With its short chapters, the book is an exceptionally useful complement to any of the available casebooks in the field. Highlights of this E&E study aid (first edition): Professor Little brings her characteristically clear writing style and constitutional law expertise to the subject. The book's organization enables students to choose the particular topics they need to study and that match the coverage of their course. The topics covered include a comprehensive review of the most recent U.S. Supreme Court decisions on speech, association, and religion as well as cutting edge issues raised by current events, including the COVID-19 pandemic. The concise explication of legal doctrine (and its uncertainties) ensure a baseline of student understanding and maximizes accessibility to difficult, abstract concepts. The book's balance between simple and complex hypotheticals serves an array of student needs. While providing deep coverage of abstract concepts, the book includes many practical introductions to law practice reality. Professor Little has not only established her reputation as a constitutional scholar, but also comes to the subject with experience as a practicing First Amendment lawyer for the media. Professors and students will benefit from: Adaptable organization allows the book to complement any casebook. Figures, examples, explanations, and varying difficulty in the presented material ensure that the book will serve the needs of a variety of users and will appeal to different learning styles. Balance between theoretical and practical materials enables broad understanding.

Experts agree. Georgia's DUI laws are exceptionally hard on drinking drivers. Under the "less safe driver" provisions, motorists can be convicted of DUI even when blood alcohol levels are below 0.05 grams. And when alcohol levels exceed 0.08 grams, Georgia judges have no choice but to sentence drivers to jail. This one-volume reference does much more than compile short summations of relevant cases. By providing in-depth analysis of a series of representative cases, *Georgia DUI Law* highlights the seemingly minor factual variations that can affect the court's reasoning and ultimate holding. *Georgia DUI Law* will help you rebut all statutory inferences, attack the accuracy and efficiency of the Intoxilyzer 5000, the machine normally used to determine a "per se" (0.08) violation, and identify lapses and inconsistencies on the part of the state. It supplies the guidance you need to structure a more successful legal argument, conduct more effective investigation and discovery, and deliver more compelling opening and closing arguments. *Georgia DUI Law* includes numerous references to the Official Code of Georgia.

A revelatory account based on the authors' unprecedented access to the NCAA's highest-level programs throughout the 2012 season describes its high-powered system of billion-dollar television deals, high-priced coaches, football "hostessing," castoff athlete-students, and paid test takers.

The Apology of Socrates was written by Plato. In fact, it's a defensive speech of Socrates that he said in a court noted down by Plato. The main subject of the speech is a problem of the evil. Socrates insists that neither death nor death sentence is evil. We shouldn't be afraid of the death because we don't know anything about it. Socrates proved that the death shouldn't be taken as the evil with the following dilemma: the death is either a peace or a transit from this life to the next. Both can't be called evil.

Consequently, the death shouldn't be treated as evil.

"Consider the case of William Beebe, who drugged and raped eighteen-year-old Liz Seccuro at a University of Virginia Phi Kappa Psi party in 1984. Seccuro awoke the next day wrapped in a bloody sheet on the couch of the deserted fraternity house. She confirmed Beebe's identity by the mail on his dresser. Still bloodied and bruised, Seccuro reported the attack. Campus authorities and Charlottesville police treated her claim dismissively and obstructed her access to a proper investigation. Beebe claimed she had consented. Feeling stonewalled and hoping to move forward with the rest of her education and life, Seccuro stopped pursuing legal recourse. Twenty-one years later, Seccuro pulled out of her driveway en route to a vacation with her spouse and young child"--

The Salem witch hunt has entered our vocabulary as the very essence of injustice. Judge Samuel Sewall presided at these trials, passing harsh judgment on the condemned. But five years later, he publicly recanted his guilty verdicts and begged for forgiveness. This extraordinary act was a turning point not only for Sewall but also for America's nascent values and mores. In

Judge Sewall's Apology, Richard Francis draws on the judge's own diaries, which enables us to see the early colonists not as grim ideologues, but as flesh-and-blood idealists, striving for a new society while coming to terms with the desires and imperfections of ordinary life. Through this unsung hero of the American conscience -- a Puritan, an antislavery agitator, a defender of Native American rights, and a Utopian theorist -- we are granted a fresh perspective on a familiar drama.

The Way Life Made Me By: Jimmy Scales *The Way Life Made Me: Silent Tears of a Savage* is the story of an innocent child who battles with religious faith and is brought up through travesty. He morphs into a man with a low tolerance and bitterness towards life. He brawls with reason, inflicting the necessary consequences to those he deems as wrong.

Is urban gun violence an increasing part of juvenile crime? Do some juvenile detention centers rely too much on force? Is a life sentence without parole appropriate for juvenile offenders? Questions like these and more are answered in this book. Readers will learn about several aspects of juvenile crime from essay sources such as the Human Rights Watch. This book is an exploratory study of a juvenile drug treatment court in the Midwest. Based on observations and interviews the author conducted while serving as the contracted program evaluator, the book investigates how denial, surveillance, coercion, accountability, and definitions of success operate and interact in the Juvenile Drug Court environment and intertwine with institutional needs and authority structures. The book's findings suggest that some drug court practices may expose participants to potential harms that until now have been largely ignored in studies of drug courts. *Drug Court Justice* concludes with suggestions for reducing the potential harms of juvenile drug courts.

Clinical psychologist and clergywoman Lucille F. Sider adds her voice to the chorus of women in the #WhyIDidntReport and #MeToo movements. This is Lucille's story of resilience and hope as a survivor of sexual abuse. She explains the challenges of finding her way out of a fear-based spirituality into one that is full of grace, hope and forgiveness. The unique richness of her book is that she wrote it to spark healing discussion. As she describes her experiences in these pages, she also steps back and offers helpful analysis as both a psychologist and a clergywoman. At the end of the book, she includes a complete study guide with questions for reflection for individuals, small groups and classes. "The book is arranged to be a valuable tool in the hands of persons in the helping professions, such as clergy, social workers, psychologists," writes the Rev. Jo Anne Lyon, General Superintendent Emerita and Ambassador of The Wesleyan Church. "This writing is so powerful, yet gentle, that people will be able to add their own words to combat the pain.

Lucille's credentials enhance the power of the story. Truly a book for these days!" Lucille was just 6 years old when she was abused both physically and sexually by a hired man on the family's farm. Lucille's inner conflict about these experiences, propelled her into a childhood of guilt and shame. While Lucille was an outstanding student, singer and athlete, she lived with an underlying fear, loneliness and mild depression. A second sexual abuse by her brother-in-law, when she was just 15 years old, added to Lucille's fears. When she tried to tell her parents about this, their response was only to pray for her—so, she kept these painful events secret for years. Many years later, her brother in law was arrested for molesting a 15-year-old girl. Lucille and others, including his own daughter, testified against him and he was incarcerated. Raised in a conservative household and faith, Lucille went to college and seminary to search for a theology that was full of grace and forgiveness. She found this especially at Yale Divinity School, though she always lived with a mild depression. Her struggle to understand both her faith and psyche led her to earn a PhD from Northwestern University in psychology and religion. She became a clinical psychologist and pastoral counselor and later the Executive Director of The Samaritan Pastoral Counseling Center in Evanston, Illinois. At age 50, when her husband suddenly divorced her, Lucille was cast into darkness and despair which resulted in major depression. Lucille became dysfunctional and had to step down as Executive Director of her counseling center. Years of therapy led her to new ways of offering and sharing her gifts, which included writing stories and ministering to seniors, especially those suffering from dementia. In *Light Shines in the Darkness*, Lucille F. Sider shares her unique story of sexual abuse and severe mental illness, including depression and PTSD. She describes her legal battle in fighting for justice and her ongoing persistence in finding ways to remain stable. She calls these her mental health and spiritual practices and they include: counseling, medication, meditation, healthy diet, exercise, daily prayer and church attendance. In sharing her story, Lucille now is helping others along their journeys from sexual abuse to stability—to find their own hope and their own light that shines through the darkness. "Timely, compelling and courageous, this autobiography lays bare the trauma of both child and adolescent abuse," writes Carol Schreck, Professor Emerita of Pastoral Care and Counseling at Palmer Theological Seminary. "This book deserves to be read by any adult who, living in a culture where 80 percent of females have experienced some form of sexual abuse by the age of 18, are no longer content to keep their proverbial head in the sand."

The news is flooded with stories of people apologizing. But we don't need more apologies, says John Kador, we need better ones. Too many people just go through the motions. They completely miss tapping into the transformative power of apology to restore strained relationships, create possibilities for growth, and generate better outcomes for all. Arguing that apology is a sign of strength, not weakness Kador details what he calls the five R's of effective apology. And he uses over seventy examples of good and bad apologies, drawn from the news, popular culture, and how own experiences, to show how to make apology work in the real world: when and how to apologize, in what medium, and how to make it stick. Apology, Kador demonstrates, is a critical skill, one that can defuse resentment, free the heart from shame, create goodwill, reduce litigation, and transform a relationship ruptured by mistrust and disappointment into something stronger and more durable than it ever was before.

An unprecedented plunge into New York City's federal court system that gives us a revelatory picture of how our justice system, and the pursuit of justice, really works. A young Italian Mafioso helps get rid of a body in Queens. In Manhattan, a hedge fund portfolio manager misrepresents his company's assets to investors. At JFK International Airport, a college student returns from Jamaica with cocaine stuffed in the handle of her suitcase. These are just a few of the stories that

come to life in this comprehensive look at the Southern District Court in Manhattan, and the Eastern District Court in Brooklyn--the two federal courts tasked with maintaining order in New York City. Johnny Dwyer takes us not just into the courtrooms but into the lives of those who enter through its doors: the judges and attorneys, prosecutors and defendants, winners and losers. He examines crimes we've read about in the papers or seen in movies and on television--organized crime, terrorism, drug trafficking, corruption, and white-collar crime--and weaves in the nuances that rarely make it into headlines. Brimming with detail and drama, *The Districts* illuminates the meaning of intent, of reasonable doubt, of deception, and--perhaps most important of all--of justice.

A ticked-off judge has tossed Abby in the slammer for contempt of court, and during her brief but unpleasant stay she learns the story of Skyler Miller, a condemned woman who is confronting a far more serious sentence: the death penalty. Everyone believes she's guilty of murder, including her own family and her ex-husband - everyone, that is, except Abby, whose finely honed intuition tells her this woman doesn't belong behind bars. With the help of her husband Dutch and her friend Candice, Abby launches into her own investigation to clear Skyler and find the real killer.

This book is a non-fiction eye opener that provides readers a portrait of Family Law and what can happen should you find yourself in family court. It is a slippery slope that can send you downhill faster than a runaway train. This story provides you with serious concerns regarding ADD/ADHD drugging of our children, and how schools should not make recommendations to parents about using these drugs. This book exploits the system showing how Judges and Lawyers create Dead Beat DADs destroying the bond between father's and their children. Overall it leaves you with the discomfiting reality that our legal system is broken and shredding the fabric of family value. Writing this book became a way to deliver a message—the only thing necessary for evil to exist—is for good men to do nothing.

Provides a humorous collection of letters from cats providing excuses and suggestions for their human companions.

This volume examines the role of apologia and apology in response to public attack. Author Keith Michael Hearit provides an introduction to these common components of public life, and considers a diverse list of subjects, from public figures and individuals to corporations and institutions. He explores the motivations and rationales behind apologies, and considers the ethics and legal liabilities of these actions. Hearit provides case studies throughout the volume, with many familiar examples from recent events in the United States, as well as an international apology-making case from Japan. The broad-perspective approach of this volume makes the content relevant and appealing to practitioners and scholars in public relations, business communications, and management. It is a valuable text for courses that take a discursive approach to public relations, and it also appeals to readers in business management, examining apology as a response strategy to corporate crises.

"If you want to know why Harriet Lerner is one of my great heroes, *Why Won't You Apologize?* is the answer. This book is a game changer." —Brené Brown, PhD, LMSW, author of the #1 New York Times bestseller *Rising Strong* "Harriet Lerner is one hell of a wise woman. She draws you in with deft and engaging prose, and then changes your life with her rigorous intelligence and her deeply human advice. I promise that you will never see 'the apology' in quite the same way." —Esther Perel, MA, LMFT author of *Mating in Captivity* Renowned psychologist and bestselling author of *The Dance of Anger* sheds new light on the two most important words in the English language—I'm sorry—and offers a unique perspective on the challenge of healing broken connections and restoring trust. Dr. Harriet Lerner has been studying apologies—and why some people won't give them—for more than two decades. Now she offers compelling stories and solid theory that bring home how much the simple apology matters and what is required for healing when the hurt we've inflicted (or received) is far from simple. Readers will learn how to craft a deeply meaningful "I'm sorry" and avoid apologies that only deepen the original injury. *Why Won't You Apologize?* also addresses the compelling needs of the injured party—the one who has been hurt by someone who won't apologize, tell the truth, or feel remorse. Lerner explains what drives both the non-apologizer and the over-apologizer, as well as why the people who do the worst things are the least able to own up. She helps the injured person resist pressure to forgive too easily and challenges the popular notion that forgiveness is the only path to peace of mind. With her trademark humor and wit, Lerner offers a joyful and sanity-saving guide to setting things right.
